# INTRODUCTION

*MasterFormal*<sup>®</sup> is a master list of numbers and titles identifying work results and construction practices, primarily used to organize project manuals and detailed cost information, and relate drawing notations to specifications.

Construction projects use many kinds of delivery methods, products, and installation methods, but one thing is common to all – the need for effective teamwork by the many parties involved to ensure the correct and timely completion of work. The successful completion of projects requires effective communication amongst the people involved, and that in turn requires easy access to essential project information. Efficient information organization and retrieval is enhanced significantly when a standard filing system is used by everyone. *MasterFormat* provides such a standard filing system that can be used throughout the construction industry.

This new edition of *MasterFormat* includes changes and enhancements made for the 2018 Edition and replaces all previous updates and editions. It is produced jointly by the Construction Specifications Institute (CSI) and Construction Specifications Canada (CSC).

# WHY MASTERFORMAT?

As mentioned above, *MasterFormat* is a standardized arrangement of work results provided to enhance the speed and quality of communication by professionals participating as part of a construction project team. Though it was designed initially for use in traditional commercial and institutional building construction, it has since been expanded to fully address the needs of heavy civil, roadway, process, and industrial construction projects – indeed, *MasterFormat* can now be used for any type of construction in which humans engage.

The work results in *MasterFormat* are organized in a series of hierarchies so that users can easily find the information that they need for the purposes of bidding, understanding the design intent and quality requirements of any assembly to be installed or constructed, and estimating the costs of facility construction and maintenance, among many other possible uses for a body of information organized in this way. *MasterFormat* has been in use and continuous refinement for more than fifty-five years, and the familiarity of its structure has provided users with a reliable starting point for the often high pressure, short deadline work they must perform when participating in a construction project.

# **INDUSTRY ACCEPTANCE**

Over the past fifty-five years, the system of numbers and titles described in *MasterFormat* has been used increasingly by the construction industry. Today, *MasterFormat* is by far the most widely used system for organizing construction project manuals in North America; its system of organizing construction information into Procurement and Contracting Requirements, and technical Divisions of activities and work practices has been applied in every type of information resource used in design and construction.

# MASTERFORMAT REVISION PROCESS

*MasterFormat* 2004 Edition was developed with the idea that maintaining the standard on an ongoing basis, as contrasted with releasing new editions every five to seven years, could be one of the possible outcomes enabled by its new content, organization, and numbering system. In early 2006, CSI and Construction Specifications Canada appointed the *MasterFormat* Maintenance Task Team to conduct this ongoing review and evolutionary addition of numbers and titles to *MasterFormat* as demanded by industry trends. This effort was augmented by the participation of commercial implementers of *MasterFormat*, including the major master guide specification and product information providers in the United States and Canada. These major master guide specification providers are represented on the *MasterFormat* Maintenance Task Team.

In late 2008, the *MasterFormat* Maintenance Task Team adopted an annual revision process, taking input from users over the course of each year and releasing new editions of *MasterFormat* in response to those proposals once annually. This process was modified to be a biennial process starting with the 2012 Update. The next scheduled edition will be in 2020.

Commentary and proposals for changes or additions to *MasterFormat* can be submitted on the masterformat.com website for consideration by the *MasterFormat* Maintenance Task Team at its annual meeting. The deadline for submitting proposals each year is April 30; any submissions made after April 30 will be added to the queue for the following year's meeting. New numbers and titles resulting from these meetings are published on masterformat.com coincident with the publication of the new edition.

# MASTERFORMAT MAINTENANCE TASK TEAM APPROVAL PROCESS

All proposals must pass through a two-stage process before approval. Both stages measure the proposal as presented against the same set of criteria, but at different levels of detail.

The first stage is an initial screening of the proposal for addition to the task team meeting agenda. This screening measures the proposal as submitted against existing *MasterFormat* numbers and titles, and against similar proposals submitted that year or previously. If upon a cursory examination the proposal is found to meet the decision-making criteria established by the task team, it is added to the meeting agenda for further discussion and decision. If the proposal does not meet those criteria, even at a cursory level, then it is not added to the meeting agenda and the proposer is informed immediately.

The second stage takes place at the task team meeting, when the task team members examine each proposal on the agenda in more depth to determine if it meets the decision-making criteria below to a sufficient degree to merit addition or other change to *MasterFormat*.

# MASTERFORMAT MAINTENANCE TASK TEAM DECISION-MAKING CRITERIA

All proposals are judged against the following criteria for addition to the annual meeting agenda, and also for approval as revisions to *MasterFormat*. The questions posed by the criteria are taken in order as presented below.

 Eligibility. "Is the subject matter in question a work result?" Work results are defined as "permanent or temporary aspects of construction projects achieved in the production stage or by subsequent alteration, maintenance, or demolition processes, through the application of a particular skill or trade to construction resources." In most cases, "construction resources" are products. Generally speaking, product-focused proposals are not "work results." Unless information is presented by the proposer that the number being proposed embodies a new work result, with new properties and/or new installation requirements previously unanticipated by existing *MasterFormat* numbers and titles, a product-focused proposal will likely be denied.

If the answer to this question is yes, then the decision-making process will proceed to the second question. If the answer to this question is no, then the proposal will be denied.

2. Duplicate of Existing *MasterFormat* Listing. "Is the subject of the proposal already addressed adequately by an existing number and title?" Many work results are specified under titles that have broader subject coverage than the work result in question – such a title may consider many possible alternative work results with substantially similar qualities.

If the answer to this question is no, then the decision-making process will proceed to the next question. If yes, then the proposal will be denied.

- 2.1. Usefulness. If a proposed number and title covers a subject matter area already addressed by an existing *MasterFormat* number and title, it may still be appropriate for inclusion in *MasterFormat* if the proposed title better defines the subject matter addressed by the existing title or the proposed title's potential usefulness or appropriateness exceeds that of the existing title. As with all considerations in this process, there is a need to balance potential usefulness for the organization of specifications with purity of classification and potential usefulness of *MasterFormat* for other information applications. When applying the above guideline and this exception, it is important to avoid potential confusion in the use of *MasterFormat* either from potentially duplicative Section titles or from Section titles that don't accurately convey the subject they are written to express.
- 3. Prior Action by *MasterFormat* Maintenance Task Team. "Is the subject one that has already been addressed by the task team as a result of an earlier proposal?" If the answer to this question is yes, then the proposal will be denied unless the subject matter of the new proposal is in some way materially different from the earlier proposal. The reasons for denial will depend on the action taken on the earlier proposal: In the case of an earlier *approved* proposal, the new proposal will be denied because the subject matter is now covered in *MasterFormat*, per criteria 2, above. If the earlier proposal was *denied*, then the new proposal will be denied as well, to maintain consistency in task team decision-making.
- 4. Documentation. "Is the subject of the proposal adequately documented?" Is there a clear, unambiguous synopsis of the proposal subject in generic, non-proprietary terms that show application of resources, with appropriate illustration or references (e.g. professional/industry input such as guidelines, standards, literature, etc.)? The substance supporting the proposal must be sufficient for task team discussion and decision-making purposes.

If the answer to this question is yes and the proposal was found to have sufficiently met all the other criteria, then it will be placed on the task team agenda or approved; otherwise the proposer will be contacted to obtain additional supporting documentation before a decision is rendered.

5. Minor changes. If the proposal suggests only title or added information change(s) to existing work result(s) in the current edition of *MasterFormat*, screening factors 1, 2, and 3 will not apply, and only step 4 will apply in determining approval of the item.

# **APPLICATIONS GUIDE**

This Applications Guide explains how to use *MasterFormat*.

# **APPLICATION OVERVIEW**

**Applications:** The principle application for *MasterFormat* is titling and arranging the parts of project manuals that contain combinations of procurement requirements, contracting requirements, or construction specifications. Participants in the construction process may use *MasterFormat* for other applications by adapting the organizing principles to those applications. Examples of applications include organizing information such as construction cost databases, drawing notations in coordination with specifications, collections of technical data, construction market data, and facilities management data. Although it provides a detailed and ordered listing of potential titles, *MasterFormat* is designed to maximize flexibility for individual users. For any given project, a user is free to assign new numbers for new titles in appropriate locations.

Users will note that many of the examples provided in the Applications Guide compare usage in 1995 and earlier editions with recommended usage in current (2004 and later) editions. This practice recognizes the significant changes in *MasterFormat* structure and their results on recommended practice starting with the 2004 edition.

# MASTERFORMAT STRUCTURE

# **GROUPS AND SUBGROUPS**

All of the following *MasterFormat* Groups and Subgroups can be included in Project Manuals:

- Procurement and Contracting Requirements Group (Division 00) contains:
  - Introductory Information: Indexing and general information documents are found at the beginning of project manuals.
  - Procurement Requirements and Contracting Requirements: Referred to in *MasterFormat* 1995 edition as the "Zero Series Numbers and Titles" and now included in Division 00, are used to define relationships, processes, and responsibilities for projects.
- **Specifications Group**: This Group contains the following five Subgroups. Each Subgroup is broken down into Divisions as listed. This Group has now grown from sixteen Divisions to forty-nine Divisions, (fifteen of which are reserved for future expansion).
  - General Requirements Subgroup: Division 01.
  - Facility Construction Subgroup: Divisions 02 19.
  - Facility Services Subgroup: Divisions 20 29.
  - Site and Infrastructure Subgroup: Divisions 30 39.
  - Process Equipment Subgroup: Divisions 40 49.

*Groups* are not numbered, but are divided into *Subgroups*. Subgroups are not numbered, but are divided into numbered *Divisions*. Divisions are the top Level (Level 1) in the numbered hierarchy of *MasterFormat*. The Divisions include sets of numbered *Titles* (Levels 2-4). When used for organizing specifications in a project manual, the titles are called *Sections* that specify "work results" (Levels 2-4). Work results are permanent or temporary aspects of construction projects achieved in the production stage or by subsequent alteration, maintenance, or demolition processes, through the application of a particular skill or trade to construction resources. They are the *result* evidenced in the facility after *work* has been completed.

A complete listing of the Groups, Subgroups, and Divisions that make up the highest level organization of *MasterFormat* is provided at the end of the Introduction and Applications Guide.

## **EXPANSION OF NUMBERING SYSTEM**

Beginning with the 2004 edition, the numbering scheme was revised to allow it to more adequately cover the subjects of *MasterFormat* and to provide room for future addition of new subjects without needing to restructure the system contents, as had been done many times in the years prior to 2004. The previous five-digit numbers were expanded to allow room for more subjects at each level of classification and thereby accommodate more consistent classification. The five-digit numbers had limitations resulting from the way the five digits were employed. The first two digits represented the Division, with the remaining three digits left to set a hierarchy of subjects within each Division. Because only a single digit was assigned for each Level after the Division, the number of possible Level 2 subdivisions within each Division was held to nine. Similarly, the number of categories available at Level 3, and at Level 4, which was unassigned by *MasterFormat* in the 1995 edition, was also limited to nine each. In many Divisions, this small number of available spaces for information was too limiting, and *MasterFormat* simply ran out of room to properly address topics. This lack of room often resulted in inconsistent classification, such as the insertion of topics such as Lightning Protection, Fire Suppression, Detection and Alarm, and Solar and Wind Energy Equipment into Division 13, rather than other Divisions where they would fit more appropriately, simply because there was room available in Division 13 that wasn't present in other more appropriate Divisions.

The solution to these limitations was to add a sixth digit, and to arrange the six digits into three sets of paired numbers. Arranging the numbers in this way allowed for the use of similar numbers to the 1995 edition numbers for many Level 2 topics, making the transition easier for longtime users of the 1995 and previous editions. Using pairs of numbers allows for many more items at each level, and the main six-digit number still represents three levels of subordination, as the published numbers in previous editions of *MasterFormat* had done with the first four of their five-digit numbers.

A comparison of the *MasterFormat* 1995 and previous editions' five-digit numbering system, and the six-digit numbering system in the editions of *MasterFormat* published since 2004, is given in the following example:

*MasterFormat* 1995 and earlier: 07500 - Membrane Roofing: The first two digits ("07") indicate the Division, Level 1 of the organizational scheme. Each of the next three digits is taken individually and represents Levels 2, 3, and 4 respectively. Typically in *MasterFormat* 1995, the last digit, the Level 4 number, was left unassigned, represented by a zero, to provide more flexibility for individual users.

*MasterFormat* 2004 to present: 07 50 00 - Membrane Roofing: The first two digits ("07") still indicate the Division, or Level 1. The next pair of numbers, in this case "50", represents Level 2, and the third pair, "00", represents Level 3. Since in this case Level 3 is unassigned, represented in *MasterFormat* numbers by a double zero ("00"), it means that this is a Level 2 number. And since a pair of digits represents each Level of classification, there is room to address more than ten times as many subjects at Levels 2 and 3 than there was in the 1995 edition, providing more flexibility and room for future expansion than the five-digit system was capable of supplying.

In some cases, a Level 4 pair of numbers is added to give further uniform and standardized definition of the subject matter. Unlike editions of *MasterFormat* published prior to 2004, which often provided unnumbered Level 4 titles as examples, where any work result has been defined in the current edition of *MasterFormat*, a specific number has also been assigned to facilitate improved consistent communication about more detailed subjects. The following illustrates an example of Level 2-4 titles and numbers that fall under 07 50 00 - Membrane Roofing:

07 51 00Built-Up Bituminous Roofing (Level 2)07 51 13Built-Up Asphalt Roofing (Level 3)07 51 13.13Cold-Applied Built-Up Asphalt Roofing (Level 4)

Some Level 2 numbers in *MasterFormat* are used to group related Level 2 subjects so that the organization of the classification is more easily understood and is easier for users to navigate. With the exception of one such title in Division 07 (07 25 00 - Weather Barriers), these Level 2 numbers have a zero for the second of the Level 2 pair of numbers (XX X0 00). In the example given in the paragraphs above, 07 50 00 - Membrane Roofing is such a number. 42 10 00 Process Heating Equipment and 42 30 00 Process Drying Equipment are also examples of this use of Level 2 numbers. Each of these numbers and titles serves to group related subjects, listing a selection of more detailed Level 2 titles below them, in the case of the Division 42 titles directly above, the various types of heating or drying equipment which are organized under each of them. Although their main purpose is to make the organizational structure easier to browse and use, these Level 2 numbers and titles may also be used as a Section title in a project manual like any other number and title regardless of level.

During and subsequent to the development of *MasterFormat* 2004, it has also been recognized that further subordination and subdividing of subject matter is often appropriate for reasons including the need to assign numbers to classify some subjects in more detail, and the ability to add user-defined subjects under numbers assigned in *MasterFormat*. So, in addition to the six digits, the new numbering scheme allows for the addition of a delimiter, in this case a decimal point (dot), and two more digits. In addition to providing users with another level of numbering to address specialized topics, this additional pair of digits accommodates the standardized assignment of Level 4 numbers to detailed subjects in *MasterFormat*.

Though it appears similar to the directions given in the 1995 edition for assigning multiple additional characters after a decimal point to signify user-defined Level 5 numbers, the addition of a decimal point and two additional digits to signify Level 4 numbers differs in several ways: 1) the current Level 4 digits are fixed at two, 2) they are always numbers, and 3) in some cases they are published and assigned by *MasterFormat*.

Similar to the way that the 1995 edition allowed for alphanumeric Level 5 titles, so too can users assign additional characters as needed after a *second* decimal point (dot), to code for user-defined differences between titles. These may be assigned by users for a variety of reasons, such as to indicate a client, a project type, a specific project, or to differ between product grades included in variations of an otherwise similar specification Section. For example:

| Standard Level 4 Title:   | 08 11 13.16      | Custom Hollow Metal Doors and Frames           |  |
|---|------------------|--|--|
| User-defined Level 5 Title:   | 08 11 13.16.ABC1 | ABC Brand Custom Hollow Metal Doors and Frames |  |
| If a Level 5 number was to be applied to a Level 3 or higher <i>MasterFormat</i> number, it could be done so by inserting a decimal and two zeroes ("00") before the Level 5 designation, in the following fashion: |                  |  |  |
| Standard Level 3 Title:   | 10 51 13         | Metal Lockers                                  |  |

User-defined Level 5 Title: 10 51 13.00.XY12B XY Project Metal Lockers

As detailed in the paragraphs above, *Level 5 numbers and titles are only for internal use*; titles and numbers included in project manuals and other applications are to be limited to Level 4 and broader levels.

# Assigned Numbers

Starting with the 2004 edition, numbers have been assigned where possible to correspond to *MasterFormat* 1995 numbers when such correspondence between the numbers could be fit into the new system. Thus 09650 Resilient Flooring is 09 65 00; 14240 Hydraulic Elevators is 14 24 00; 16540 Classified Location Lighting is 26 54 00; and so on.

The following conventions have been used in assigning numbers:

- The numbers 00 to 09 at Levels 3 and 4 are generally left unassigned.
- Numbers ending in a zero; 10, 20, 30, 40, 50, 60, 70, 80, and 90 at Levels 3 and 4 are generally left unassigned to avoid the tendency to imply a hierarchy that doesn't exist at the Level in question (i.e. the incorrect implication that "11 14 43" is a child of "11 14 40").
- In most Divisions, title and number assignments at Levels 3 and 4 have been allocated in groups of three -- 13, 16, 19, then 23, 26, 29, and so on. This was done only to provide spacing between titles and numbers; the choice of these specific numbers was otherwise relatively arbitrary. Since the initial publication of *MasterFormat* 2004, many other numbering conventions have been employed to avoid re-use of recently deprecated or moved number and title pairs.

A user does *not* need to follow the above conventions and is free to use any appropriate number in the assignment of new numbers for new titles, *providing*.

- The title and number are appropriately located within a Division and Section area that corresponds with their subject matter.
- The title does not already have an assigned number.
- The number has not already been assigned to another title.
- It is not within a Division that has been designated as reserved for future expansion.

# TITLE TERMINOLOGY

As compared with the 1995 and earlier editions, titles in editions since 2004 have been revised slightly to use terminology that more consistently reflects that *MasterFormat* is classifying work results rather than products. For example, the 1995 edition number and title 03200 Concrete Reinforcement is now 03 20 00 Concrete Reinforcing; 05210 Steel Joists is now 05 21 00 Steel Joist Framing; and 09910 Paints is now 09 91 00 Painting. In cases where the work result title is the same as the product, the titles have remained the same. For example, 06160 Sheathing remains 06 16 00 Sheathing; 08380 Traffic Doors; and 12350 Specialty Casework remains 12 35 00 Specialty Casework.

# **DIVISION LEVEL TITLES**

The number XX 00 00 is listed in every Division and represents a Division level Section with a title the same as the Division title. These titles have been included in the 2004 and later editions of *MasterFormat* to provide users preparing project manuals the flexibility to write Division level Sections if called for. One possible application of this could be for Sections in a very simple or small-scale project.

# **DESIGNATED LOCATIONS FOR SUBJECT MATTER**

Some subjects that are repeated in most Divisions have been located in a consistent manner at the beginning of each Division. These subjects include Operations and Maintenance, Common Work Results, Schedules, and Commissioning. Operations and Maintenance includes subjects that take place after initial handover of the facility, including but not limited to periodic maintenance, repair, rehabilitation, replacement, and restoration. These numbers and titles are applicable when operation and maintenance is the main focus of the work results included in the project manual, especially in cases where operations and maintenance activities apply to many Sections within a Division. In instances where operation and maintenance outcomes are not the central focus of the work result, but is rather one aspect of another work result Section, the user should reference the CSI/CSC publication *SectionFormat*<sup>™</sup> for instructions on the inclusion of operation and maintenance information and requirements as a part of the Section which is the focus of the work result.

**XX 01 00 Operations and Maintenance** - Work results related to Operations and Maintenance are consistently located at XX 01 00 in each Division as shown in the following example:

# 22 01 00 Operation and Maintenance of Plumbing

- 22 01 10 Operation and Maintenance of Plumbing Piping and Pumps
  - 22 01 10.16 Video Piping Inspections
  - 22 01 10.51 Plumbing Piping Cleaning
  - 22 01 10.61 Plumbing Piping Repairs
  - 22 01 10.62 Plumbing Piping Relining
  - 22 01 30 Operation and Maintenance of Plumbing Equipment
  - 22 01 40 Operation and Maintenance of Plumbing Fixtures
  - 22 01 50 Operation and Maintenance of Pool and Fountain Plumbing Systems
  - 22 01 60 Operation and Maintenance of Laboratory and Healthcare Systems

All new titles and numbers with the range of XX 01 00 to XX 01 99 should relate to operation and maintenance of subjects of that Division. The Explanation Column in each Division includes a recommended Level 4 numbering scheme for operation and maintenance subjects.

**XX 05 00 Common Work Results** - Work results pertaining to subjects referenced by or included in multiple titles within a Division are consistently located at XX 05 00 in that Division, as shown in the following example:

# 22 05 00 Common Work Results for Plumbing

- 22 05 05 Selective Demolition for Plumbing
- 22 05 13 Common Motor Requirements for Plumbing Equipment
- 22 05 16 Expansion Fittings and Loops for Plumbing Piping
- 22 05 17 Sleeves and Sleeve Seals for Plumbing Piping
- 22 05 19 Meters and Gauges for Plumbing Piping
- 22 05 23 General-Duty Valves for Plumbing Piping
- 22 05 26 Hangers and Supports for Plumbing Piping and Equipment
- 22 05 33 Heat Tracing for Plumbing Piping
- 22 05 43 Vibration and Seismic Control for Plumbing Piping and Equipment
  - 22 05 48.13 Vibration Controls for Plumbing Piping and Equipment
- 22 05 53 Identification for Plumbing Piping and Equipment
- 22 05 73 Facility Drainage Manholes
- 22 05 76 Facility Drainage Piping Cleanouts

All new titles and numbers with the range of XX 05 00 to XX 05 99 should relate to work results common to or referenced by more than one title within that Division. In a project manual application, these other Sections can then reference the Common Work Results Section, allowing for a single location for this information. These titles and numbers can also be used for the classification of products or assemblies that are common to multiple titles with a Division.

**XX 06 00 Schedules** - In a project manual application, schedules that relate to the work of only one Section should be located within that Section. Schedules that reference work results described by multiple Sections within a Division are consistently located at XX 06 00, as shown in the following example:

| 25 06 00 | Schedules for Integra | ted Automation   |
|----------|-----------------------|--|
| 25 06 1  | 1 Schedules for       | Integrated Automation Network                              |
| 25 06 1  | 2 Schedules for       | Integrated Automation Network Gateways                     |
| 25 06 1  | 3 Schedules for       | Integrated Automation Control and Monitoring Network       |
| 25 06 1  | 4 Schedules for       | Integrated Automation Local Control Units                  |
| 25 06 3  | 30 Schedules for      | Integrated Automation Instrumentation and Terminal Devices |

All new titles and numbers with the range of XX 06 00 to XX 06 99 should relate to schedules for subjects that apply to multiple Sections of that Division.

**XX 08 00 Commissioning** - Commissioning work results that apply to multiple titles from multiple Divisions should be located at 01 91 00 Commissioning in Division 01. Work results related to Commissioning that apply to multiple titles within a single Division are consistently located at XX 08 00, as shown in the following example:

| 34 08 00 | Commissioning of Transportation |
|----------|---------------------------------|
| 34 08 13 | Commissioning of Roadways       |
| 34 08 23 | Commissioning of Railways       |
| 34 08 33 | Commissioning of Airfields      |
| 34 08 43 | Commissioning of Bridges        |

All new titles and numbers with the range of XX 08 00 to XX 08 99 should relate to the commissioning of subjects that apply to multiple titles of that Division.

Because the Process Equipment Subgroup is organized somewhat differently, the Divisions in this Subgroup also have an additional designated location of 40 80 00 Commissioning of Process Systems that applies to all the subjects within the Process Equipment Subgroup. This is in addition to the 4X 08 00 location for commissioning that only relates to multiple titles within a single Division of that Subgroup.

Some subjects repeated in multiple Divisions of the Facility Services Subgroup also have similar consistently designated locations at the beginning of the Divisions in that Subgroup:

- 2X 07 00 XXXX Insulation
- 2X 09 00 Instrumentation and Control for XXXXX

Because the Process Equipment Subgroup is organized somewhat differently, 40 90 00 Primary Control Devices is the designated location in the Process Equipment Subgroup for devices that adjust industrial process variables across entire systems. Work results described under 40 90 00 are typically for projects where the entire project has a distinct, process instrumentation or control orientation.

# SELECTING MASTERFORMAT TITLES

Proper selection of titles based on their relative hierarchy helps users make inferences about the scope of documents, files, and line items. For example, consider this sequence of titles in Division 07:

| 07 42 00 Wall I | Panels (Level 2)                           |
|-----------------|--|
| 07 42 13        | Metal Wall Panels (Level 3)                |
| 07 42 23        | Wood Wall Panels (Level 3)                 |
| 07 42 26        | Tile Wall Panels (Level 3)                 |
| 07 42 29        | Terra Cotta Wall Panels (Level 3)          |
| 07 42 33        | Plastic Wall Panels (Level 3)              |
| 07 42 43        | Composite Wall Panels (Level 3)            |
| 07 42 46        | Cementitious Wall Panels (Level 3)         |
| 07 42 63        | Fabricated Wall Panel Assemblies (Level 3) |
| 07 42 93        | Soffit Panels (Level 3)                    |

Depending on the application, a user may wish to create a new user-defined number and title, as in the case of the same panels being used for both roof and wall applications. A reasonable choice for such a new number and title would be 07 43 00 Roof and Wall Panels (Level 2). If they are metal panels, a reasonable choice based around the structure given above for the wall panels Sections would be 07 43 13 Metal Roof and Wall Panels (Level 3).

In another application, the user may need a different type of wall panel from those listed above at Level 3, perhaps to describe a different material than those listed, for example fiber-cement. In that case, a reasonable choice for a Fiber-Cement Wall Panel would be 07 42 51 (Level 3). Or, the user may decide that there is a need to create a Level 4 number for a more specific type of Metal Wall Panel. In that case, a title such as Aluminum Metal Wall Panels might be assigned the number 07 42 13.11, making it a child of 07 42 13 Metal Wall Panels. Excepting the numbers for the already existing standardized Level 4 children of 07 42 13 Metal Wall Panels, the "11" chosen as the fourth pair of numbers could be any number between 01 and 99, depending on the wishes of the user.

To take full advantage of *MasterFormat* as an industry standard and to facilitate communications, the assigned numbers and titles should be used as much as possible. Following the guidelines given herein, users may develop new additional titles to better reflect the required work results for a particular project.

# Assigning MasterFormat Numbers

Unassigned numbers are available for users to assign to Level 2, 3, and 4 titles to undesignated subjects (i.e., those titles not yet included in the master list). Users should not assign titles to any numbers within the Divisions that are currently reserved for future expansion. Likewise, new Groups, Subgroups, or Divisions should not be created by users.

An assigned number in MasterFormat should always be used with its associated assigned title, and only with that title, regardless of whether the assigned number is a six-digit Level 2 or 3 number, or an eight-digit Level 4 number. If a title is modified, or a Level 2, 3, or 4 new title is created, then a number that is reasonably interpolated among the existing assigned numbers should be used. These user-defined titles should relate to the coverage explained in the right-hand column of the "Master List," and should be consistent with adjacent titles.

*MasterFormat* titles are numbered consistently with six digits at Levels 1, 2, and 3, and where further definition is accommodated with eight digits at Level 4. *User-defined numbers should be consistent with this numbering system.* 

# DISPLAY OF MASTERFORMAT NUMBERS

When displayed in master guide specifications, project manuals, and elsewhere, it is recommended that delimiters be used between pairs of numbers to enhance readability. *MasterFormat* recommends that a space be used as the delimiter between Level 1 and Level 2, and again between Level 2 and Level 3, but a decimal point should be used between Level 3 and Level 4, as well as any additional Levels that individual users may add beyond Level 4 for use in their own systems.

There are several options available for graphic display of the first four Levels within the system as follows:

The numbers below represent the Level represented by each pair of digits:

11 22 33.44 (*recommended*) 11 2233.44 112233.44

Regardless of what spacing choices are made, the delimiter between Levels 3 and 4 should always be a decimal point. If using decimal points in file naming presents issues in a software application being used, then other delimiters such as a dash or underscore, or no delimiter at all, may be substituted. In this case, it is recommended that any such substitution be carried out consistently and that affected project team members be made aware of this decision.

# **ELECTRONIC FILING**

Although *MasterFormat* recommends delimiters when numbers are displayed graphically, this may not be desirable when used in databases or similar software, depending on rules that may be in place for any given field in which information is stored. The key to effectively using *MasterFormat* numbers to organize electronic information is dependent more on consistency of application than strictly following delimiter assignment as recommended in this guide. If delimiters or spaces are to be used, always use the same delimiters and spaces in the same locations in the number structure. For example:

| 11 22 16    |
|-------------|
| 11 22 16.13 |
| 11 22 16.16 |
| -or-        |
| 112216      |
| 112216.13   |
| 112216.16   |
| -or-        |
| 112216      |
| 112216_13   |
| 112216_16   |

Lower Level (more detailed) numbers and titles may be used for internal electronic filing purposes. In the case of specifications, a user may have multiple versions of the same specification Section for different clients or for different

types of projects. For example, to identify alternate specification Sections for different types of projects, 23 61 16 Reciprocating Refrigerant Compressors could be subdivided by designating institutional project specifications with the addition of the number 11 and commercial project specifications by the number 22. The multiple versions of the Section would then be electronically filed under 23 61 16.11 and 23 61 16.22 respectively. When the Sections are used in a project manual, they would have the same number and title - 23 61 16 Reciprocating Refrigerant Compressors. The Level 4 numbers would only be used for the identification and interfiling of the multiple versions of the same Section.

If the standard subject is a Level 4 number and title, the user may create any additional subdivided Sections at Level 5 as desired. It is recommended that any additional extensions at Level 5 be preceded by another decimal point or other delimiter, following the discussion above.

# RELATIONSHIP TO OMNICLASS

*OmniClass*<sup>™</sup> is designed to provide a standardized basis for classifying information created and used by the North American architectural, engineering, and construction industry, throughout the full facility life cycle from conception to demolition or reuse, and encompassing all of the different types of construction that make up the built environment. *OmniClass* is intended to be the means for organizing, sorting, and retrieving information, and standardizing digital information exchanges. *OmniClass* scope is designed to encompass objects at every scale through the entire built environment, from completed structures, vast projects, and multi-structure complexes to individual products and component materials. *OmniClass* also addresses actions, people, tools, and information that are used or take part in the design, construction, and maintenance of these structures.

*OmniClass* Table 22 – Work Results is based upon the content provided in *MasterFormat*. At the same time, the indexes and explanations of *MasterFormat* draw information from *OmniClass* Table 23 – Products and Table 21 – Elements, making it an application of *OmniClass*. Reference to other *OmniClass* tables is also made in the Applications Guide. For information on *OmniClass*, visit omniclass.org.

# RELATIONSHIP TO UNIFORMAT

CSI/CSC *UniFormat*<sup>™</sup> is designed to provide a standardized basis for classifying the physical elements of a facility by their primary function without regard to the particular work results that will be used to achieve the function. Substructure, shell, interiors, and services are examples of basic functional elements. The functional elements are often referred to as systems or assemblies. The shell element can be broken down into superstructure (i.e. structural frame), exterior vertical enclosures (i.e. exterior wall assemblies), and exterior horizontal enclosures (i.e. roofing assemblies). The services element can be broken down to conveying (i.e. elevator systems), plumbing (i.e. domestic water distribution), heating, ventilating, and air conditioning (i.e. heat generation), fire protection (i.e. fire sprinkler systems), and electrical (i.e. lighting systems). *UniFormat* is an application of Table 21 – Elements of *OmniClass*, and much as *MasterFormat* provides the basis for *OmniClass* Table 22 – Work Results, *UniFormat* provides the basis for Table 21.

UniFormat is a companion organizational tool to MasterFormat. UniFormat is most commonly used at the earlier stages of a project before particular work results have been selected. UniFormat provides a means to organize design criteria, performance requirements, cost data, and descriptive requirements for systems and assemblies before the particular solutions or work results have been selected. UniFormat is used to organize preliminary project descriptions, preliminary cost estimates, and reference details. MasterFormat is used to organize outline specifications, full specifications, detailed cost data, and drawing notations. It is appropriate to change from UniFormat to MasterFormat as a means to classify the physical elements of a project at the time in the project development when particular work results are being selected.

*MasterFormat* has modeled the organizational structure of 01 80 00 Performance Requirements after *UniFormat*. In a project manual application, a user may use this location in *MasterFormat* to provide performance or other type requirements for the functional elements of a project that may include elements from multiple titles, multiple Divisions, or both.

# RELATIONSHIP TO SECTIONFORMAT

CSI/CSC publication *SectionFormat*<sup>™</sup> provides a uniform approach to organizing specification text within specification Sections contained in a project manual. *SectionFormat* is a companion organizational tool to *MasterFormat*. *MasterFormat* provides a standardized system for sequence, numbers, titles, and scope of project manual content. *SectionFormat* provides a standardized system to organize the information within each specification Section in that project manual.

# EXPLANATIONS

The explanations in the *MasterFormat* Master List of Numbers, Titles, and Explanations use standard reference terms as added entries to clarify the scope and range of titles. This includes descriptions of what is or may be included, commonly used abbreviations, other commonly used alternate terms, and lists of related subjects and their numbered locations.

*MasterFormat* uses preferred, non-trademarked terminology in its titles. Other terminology that has been or is in common use is listed in the explanations under *Alternate Terms/Abbreviations* to assist users in finding the proper location in *MasterFormat* for such subject matter.

*MasterFormat* avoids the use of abbreviations in its titles. Widely accepted and commonly understood abbreviations are listed in the explanations under *Alternate Terms/Abbreviations* to assist users in finding the proper location in *MasterFormat* for the commonly abbreviated subject matter. Users may add the abbreviations in parentheses to titles if they so desire; such a usage will provide a definition in the form of the title for any later usage of the abbreviation in the document or specification.

*MasterFormat* does use abbreviations in a few titles where the abbreviations are well known and understood and take the place of multiple words in order to maintain a reasonable length to the titles. The definitions of the abbreviations used are listed in the explanations under *Alternate Terms/Abbreviations*. In these cases, it is recommended that the user include the definition of the abbreviation within the text of the document or specification Section.

# USING MASTERFORMATFOR PROJECT MANUALS

# DISCIPLINE AND TRADE JURISDICTIONS

*MasterFormat*'s organizational structure used in a project manual does not imply how the work is assigned to various design disciplines, trades, or subcontractors. *MasterFormat* is not intended to determine which portions of the project manual are prepared by a particular discipline. Similarly, it is not intended to determine what work required by the project manual is the responsibility of a particular trade. A discipline or trade is likely to be responsible for subjects from multiple Divisions, as well as from multiple Subgroups.

# **CONTRACT DOCUMENTS**

*MasterFormat*'s organizational structure does not determine what is and is not a contract document. Generally, the documents included in the Contracting Requirements will include a definition and listing of the contract documents for a particular project.

In the Procurement Requirements and Contracting Requirements, some owners may use different terminology for some of the documents from that listed in *MasterFormat*. Users may alter the *MasterFormat* terms in favor of appropriate synonyms required by the owner.

In the Procurement Requirements and Contracting Requirements, *MasterFormat* numbers have been assigned to provide a consistent sequencing within the document. However, it is not necessary to re-number or re-title printed forms and standard contract documents published by various professional societies or contract-issuing bodies to correspond with these *MasterFormat* numbers and titles.

# **PROJECT MANUAL TABLE OF CONTENTS**

It is recommended that the table of contents for a project manual always list the Groups and Subgroups, regardless of whether or not the project manual contains any documents or Sections within those Groups or Subgroups. If any Division within a Subgroup is used, then all the Divisions of that Subgroup should be listed. The Division numbers not used in the project should be labeled as Not Used, including those Divisions reserved for future expansion. If none of the Divisions within a Subgroup are used, then the Subgroup can be labeled as Not Used without separately listing the Divisions within that Subgroup. The Sections should be listed in their numerical order under the appropriate Divisions. Only those Sections used in the project manual should be listed; no indication of Sections that are not used needs to be included.

# USING *MASTERFORMAT* FOR NAMING PRODUCT DATA FILES

*MasterFormat* is not intended to provide a technical or product data filing system, as there is not necessarily a single location at which any technical subject or product may be located in *MasterFormat*. As a result, a product that is used for multiple purposes or work results may be located in multiple locations in *MasterFormat*. This can be useful for providing pointers to products based on their use, but less so for individual product data filing. If *MasterFormat* is used for product data filing, then the user should be aware that for some products an arbitrary choice of where to file the data among multiple locations may need to be made, depending upon how the data filing is intended to be used. Names of products may appear in some titles in *MasterFormat* when they are synonymous with the work result, but generally there is a conceptual difference between products and their use in work results. Products which might be included with a work result but not included in the title may be listed in the Explanations Column for the title, under the heading "Products."

Product data is identified using *MasterFormat* numbers and titles to clarify the relationship between products and specifications. *OmniClass* Table 23 – Products provides a tool for classifying products, with single locations provided for any given product class, regardless of how many different types of work results in which the product may be employed. *OmniClass* Table 23 - Products is the recommended standard for classifying products, as it provides unique locations for such classification.

Suppliers' and subcontractors' data (such as qualification information or submittals) may be identified by the work result they supply or install. The work of suppliers and subcontractors often transcends Section and Division boundaries, so some method is required for multiple references to *MasterFormat* titles. A recommended solution is to use other *OmniClass* Tables such as Table 33 – Disciplines or Table 32 – Services.

The inventory of construction products is made simpler by using the specification Section number, perhaps as a suffix to a project number. If more than one product is specified in a Section, then some form of suffix to the Section number is needed to distinguish the products. See "Using *MasterFormat* with Construction Market Data" for examples. User-created Level 5 extensions may also be used for this purpose.

# USING MASTERFORMATIN COST DATA APPLICATIONS

Cost classification requires identification of line items, which are often related to products and activities. An identification scheme based on *MasterFormat* can be flexible, varying with each construction project, or more rigid and uniform, establishing a single number and location for similar costs in many projects. *OmniClass* Table 21 – Elements is also recommended when dealing with construction costing applications in the earlier stages of a project before particular work results have been selected. Similar to the way that *OmniClass* Table 22 – Work Results is based on *MasterFormat*, the *OmniClass* Elements Table is based on *UniFormat*.

Organizing unit-price databases using the same numbering and titling format used for specifying and naming data files benefits the user through increased uniformity and standardization. Familiarity with *MasterFormat* allows users to relate specification requirements, product information, and cost data. Numbers and titles under "Procurement Requirements" and "Contracting Requirements" in Division 00 identify cost items related to bonds, insurance, permits, fees, and other general items. Numbers and titles in Division 01 identify unit costs for temporary construction facilities and controls, mobilization, project site administration, and other general requirement cost items. Numbers and titles in the other Subgroups of the Specifications Group identify costs related to work results and their installation.

Organizing and tabulating cost reports may require indicating or summarizing products and activities. Using *MasterFormat* numbers and titles will aid users in making inferences about material costs while analyzing the report.

Value analysis requires a consistent naming scheme carried throughout the stages of the project. *MasterFormat* is not particularly useful for value analysis, which requires attaching a cost to a functional element, rather than to products and activities. *OmniClass* Table 21 – Elements and *UniFormat* are more appropriate for this application, although using *MasterFormat* numbers as suffixes to the element designation may assist the value analyst in evaluating change proposals from a contractor.

# USING MASTERFORMATFOR ORGANIZING DRAWING NOTATIONS

An important strategy for naming drawing elements is related to the need to link requirements between complementary documents. One must examine the entire set of contract documents to determine all the requirements for a single product. Notations on drawings should use terminology consistent with that used in other contract documents, such as the specifications, to identify the specified work results and activities.

Reference keynoting applications have adopted *MasterFormat* as a base numbering system, to enhance crossreferencing and coordination between drawings and specifications. See Module 7 – Notations of CSI's Uniform Drawing System (UDS) currently incorporated into the U.S. National CAD Standard for more information.

# USING MASTERFORMAT WITH CONSTRUCTION MARKET DATA

Market data reporting agencies routinely use *MasterFormat* to identify products specified in a project manual during the procurement stage. This practice allows users to quickly identify substitution and sales potential for their products and services on a particular project.

If the general subject is a Level 3 number and title, Level 4 numbers and titles can be used to differentiate product types. For example, in 33 31 11 Public Sanitary Sewerage Gravity Piping, user-created Level 4 numbers might be used to distinguish different materials used for sanitary piping:

- 33 31 11.11 Cast-Iron Piping and Fittings
- 33 31 11.12 Ductile-Iron Piping and Fittings
- 33 31 11.13 Stainless Steel Piping and Fittings
- 33 31 11.21 ABS Piping and Fittings
- 33 31 11.22 PVC Piping and Fittings
- 33 31 11.23 Fiberglass Piping and Fittings
- 33 31 11.31 Concrete Piping and Fittings

If the general subject is a Level 4 number and title, then an extended user-created Level 5 designation as described above under "Electronic Filing" might be used. *OmniClass* Table 23 – Products is also recommended for this purpose.

# USING MASTERFORMATFOR FACILITY MANAGEMENT

Facility managers use *MasterFormat* numbers and titles to identify data associated with products incorporated into their buildings, and for identifying items that may be referenced in several documents. The added titles related to operation and maintenance will provide a scheme for recording general maintenance information as well. Usually the numbers and titles will be taken from the original project specifications and other documents. This enhanced information in the current editions of *MasterFormat* will allow and encourage facility managers to better track maintenance through the full life cycle of a facility.

# SUMMARY OF RECOMMENDATIONS

| SUBJECT                             | RECOMMENDATIONS  | OPTIONS   | RESTRICTIONS  |
|-------------------------------------|--|---|---|
| Groups                              | Two titled unnumbered Groups.  | None.   | Do not create new Groups.   |
| Subgroups                           | Seven titled unnumbered Subgroups.   | None.   | Do not create new Subgroups.  |
| Divisions                           | Fifty numbered Divisions.<br>Divisions 00 – 49.  | None.   | Do not use Divisions designated as<br>reserved for future expansion.<br>Do not create new Divisions.  |
| Level 2 Numbers                     | Three pairs of digits ending with 00. (XX XX 00)   | None.   | Do not use other than the recommended numbering systems   |
| Level 3 Numbers                     | Three pairs of digits. (XX XX XX)  | None.   | for Level 2, Level 3, and Level 4   |
| Level 4 Numbers                     | Three pairs of digits followed by a decimal point and two more digits. (XX XX XX.XX)   | Option for detailed titles.   | titles.   |
| Level 5 Numbers                     | Three pairs of digits followed by a decimal point and two more digits followed by a decimal point and any combination of digits and letters. (XX XX XX.XX.A4E7H)   | User option to create<br>titles or versions for<br>internal uses.   | Do not use for project manuals or<br>other uses beyond that of the internal<br>uses of the specific user.   |
| Graphical Display<br>of Numbers     | Insert spaces between Level 1,<br>Level 2, and Level 3 pairs of digits.<br>Insert decimal point ahead of Level<br>4 pair of digits.<br>(XX XX XX.XX)   | Insert spaces only<br>between Level 1 and<br>Level 2 pairs of digits<br>(XX XXXX.XX).<br>Keep three pairs of<br>numbers together with no<br>spaces (XXXXXX.XX). | Do not use graphical displays other<br>than the recommended or optional<br>choices.   |
| Electronic File<br>Numbers          | Maintain consistency in use or<br>nonuse of delimiters (spaces and<br>decimal points).   | Use any of graphical<br>display of numbers<br>options above.  |   |
| Additional Titles<br>and Numbers    | Comply with above<br>recommendations and restrictions<br>regarding titling and numbering of<br>Groups, Subgroups, Divisions, and<br>Sections.<br>Interpolate title and number as<br>appropriate within assigned titles<br>and numbers.               | User option to create.<br>Use any unassigned<br>Level 2, Level 3, or Level<br>4 number within an<br>assigned Division.  | Do not assign a different number to<br>an assigned title.<br>Do not assign a different title to an<br>assigned number.<br>Do not assign a number within a<br>Division reserved for future<br>expansion. |
| Terminology                         | Use assigned titles.   |   | Avoid the use of non-preferred terminology for user-created titles.   |
| Project Manual<br>Table of Contents | List all Groups and Subgroups.<br>Add "Not Used" to Groups and<br>Subgroups not used.<br>List all Divisions 00 – 49.<br>Add "Not Used" to Divisions not<br>used within used Subgroups.<br>List only Sections that are used in<br>the Project Manual. | Do not list Divisions within<br>Groups or Subgroups that<br>are noted as "Not Used."  | Do not list Sections as not used.   |

The above table is intended only as a summation of information included throughout this Applications Guide. Users are strongly encouraged to read the Applications Guide in full for a more comprehensive discussion of these recommendations and *MasterFormat* usage.

# HISTORY

Since it was introduced in 1963, *MasterFormat*, as it is now known, has been widely accepted as a standard format for organizing specifications in the United States and Canada, designed to fulfill, in the words of the original authors, "a pressing need for a national format for construction specifications." First published as part of the "CSI Format for Construction Specifications," it was later used as the basis for the "Uniform System for Construction Specifications, Data Filing, and Cost Accounting -- Title One Buildings" published in 1966. The "Uniform System" was developed and endorsed by the following organizations: American Institute of Architects, American Society of Landscape Architects, Associated General Contractors of America Inc., Associated Specialty Contractors, Construction Products Manufacturing Council, National Society of Professional Engineers, and Construction Specifications Institute. In 1966, a similar effort in Canada produced "The Building Construction Index" (BCI), based on the sixteen-Division format that had been introduced by the Specification Writers Association of Canada, renamed Construction Specifications Canada in 1974.

The U.S. and Canadian formats were merged into a single format in 1972 and published as the *Uniform Construction Index* (UCI). The UCI was a comprehensive framework for organizing information contained in project manuals, as well as providing a basis for data filing and project cost classification.

In 1978, Construction Specifications Canada joined with the Construction Specifications Institute to produce the first edition of *MasterFormat*, introduced by CSI as MP-2-1 and by CSC as Document 004E. It incorporated a complete organizational format for project manuals by including bidding requirements, contract forms, and conditions of the contract, in addition to the sixteen-Division list of five-digit Section numbers and titles used primarily for specifications.

The first revised edition of *MasterFormat* was published in 1983. It retained the basic principles of organization contained in the previous edition; however, revisions and additions recognized the needs of the engineering disciplines.

The 1988 edition included revisions and additions needed to recognize new products and developments in the construction industry, and was based on input from *MasterFormat* users.

The 1995 edition of *MasterFormat* underwent a more extensive public review and coordination with industry users than any previous edition. It incorporated many minor revisions in Section numbers and titles, and several changes in style and presentation. There were also some significant rearrangements of Section numbers and titles, particularly in Divisions 1, 2, 13, 15, and 16. This was done, to a certain extent, to address the overcrowding of these Divisions. The Applications Guide was expanded to provide specific information on proper uses of *MasterFormat*.

The 2004 edition of *MasterFormat* resulted from an unprecedented attempt at obtaining industry-wide acceptance and participation in the development process carried out by the *MasterFormat* Expansion Task Team (MFETT). This effort drew participants from many parts of the construction industry in North America, including architects, engineers, specifiers, contractors, and subcontractors, representing a wide variety of professional, contractor, trade, and manufacturing organizations. Due to the expanded scope of *MasterFormat*, special emphasis was placed on input for highway, telecommunications, and process engineering work. The result was the most dramatic change in the standard's history, expanding the number of Divisions from sixteen to fifty, and changing *MasterFormat*'s base numbers from five digits to six.

Since 2006, *MasterFormat* has been on a regular revision schedule as described in the Section above titled *"MasterFormat* Revision Process."

# MASTER LIST OF NUMBERS, TITLES, AND EXPLANATIONS

The master list of numbers and titles includes an Explanation column, which uses standard reference terms to clarify the scope and range of titles. The reference terms used are as follows:

- Includes means the work result is included in the title, and generally implies it is the primary title.
- May Include means that the work result is normally included in another title, but may be included in this title under some conditions. There is often a companion See Also reference to clarify the alternative titles and related conditions.
- Usually Includes means the work result is normally included in the title, but there may be other titles that include the same work result under some conditions. There is often a companion See Also reference to clarify the alternative titles and related conditions.
- Does Not Include identifies a work result that should not be considered in the scope of the title. There will often be a companion See reference to direct the user to the appropriate title.
- *Products* lists products that are normally included with the title, but are not named in the Section titles. They are included to assist the user in determining the locations that products might be included in *MasterFormat*.
- Alternate Terms/Abbreviations lists other non-preferred terms and abbreviations that may be in use for the subjects of the title. They are included to assist the user in finding subjects and to use the preferred terminology included in the titles.
- See refers to another title for a related work result not included in the title from which it is referenced.
- See Also refers to another title for an included work result, and implies the work result may be included under either the title from which it is referenced or the referenced title, depending upon conditions. The relative conditions are sometimes stated in the reference, but may be left to user inference in cases such as regional variations in practice.

The references within the explanations are by use of a six-digit classification number, which designates a Level 2 or Level 3 title. The explanations do not include eight-digit numbers for Level 4 titles. Subjects which relate to a Level 4 title are referenced to the appropriate Level 3 number.

# 00 00 00 Procurement and Contracting Requirements

May be used as Division level Section title.

# **INTRODUCTORY INFORMATION**

In project manual applications, the following titles are used for arranging the introductory information. When used in a construction project manual, these documents (1) do not become a part of the construction contract, unless they are incorporated by reference in a contracting requirements document; and (2) are not specifications even though they may be identified with a *MasterFormat* number.

NUMBER

EXPLANATION

# **PROCUREMENT REQUIREMENTS**

In project manual applications, the following titles identify documents which have important legal consequences for the owner and may require advice from qualified legal counsel. When used in a construction project manual, these documents are not specifications even though they may be identified with a *MasterFormat* number. *MasterFormat* uses the term procurement for both bid and proposal. Some owners may use different terms from those used in *MasterFormat*. For example, the U.S. Federal Government uses the term "solicitation" for both "invitation to bid" and "request for proposals," and uses the term "offer" for "bid." Users may alter the *MasterFormat* terms in favor of appropriate synonyms required by the owner.

# 00 10 00 Solicitation

TITLE

# 00 11 00 Advertisements and Invitations

Includes: project information to attract qualified bidders or proposers.

Alternate Terms/Abbreviations: bid: offer: tender (Canadian term).

See: 00 20 00 for instructions for procurement.

00 24 00 for procurement scopes.

00 54 13 for supplementary scope statement.

01 11 00 for summary of work.

01 12 00 for multiple contract summary.

- 00 11 13 Advertisement for Bids
- 00 11 15 Advertisement for Prequalification of Bidders

Includes: notices to prospective bidders, project information, submittal procedures for prospective bidders' qualifications, consistent with regional AIA/AGC Joint Cooperative Committees, prequalification conference, qualification documentation, prequalification notifications.

- 00 11 16 Invitation to Bid
- 00 11 19 Request for Proposal
- 00 11 53 Request for Qualifications

# 00 20 00 Instructions for Procurement

### 00 21 00 Instructions

Includes: conditions affecting award of contract and procedures with which bidders and proposers must comply.

- 00 21 13 Instructions to Bidders

NUMBER

EXPLANATION

# **CONTRACTING REQUIREMENTS**

In project manual applications, the following titles identify documents which have important legal consequences for the owner and may require advice from qualified legal counsel. When used in a construction project manual, these documents are not specifications even though they may be identified with a *MasterFormat* number. Some owners may use different terms from those used in *MasterFormat*. For example, the U.S. Federal Government uses the term "contract" for "agreement," "award form" for "agreement form," and "contract clauses" for "conditions of the contract." Users may alter the *MasterFormat* terms in favor of appropriate synonyms required by the owner.

# 00 50 00 Contracting Forms and Supplements

Includes: contract forms and attachments.

See: 00 72 00 for general conditions.

# 00 51 00 Notice of Award

TITLE

Includes: owner notice to advise a selected bidder, proposer, or negotiated party of award of contract.

### 00 52 00 Agreement Forms

Includes: document signed by the owner and contractor, or by contractor and subcontractor, which is the legal instrument binding the two parties to the contract. The agreement defines the relationships and obligations existing between the parties. Identification of the parties, statement of the work to be performed, statement of considerations, contract sum or price, time of performance, and signatures.

May Include: general conditions integral to the agreement in standard documents.

Alternate Terms/Abbreviations: agreement form: contract form. Construction Manager as Agent or Advisor: CMa: third-party CM. Construction Manager at Risk: CMAR: CM@Risk. Construction Manager as Contractor: CMc. Public-private partnership: P3: PPP: design/build/operate: design/build/finance/operate: design/build/operate/maintain: design/build/finance/operate/maintain. Purchase contract: procurement contract: purchase order.

See: 00 41 00 for bid forms.
00 42 00 for proposal forms.
00 72 00 for general conditions.
00 73 00 for supplementary conditions.

THIS PAGE INTENTIONALLY LEFT BLANK

# DIVISION 01 – GENERAL REQUIREMENTS

# 01 00 00 General Requirements

May be used as Division level Section title.

# 01 10 00 Summary

### 01 11 00 Summary of Work

Includes: description of construction delivered under a single contract. Description of provisions for future construction.

May Include: list of products ordered in advance, ownerfurnished products, salvaged material and equipment, products delivered to owner, and owner-installed products.

Alternate Terms/Abbreviations: purchase contract: procurement contract: purchase order.

See: 00 24 00 for procurement scopes.
00 54 13 for agreement form supplementary scope statement.
01 31 00 for coordination of work under a single contract.
01 64 00 for owner-supplied products.

- 01 11 13 Work Covered by Contract Documents
- 01 11 16 Work by Owner
- 01 11 19 Purchase Contracts

## 01 12 00 Multiple Contract Summary

Includes: description of construction delivered under more than one construction contract; for example, multiple prime, construction management, and design-build. Summary of contracts, related prior construction, related concurrent construction, contract interface, phasing of construction, and temporary facilities and controls responsibility.

May Include: list of products ordered in advance, ownerfurnished products, salvaged material and equipment, products delivered to owner, and owner-installed products, future construction, and provisions for future construction associated with each contract.

See: 00 24 00 for procurement scopes. 00 54 13 for agreement form supplementary scope statement. 01 31 16 for multiple contract coordination. DIVISION **01**

01 12 19 Contract Interface

## 01 14 00 Work Restrictions

Includes: restrictions that affect construction operations. Location of construction, occupancy requirements, and use of premises and site.

See: 01 53 00 for temporary construction related to access and use of site.

01 55 00 for temporary vehicular access and parking.

01 56 00 for temporary barriers and enclosures.

- 01 14 13 Access to Site
- 01 14 16 Coordination with Occupants
- 01 14 19 Use of Site
- 01 14 33 Work in Rights-of-Way

# 01 18 00 Project Utility Sources

Includes: information concerning utility companies providing permanent services to the project.

See: 01 51 00 for temporary utilities.

### 01 18 13 Utility Service Connections

Notes: this is the location to specify information necessary for connecting utilities and where connection is made by utility.

# 01 20 00 Price and Payment Procedures

### 01 21 00 Allowances

Includes: administrative and procedural requirements for cash and quantity allowances for products, installation, testing, and contingencies. Time allowances. In a project manual application, other titles affected by allowances should reference this title.

May Include: allowance amounts and descriptions.

See: 00 70 00 for conditions of the contract for allowance requirements.

See Also: 00 24 00 for procurement scopes for allowance amounts and items. 00 40 00 for allowances included in procurement forms. 00 43 21 for allowances procurement form supplement. 00 54 21 for allowances schedule agreement form supplement.

- 01 21 13 Cash Allowances
- 01 21 16 Contingency Allowances
- 01 21 19 Testing and Inspecting Allowances
- 01 21 23 Installation Allowances
- 01 21 26 Product Allowances
- 01 21 29 Quantity Allowances
- 01 21 43 Time Allowances

# 01 22 00 Unit Prices

Includes: administrative and procedural requirements for unit prices and measurement and payment.

May Include: list and description of unit price items.

See Also: 00 24 00 for procurement scopes for unit price descriptions. 00 40 00 for unit prices included in procurement forms. 00 43 22 for unit price procurement form supplement. 00 54 22 for unit prices schedule agreement form supplement.

- 01 22 13 Unit Price Measurement
- 01 22 16 Unit Price Payment

## 01 23 00 Alternates

Includes: administrative and procedural requirements for alternate bids or proposals. Includes submission and acceptance procedures.

May Include: list and description of each alternate.

Alternate Terms/Abbreviations: alternates: alternatives: bid items.

See Also: 00 24 00 for procurement scopes for alternate descriptions.

00 40 00 for alternates included in procurement forms. 00 43 23 for alternates procurement form supplement.

## 01 24 00 Value Analysis

Includes: administrative and procedural requirements for value analysis, application for consideration, and consideration of proposals.

May Include: appropriate forms.

Alternate Terms/Abbreviations: value analysis: value management: value improvement.

See: 00 63 00 for modification forms. 01 26 00 for contract modification procedures.

# 01 32 00 Construction Progress Documentation

Includes: administrative and procedural requirements for scheduling, recording, and reporting progress.

May Include: construction schedule form. Work plan schedule form. Construction equipment form. Other appropriate forms.

Alternate Terms/Abbreviations: CPM: critical path method.

See: 00 31 21 for survey information provided to bidders or proposers.

00 43 83 for proposed construction schedule form.

00 43 86 for proposed work plan schedule form.

01 71 23 for field engineering during construction.

01 78 29 for final site survey.

See Also: 00 62 83 for construction schedule form. 00 62 86 for work plan schedule form.

# **DIVISION 02 – EXISTING CONDITIONS**

### 02 00 00 Existing Conditions

May be used as Division level Section title.

02 01 00 Maintenance of Existing Conditions

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of existing conditions.

Level 4 Numbering Recommendation: .51-.59 for maintenance. .61-.69 for repair.

.71-.79 for rehabilitation.

.81-.89 for replacement.

.91-.99 for restoration.

- 02 01 50 Maintenance of Site Remediation
- 02 01 65 Maintenance of Underground Storage Tank Removal
- 02 01 80 Maintenance of Facility Remediation
- 02 01 86 Maintenance of Hazardous Waste Drum Handling

#### 02 03 00 Conservation Treatment for Existing Period Conditions

- Maintenance of Existing Period Conditions
- 02 03 01.19 Mothballing Period Structures

Includes: U.S. Department of the Interior, National Parks Service, Technical Preservation Services, Preservation Brief # 31, Mothballing Historic Buildings, Washington, D.C.: GPO, 1993, http://www.nps.gov/tps/how-to-preserve/briefs/31mothballing.htm (accessed March 20, 2014). "The actual mothballing effort involves controlling the long-term deterioration of the building while it is unoccupied as well as finding methods to protect it from sudden loss by fire or vandalism. This requires securing the building from unwanted entry, providing adequate ventilation to the interior, and shutting down or modifying existing utilities. Once the building is de-activated or secured, the long-term success will depend on periodic maintenance and surveillance monitoring."

- 02 03 41 Selective Demolition for Period Structures
- 02 03 42 Removal and Salvage of Period Construction Materials
- 02 03 43 Period Structure Relocating
- 02 03 44 Shoring and Support of Period Structures

| NUMBER   | Title   | Explanation   |  |

- 02 05 19.13 Geotextiles for Existing Conditions
- 02 05 19.16 Geomembranes for Existing Conditions
- 02 05 19.19 Geogrids for Existing Conditions

#### 02 06 00 Schedules for Existing Conditions

Includes: schedules of items common to multiple titles in Division 02.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

- 02 06 13 Geotechnical Baseline Report
- 02 06 14 Geotechnical Data Report
- 02 06 30 Schedules for Subsurface Investigations
- 02 06 30.13 Boring or Test Pit Log Schedule
- 02 06 50 Schedules for Site Remediation
- 02 06 65 Schedules for Underground Storage Tank Removal
- 02 06 80 Schedules for Facility Remediation
- 02 06 86 Schedules for Hazardous Waste Drum Handling

#### 02 08 00 Commissioning of Existing Conditions

Includes: commissioning of items common to multiple titles in Division 02.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

### 02 20 00 Assessment

Includes: assessments of existing conditions conducted by the contractor before construction begins as a project activity.

See: 00 31 00 for available project information.

| NUMBER   | Title   | Explanation   |
|--|---|---|
| 02 21 00   | Surveys   |   |

### 02 22 00 Existing Conditions Assessment

Includes: assessments of existing conditions conducted by the contractor before construction begins as a project activity.

See: 00 31 19 for existing conditions information provided to the bidders, proposers, or contractors before construction begins.

01 71 16 for acceptance of conditions.

13 48 00 for sound, vibration, and seismic control.

44 20 00 for noise pollution control.

- 02 22 13 Movement and Vibration Assessment
- 02 22 16 Acoustic Assessment
- 02 22 19 Traffic Assessment
- 02 22 23 Accessibility Assessment

#### 02 24 00 Environmental Assessment

Includes: environmental assessments conducted by the contractor before construction begins as a project activity.

See: 00 31 24 for environmental assessment information provided to the bidders, proposers, or contractors before construction begins.

01 35 43 for environmental procedures.

44 10 00 for air pollution control.

44 40 00 for water pollution control equipment.

#### 02 24 13 Natural Environment Assessment

- 02 24 13.13 Air Assessment
- 02 24 13.43 Water Assessment
- 02 24 13.73 Land Assessment
- 02 24 23 Chemical Sampling and Analysis of Soils

Number

EXPLANATION

### 02 40 00 Demolition and Structure Moving

Includes: removal and disposal of structures. Moving or raising structures.

See Also: 33 05 61 for concrete manholes.

33 05 63 for concrete vaults and chambers.

33 05 66 for concrete distribution chambers.

33 05 69 for concrete trenchways.

33 05 71 for cleanouts.

33 05 73 for polyethylene manholes.

33 05 76 for fiberglass manholes.

#### 02 41 00 Demolition

TITLE

Includes: partial or complete removal and disposal of structures, at grade, above grade, and below grade. Hydrodemolition and implosion.

May Include: capping and removal of existing utilities.

See: 01 35 91 for historic treatment procedures.

01 73 29 for cutting and patching.

- 02 42 00 for removal and diversion of construction materials.
- 02 43 00 for structure moving.
- 02 60 00 for contaminated site material removal.
- 31 10 00 for site clearing.
- 31 23 16 for excavation.
- 02 41 13 Selective Site Demolition
- 02 41 13.13 Paving Removal
- 02 41 13.23 Utility Line Removal
- 02 41 13.33 Railtrack Removal
- 02 41 16 Structure Demolition
- 02 41 16.13 Building Demolition
- 02 41 16.23 Tower Demolition
- 02 41 16.33 Bridge Demolition
- 02 41 16.43 Dam Demolition
- 02 41 19 Selective Demolition
- 02 41 19.13 Selective Building Demolition
- 02 41 19.16 Selective Interior Demolition
- 02 41 19.19 Selective Facility Services Demolition
- 02 41 19.33 Selective Bridge Demolition

## DIVISION 03 – CONCRETE 03 00 00 Concrete

May be used as Division level Section title.

#### 03 01 00 Maintenance of Concrete

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of concrete. Includes graffiti removal. Includes epoxy-injected crack repair.

Level 4 Numbering Recommendation: Level 4 titles for concrete are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

.51-.59 for maintenance.

.61-.69 for repair.

.71-.79 for rehabilitation.

.81-.89 for replacement.

.91-.99 for restoration.

See: 02 25 16 for existing concrete assessment.
03 30 00 for cleaning new cast-in-place concrete.
03 40 00 for cleaning new precast concrete.
09 96 23 for graffiti-resistant coatings.
32 01 26 for rigid pavement surface treatment.
32 01 29 for rigid pavement rehabilitation.

- 03 01 10 Maintenance of Concrete Forming and Accessories
- 03 01 20 Maintenance of Concrete Reinforcing
- 03 01 23 Maintenance of Stressing Tendons
- 03 01 30 Maintenance of Cast-in-Place Concrete
- 03 01 30.51 Cleaning of Cast-in-Place Concrete
- 03 01 30.61 Resurfacing of Cast-in-Place Concrete
- 03 01 30.71 Rehabilitation of Cast-in-Place Concrete
- 03 01 30.72 Strengthening of Cast-in-Place Concrete
- 03 01 40 Maintenance of Precast Concrete
- 03 01 40.51 Cleaning of Precast Concrete

EXPLANATION

## 03 40 00 Precast Concrete

TITLE

Includes: concrete cast in forms, either on or off site, before final placement. Forming, reinforcing, inserts, and accessories.

May Include: precast concrete tunnel lining. Precast concrete shaft lining. Precast concrete retaining walls.

See: 31 35 23 for slope protection with precast concrete slope paving.

31 62 13 for precast concrete driven piles.

See Also: 31 74 16 for precast concrete tunnel lining. 31 75 16 for precast concrete shaft lining. 32 32 16 for precast concrete retaining walls.

#### 03 41 00 Precast Structural Concrete

Includes: precast concrete for structural purposes where appearance is not a prime consideration. Precast concrete beams, columns, girders, joists, slabs, and other concrete framing members.

Alternate Terms/Abbreviations: precast: prestressed.

See: 03 45 00 for precast architectural concrete.03 47 00 for site-cast concrete.03 48 00 for precast concrete specialties.05 55 16 for metal stair nosings.

## 03 82 00 Concrete Boring

Includes: creating circular hole through concrete with an auger or drill.

See: 02 25 16 for assessment drilling of existing concrete. 03 81 00 for concrete cutting.

03 82 13 Concrete Core Drilling

# **DIVISION 04 – MASONRY**

04 00 00 Masonry

May be used as Division level Section title.

#### 04 01 00 Maintenance of Masonry

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of masonry.

Level 4 Numbering Recommendation: Level 4 titles for masonry are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

.51-.59 for maintenance.

.61-.69 for repair.

.71-.79 for rehabilitation.

.81-.89 for replacement.

.91-.99 for restoration.

See: 02 25 19 for existing masonry assessment.

04 20 00 for cleaning new unit masonry.

04 40 00 for cleaning new stone assemblies.

04 50 00 for cleaning new refractory masonry.

04 60 00 for cleaning new corrosion-resistant masonry.

04 70 00 for cleaning new manufactured masonry.

#### 04 01 20 Maintenance of Unit Masonry

- 04 01 20.41 Unit Masonry Stabilization
- 04 01 20.51 Unit Masonry Maintenance
- 04 01 20.52 Unit Masonry Cleaning
- 04 01 20.91 Unit Masonry Restoration
- 04 01 20.93 Testing and Sampling Brick Units for Restoration
- 04 01 40 Maintenance of Stone Assemblies
- 04 01 40.51 Stone Maintenance
- 04 01 40.52 Stone Cleaning
- 04 01 40.91 Stone Restoration
- 04 01 50 Maintenance of Refractory Masonry
- 04 01 60 Maintenance of Corrosion-Resistant Masonry
- 04 01 70 Maintenance of Manufactured Masonry

#### 04 03 00 Conservation Treatment for Period Masonry

Includes: testing and sampling, dismantling, repairing, replacing, repointing.

May Include: limestone, granite, sandstone.

04 03 01.13 Period Masonry Cleaning

- 04 03 05 Common Work Results for Period Masonry
- 04 03 05.13 Period Masonry Mortaring

- 04 21 29 Terra Cotta Masonry

## 04 22 00 Concrete Unit Masonry

Includes: load-bearing and non-load-bearing concrete unit masonry.

May Include: integral water repellent.

Alternate Terms/Abbreviations: CMU: concrete masonry unit, concrete block: cinder blocks.

See: 04 27 00 for multi-wythe unit masonry.
07 19 00 for water repellents.
07 76 00 for precast concrete roof pavers.
31 35 23 for CMU slope protection paving.
31 37 16 for CMU riprap.
32 14 13 for precast concrete unit paving.
32 32 23 for segmental CMU retaining walls.
35 31 29 for CMU revetments, jetties, and groins.
35 42 53 for CMU wall waterway bank protection.
35 43 53 for CMU wall waterway scour protection.

Products: concrete brick, pumice block.

#### 04 23 00 Glass Unit Masonry

Includes: glass masonry unit construction.

See: 08 60 00 for skylights. 09 76 00 for plastic blocks.

See Also: 08 55 13 for tornado-resistant windows. 08 55 23 for blast-resistant windows.

- 04 23 13 Vertical Glass Unit Masonry
- 04 23 16 Glass Unit Masonry Floors
- 04 23 19 Glass Unit Masonry Skylights

#### 04 24 00 Adobe Unit Masonry

Includes: adobe masonry unit construction.

See: 04 70 00 for manufactured masonry. 09 25 26 for natural clay plastering.

- 04 24 13 Site-Cast Adobe Unit Masonry
- 04 24 16 Manufactured Adobe Unit Masonry

#### 04 25 00 Unit Masonry Panels

Includes: masonry assemblies erected as panels.

May Include: sculptured brick panels and brick murals.

See: 04 42 00 for panelized exterior stone cladding.07 42 63 for fabricated wall panel assemblies.12 11 16 for sculptured brick panels and brick murals.

04 25 13 Metal-Supported Unit Masonry Panels

# DIVISION 05 – METALS 05 00 00 Metals

May be used as Division level Section title.

05 01 00

#### Maintenance of Metals

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of metals.

Level 4 Numbering Recommendation: one Level 4 title for metals is provided as an example for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation. .81-.89 for replacement.

.91-.99 for replacement

See: 02 25 23 for existing metals assessment.

- 05 01 10 Maintenance of Structural Metal Framing
- 05 01 20 Maintenance of Metal Joists

#### 05 70 00 **Decorative Metal**

Includes: metal items and metal work of a decorative nature. Wrought iron, muntz metal. Anchors and related accessories.

Usually Includes: related fastenings and shop-applied coatings.

Alternate Terms/Abbreviations: decorative metal: ornamental metal. Muntz metal: yellow metal.

See: 05 50 00 for metal fabrications of a utilitarian nature. 12 14 00 for sculptures. 32 31 19 for decorative metal fences and gates.

See Also: 05 05 13 for shop-applied coatings for metal. 05 05 23 for metal fastenings.

#### 05 71 00

#### **Decorative Metal Stairs**

Includes: fabricated stairs of various types of a decorative nature.

See: 03 11 23 for permanent stair forming. 03 41 23 for precast concrete stairs. 05 51 00 for metal stairs of a utilitarian nature. 06 43 00 for wood stairs and railings.

# DIVISION 06 – WOOD, PLASTICS, AND COMPOSITES

06 00 00 Wood, Plastics, and Composites

May be used as Division level Section title.

#### 06 01 00 Maintenance of Wood, Plastics, and Composites

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of wood, plastics, and composites.

Level 4 Numbering Recommendation: Level 4 titles for wood, plastics, and composites are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance.

- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.

See: 02 25 26 for existing wood, plastics, and composites assessment.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

## 06 10 00 Rough Carpentry

Includes: wood foundations, framing, sheathing, and decking using lumber, timber, and engineered wood products. Blocking and supports to join the members and anchor the framework to other construction. Erection of the units and incorporation of connectors and supports to join the units and anchor the units to other construction.

Usually Includes: related fasteners, adhesives, and wood treatment.

See: 06 05 23 for wood, plastic, and composite fastenings. 06 05 73 for wood treatment.

06 10 53

Miscellaneous Rough Carpentry

Includes: may be used for projects with a small amount of rough carpentry.

| DIVISION | 06 |
|----------|----|
| DIVISION | UO |

#### 06 11 00 Wood Framing

Includes: mechanically-graded lumber for framing and those engineered lumber products that are available at lumber yards and that are intended to be cut to length in the field. Wood columns, beams, girders, joists, purlins, rafters, studs, bracing, and other wood framing.

See: 06 17 00 for shop-fabricated structural wood. 13 32 00 for space frames. 13 33 00 for geodesic structures.

- 06 11 13 Engineered Wood Products
- 06 11 16 Mechanically Graded Lumber

#### 06 12 00 Structural Panels

Includes: reinforced and unreinforced wood-based structural panels. Structural insulated panels.

See: 06 16 00 for sheathing.07 44 53 for glass-fiber-reinforced cementitious panels.07 44 56 for mineral-fiber-reinforced cementitious panels.

- 06 12 13 Cementitious Reinforced Panels
- 06 12 16 Stressed Skin Panels

#### 06 13 00 Heavy Timber Construction

Includes: framing using timber with a minimum dimension of five inches.

Alternate Terms/Abbreviations: heavy timber: mill-framed structures.

See: 06 15 19 for timber decking.
06 17 00 for shop-fabricated structural wood.
06 18 00 for glue-laminated construction.
31 62 19 for timber piles.
32 32 29 for timber retaining walls.
32 34 00 for fabricated bridges.
32 94 16 for landscape timbers.
34 11 33 for track cross ties.

35 51 13 for floating wood piers.

EXPLANATION

# 06 60 00 Plastic Fabrications

TITLE

Includes: non-structural plastic fabrications formed to various profiles for a variety of purposes.

See: 04 73 00 for manufactured stone masonry.

06 50 00 for structural plastics.

06 80 00 for composite fabrications.

07 31 53 for plastic shakes.

07 40 00 for plastic roofing and siding panels.

08 15 00 for plastic doors.

08 53 00 for plastic windows.

- 08 84 00 for plastic glazing.
- 09 30 26 for plastic tiling.
- 09 76 00 for plastic blocks.
- 10 21 00 for plastic compartments and cubicles.
- 10 51 26 for plastic lockers.
- 12 34 00 for manufactured plastic casework.
- 12 36 23 for plastic countertops.

12 36 61 for simulated stone countertops.

# 06 61 00 Cast Polymer Fabrications

06 61 13 Simulated Stone Fabrications

Includes: cultured marble fabrications, quartz surfacing fabrications, simulated granite.

- 06 61 16 Solid Surfacing Fabrications
- 06 62 00 Plastic Foam Fabrications
- 06 63 00 Plastic Railings

#### 06 64 00 Plastic Paneling

- 06 64 13 Plastic Lattice Paneling
- 06 65 00 Plastic Trim
- 06 66 00 Custom Ornamental Simulated Woodwork

EXPLANATION

# 06 80 00 Composite Fabrications

TITLE

Includes: materials composed of various plastics with wood, glass, or carbon fibers formed into a composite material. Nonstructural composite fabrications formed to various profiles for a variety of purposes.

See: 03 49 00 for glass-fiber-reinforced concrete.

06 40 00 for plastic laminate.

06 50 00 for structural plastics.

06 60 00 for plastic fabrications.

06 70 00 for structural composites.

07 31 33 for composite rubber shingles.

07 40 00 for composite roofing and siding panels.

07 44 53 for glass-fiber-reinforced wall cementitious panels.

08 16 00 for composite doors.

08 54 00 for composite windows.

09 27 13 for glass-fiber-reinforced plaster fabrications.

# 06 81 00 Composite Railings

06 81 13 Glass-Fiber-Reinforced Plastic Railings

# 06 82 00 Composite Trim

# 06 83 00 Composite Paneling

- 06 83 13 Resin Composite Paneling
- 06 83 16 Fiberglass Reinforced Paneling

# DIVISION 07 – THERMAL AND MOISTURE PROTECTION

07 00 00 Thermal and Moisture May be used as Division level Section title. Protection

# 07 01 00 Operation and Maintenance of Thermal and Moisture Protection

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of thermal and moisture protection.

Level 4 Numbering Recommendation: Level 4 titles for wood, plastics, and composites are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance.

- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.

See: 02 25 29 for existing thermal and moisture protection assessment.

- 07 01 10 Maintenance of Dampproofing and Waterproofing
- 07 01 10.81 Waterproofing Replacement
- 07 01 20 Maintenance of Thermal Protection
- 07 01 30 Maintenance of Steep Slope Roofing
- 07 01 40 Maintenance of Roofing and Siding Panels
- 07 01 50 Maintenance of Membrane Roofing
- 07 01 50.13 Roof Moisture Survey
- 07 01 50.16 Roof Maintenance Program
- 07 01 50.19 Preparation for Re-Roofing
- 07 01 50.23 Roof Removal
- 07 01 50.61 Roof Re-Coating
- 07 01 50.81 Roof Replacement
- 07 01 50.91 Roofing Restoration
- 07 01 60 Maintenance of Flashing and Sheet Metal
- 07 01 60.71 Flashing and Sheet Metal Rehabilitation
- 07 01 60.91 Flashing and Sheet Metal Restoration
- 07 01 60.92 Flashing and Sheet Metal Preservation
- 07 01 70 Operation and Maintenance of Roof Specialties and Accessories
- 07 01 80 Maintenance of Fire and Smoke Protection
- 07 01 90 Maintenance of Joint Protection
- 07 01 90.71 Joint Sealant Rehabilitation
- 07 01 90.81 Joint Sealant Replacement

#### 07 08 00 Commissioning of Thermal and Moisture Protection

Includes: commissioning of items common to multiple titles in Division 07.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

# 07 10 00 Dampproofing and Waterproofing

Includes: dampproofing materials used to resist moisture penetration through foundation walls and similar surfaces subject to high humidity, dampness, or direct water contact, but not subject to hydraulic pressures. Impervious waterproofing membranes, coatings, and other materials applied to walls, slabs, decks, and other surfaces subject to hydrostatic pressure or water immersion. Boards and coatings, and drainage media integral to dampproofing and waterproofing.

See: 03 15 13 for waterstops.

07 20 00 for vapor retarders integral with insulation.

07 50 00 for membrane waterproofing.

31 05 16 for drainage aggregate.

# 07 11 00 Dampproofing

Includes: bituminous and cementitious dampproofing applied in a viscous state or in sheets.

See: 07 13 00 for sheet waterproofing. 07 16 00 for cementitious waterproofing. 07 26 00 for vapor retarders. 07 27 00 for air barriers.

- 07 11 13 Bituminous Dampproofing
- 07 11 16 Cementitious Dampproofing
- 07 11 19 Sheet Dampproofing

#### 07 14 00 Fluid-Applied Waterproofing

Includes: waterproofing applied in a viscous state.

Alternate Terms/Abbreviations: fluid-applied: liquid-applied.

See: 02 25 29 for waterproofing investigations. 07 18 00 for traffic coatings. 07 55 56 for fluid-applied protected membrane roofing. 07 55 56 for hot-applied rubberized asphalt protected membrane roofing. 07 56 00 for fluid-applied roofing.

- 07 14 13 Hot Fluid-Applied Rubberized Asphalt Waterproofing
- 07 14 14 Hot Fluid-Applied Polyurea Waterproofing
- 07 14 16 Cold Fluid-Applied Waterproofing

NUMBER

EXPLANATION

- 07 81 13 Cement Aggregate Fire Protection
- 07 81 16 Cementitious Fire Protection

TITLE

- 07 81 19 Foamed Magnesium-Oxychloride Fire Protection
- 07 81 23 Intumescent Fire Protection
- 07 81 26 Magnesium Cement Fire Protection
- 07 81 29 Mineral-Fiber Cementitious Fire Protection
- 07 81 33 Mineral-Fiber Fire Protection

# 07 82 00 Board Fire Protection

Includes: board materials that provide fire resistance to building components.

Does Not Include: fire barriers of gypsum board, plaster, and similar construction for prevention of the spread of fire.

See: 07 81 00 for applied fire protection. 09 23 82 for fire protected gypsum plastering. 09 29 82 for gypsum board fire protection.

- 07 82 13 Calcium-Silicate Board Fire Protection
- 07 82 16 Slag-Fiber Board Fire Protection

# 07 84 00 Firestopping

Includes: materials installed in cavities, around penetrations, and openings in floors, walls, partitions, and other building components to prevent the spread of fire and smoke. Firestopping for mechanical, electrical, and communications penetrations of fire-resistant rated assemblies.

See: 07 21 00 for thermal insulation. 07 92 00 for joint sealants. 07 95 13 for fire-resistant rated expansion joint cover assemblies.

- 07 84 13 Penetration Firestopping
- 07 84 13.13 Penetration Firestopping Mortars
- 07 84 13.16 Penetration Firestopping Devices
- 07 84 43 Joint Firestopping
- 07 84 53 Building Perimeter Firestopping

Alternate Terms/Abbreviations: fire safing.

# 07 86 00 Smoke Seals

Includes: material installed at the perimeter of openings to prevent the spread of smoke.

# DIVISION 08 – OPENINGS 08 00 00 Openings

May be used as Division level Section title.

08 01 00

#### **Operation and Maintenance of Openings**

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of openings.

Level 4 Numbering Recommendation: Level 4 titles for wood windows are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

.51-.59 for maintenance.

.61-.69 for repair.

.71-.79 for rehabilitation.

.81-.89 for replacement.

.91-.99 for restoration.

- 08 01 10 Operation and Maintenance of Doors and Frames
- 08 01 11 Operation and Maintenance of Metal Doors and Frames
- 08 01 14 Operation and Maintenance of Wood Doors

08 01 15 Operation and Maintenance of Plastic Doors

- 08 01 16 Operation and Maintenance of Composite Doors
- 08 01 17 Operation and Maintenance of Integrated Door Opening Assemblies
- 08 01 30 Operation and Maintenance of Specialty Doors and Frames
- 08 01 32 Operation and Maintenance of Sliding Glass Doors

08 01 33 Operation and Maintenance of Coiling Doors and Grilles

- 08 01 34 Operation and Maintenance of Special Function Doors
- 08 01 35 Operation and Maintenance of Folding Doors and Grilles
- 08 01 36 Operation and Maintenance of Panel Doors
- 08 01 39 Operation and Maintenance of Traffic Doors
- 08 01 40 Operation and Maintenance of Entrances, Storefronts, and Curtain Walls
- 08 01 41 Operation and Maintenance of Entrances
- 08 01 42 Operation and Maintenance of Storefronts
- 08 01 44 Operation and Maintenance of Curtain Walls
- 08 01 50 Operation and Maintenance of Windows
- 08 01 51 Operation and Maintenance of Metal Windows
- 08 01 52 Operation and Maintenance of Wood Windows
- 08 01 52.61 Wood Window Repairs
- 08 01 52.71 Wood Window Rehabilitation
- 08 01 52.81 Wood Window Replacement
- 08 01 52.91 Wood Window Restoration
- 08 01 52.93 Historic Treatment of Wood Windows
- 08 01 53 Operation and Maintenance of Plastic Windows
- 08 01 54 Operation and Maintenance of Composite Windows
- 08 01 56 Operation and Maintenance of Special Function Windows
- 08 01 60 Operation and Maintenance of Skylights and Roof Windows
- 08 01 61 Operation and Maintenance of Roof Windows
- 08 01 62 Operation and Maintenance of Unit Skylights

NUMBER TITLE EXPLANATION

## 08 62 00 Unit Skylights

Includes: skylights without framing except at the perimeter of the glazing.

Alternate Terms/Abbreviations: skylight: ceiling domes.

- 08 62 13 Domed Unit Skylights
- 08 62 16 Pyramidal Unit Skylights
- 08 62 19 Vaulted Unit Skylights
- 08 62 23 Tubular Skylights

## 08 63 00 Metal-Framed Skylights

Includes: skylights with any metal framing.

- 08 63 13 Domed Metal-Framed Skylights
- 08 63 16 Pyramidal Metal-Framed Skylights
- 08 63 19 Vaulted Metal-Framed Skylights
- 08 63 23 Ridge Metal-Framed Skylights
- 08 63 53 Motorized Metal-Framed Skylights

## 08 64 00 Plastic-Framed Skylights

Includes: skylights with plastic framing.

## 08 65 00 Glazed Canopies

08 65 13 Suspended Glazed Canopies

Includes: custom constructed canopy assemblies.

See Also: 10 73 00 for protective covers.

## 08 67 00 Skylight Protection and Screens

Includes: screens and other protection for skylights.

## 08 70 00 Hardware

Includes: hardware and gaskets for doors and windows not supplied as part of the manufactured item. Electronic, magnetic, hydraulic, and pneumatic components for operating, controlling, and monitoring doors and windows.

## 08 71 00 Door Hardware

Includes: hardware for the operation of doors, including hanging, latching, locking, controlling, and automatic operation. Hinges, pivots, sliding and folding door hardware, latches, locks, cylinders, exit devices, closers, holders, self-closing hinges, push plates, kick plates, other door trim, weatherstripping, seals, gaskets, and thresholds.

Alternate Terms/Abbreviations: door hardware: finish hardware, builder's hardware. Exit devices: panic devices.

# **DIVISION 09 – FINISHES** 09 00 00 Finishes

May be used as Division level Section title.

09 01 00

### Maintenance of Finishes

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of finishes.

Level 4 Numbering Recommendation: Level 4 titles for finishes are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation. .81-.89 for replacement. .91-.99 for restoration.

See: 02 83 33 for lead-based paint removal and disposal.

## 09 08 00 Commissioning of Finishes

Includes: commissioning of items common to multiple titles in Division 09.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

## 09 20 00 Plaster and Gypsum Board

Includes: non-structural metal support assemblies for plaster and gypsum board. Exterior and interior veneer plaster, acoustical plaster, plaster partitions, and plaster fireproofing. Exterior and interior gypsum board, gypsum board assemblies, accessories, and trim.

May Include: acoustical insulation and sealants.

See: 05 40 00 for structural cold-formed metal framing. 06 11 00 for wood framing. 07 24 00 for exterior insulation and finish systems.

See Also: 07 92 19 for acoustic sealants. 09 81 00 for acoustic insulation.

### 09 21 00 Plaster and Gypsum Board Assemblies

Includes: plaster, lath, board, non-structural framing, accessories, and trim for plaster and gypsum board assemblies.

- 09 21 13 Plaster Assemblies
- 09 21 16 Gypsum Board Assemblies
- 09 21 16.23 Gypsum Board Shaft Wall Assemblies
- 09 21 16.33 Gypsum Board Area Separation Wall Assemblies

|   |  |  |

- NUMBER TITLE EXPLANATION
- 09 27 13 Glass-Fiber-Reinforced Gypsum Fabrications
- 09 27 23 Simulated Plaster Fabrications

### 09 28 00 Backing Boards and Underlayments

Includes: gypsum and cementitious backing board for other finishes.

See: 09 30 00 for tiling.

- 09 28 13 Cementitious Backing Boards
- 09 28 16 Glass-Mat Faced Gypsum Backing Boards
- 09 28 19 Fibered Gypsum Backing Boards

#### 09 29 00 Gypsum Board

Includes: unfinished and prefinished gypsum board over metal and wood framing; accessories and trim; joint taping and finishing.

May Include: non-structural metal framing, ceiling suspension, and furring systems. Gypsum and cementitious backing board for other finishes.

Alternate Terms/Abbreviations: gypsum board: gypsum wallboard: drywall.

See: 05 40 00 for cold-formed structural metal framing. 06 11 00 for wood framing.

07 82 00 for board fire protection.

09 56 13 for gypsum-panel textured ceilings.

10 22 19 for demountable gypsum board partitions.

See Also: 06 16 43 for gypsum sheathing. 09 22 00 for metal supports for gypsum board. 09 28 00 for backing boards and underlayments.

09 29 82 Gypsum Board Fire Protection

| Number                                       | Τιτιε   | Explanation   |
|--|---|---|
| 09 30 00                                     | Tiling  | Includes: manufactured surfacing units of impervious, vitreous,<br>semi-vitreous, and non-vitreous materials; glazed, unglazed,<br>conductive, abrasive, and textured surfaces. Related mortar,<br>adhesives, grout, trim, and accessories. Related antifracture<br>membranes. Tile towel bar holders, toilet paper holders, soap<br>dishes, and other tile accessories. Tiling by tile material. |
|  |   | May Include: tile murals.   |
|  |   | <ul> <li>See: 03 45 13 for tile faced architectural precast concrete.</li> <li>07 32 00 for roof tiles.</li> <li>07 44 19 for tile faced panels.</li> <li>09 28 00 for tile backing boards.</li> <li>09 51 23 for acoustical tile ceilings.</li> <li>09 63 40 for stone flooring.</li> <li>09 66 16 for terrazzo floor tile.</li> <li>09 75 00 for stone facing.</li> </ul>                       |

#### 09 50 00 Ceilings

Includes: ceiling panels, units, and materials manufactured as finished ceiling surfaces. Ceiling suspension assemblies.

See: 23 32 33 for air-distribution ceiling plenums.

#### 09 51 00 Acoustical Ceilings

Includes: suspended and directly applied tiles and panels with specific characteristics for acoustical purposes.

May Include: ceiling suspension assemblies.

See: 05 34 00 for acoustical metal decking.

09 23 13 for acoustical gypsum plastering.

09 58 00 for integrated ceiling assemblies.

09 62 48 for acoustic flooring.

09 80 00 for acoustic treatment.

09 83 16 for acoustic ceiling coating.

13 21 48 for sound-conditioned rooms.

13 48 00 for sound, vibration, and seismic control.

See Also: 09 53 00 for acoustical ceiling suspension assemblies.

- 09 51 13 **Acoustical Panel Ceilings**
- 09 51 14 Acoustical Fabric-Faced Panel Ceilings

See: 09 54 46 for fabric-wrapped ceiling panels.

| Number | Title | Explanation |
|--------|-------|-------------|

### 09 65 00 Resilient Flooring

Includes: resilient tile and sheet flooring. Resilient base, resilient stair treads and risers, resilient stair nosings, resilient edging, and transitions for carpet.

Alternate Terms/Abbreviations: athletic flooring: gymnasium flooring: sports flooring. VCT: vinyl composition tile.

See: 09 33 00 for conductive tiling.

09 61 36 for static-resistant flooring treatment.

09 64 66 for wood athletic flooring.

09 66 33 for conductive terrazzo flooring.

09 67 13 for conductive elastomeric liquid flooring.

09 67 66 for fluid-applied athletic flooring.

13 28 66 for demountable athletic surfaces.

Products: linoleum, rubber, vinyl, vinyl composition floor coverings.

### 09 68 00 Carpeting

Includes: carpet, carpet cushions, and accessories. Direct-gluedown installation, double-glue-down installation, carpet with attached-cushion installation, preapplied adhesive installation, hook-and-loop installation, stretch-in installation.

May Include: wall carpeting.

Alternate Terms/Abbreviations: sheet carpeting: roll carpeting: broadloom.

See: 12 48 00 for rugs and mats.

212

See Also: 09 69 00 for carpet tile with access flooring. 09 73 00 for wall carpeting.

NUMBER

**EXPLANATION** 

#### **Acoustic Treatment** 09 80 00

TITLE

Includes: acoustical sound-absorbing units, acoustical barriers, acoustic insulation.

See: 04 22 23 for sound-absorbing concrete unit masonry.

05 34 00 for acoustical metal decking.

07 92 19 for acoustical joint sealant.

09 23 13 for acoustical gypsum plastering.

09 51 00 for acoustical ceilings.

09 62 48 for acoustic flooring.

13 21 48 for sound-conditioned rooms.

13 48 00 for sound, vibration, and seismic control.

44 20 00 for noise pollution control.

#### 09 81 00 **Acoustic Insulation**

Includes: insulation to provide acoustical isolation.

May Include: acoustic insulation for plaster and gypsum board assemblies.

Alternate Terms/Abbreviations: blanket insulation: batt insulation. Board insulation: rigid insulation: semi-rigid insulation. Sprayed insulation: spray-on insulation.

See: 07 21 00 for thermal insulation.

See Also: 09 20 00 for acoustic insulation for plaster and gypsum board.

- 09 81 13 Acoustic Board Insulation
- 09 81 16 Acoustic Blanket Insulation
- Sprayed Acoustic Insulation 09 81 29

#### 09 83 00 Acoustic Finishes

Includes: coatings and coverings in which the primary function is acoustical absorption.

See: 09 23 13 for acoustical gypsum plastering. 12 22 00 for window curtains and drapes.

- 09 83 13 Acoustic Wall Coating
- 09 83 16 Acoustic Ceiling Coating
- 09 83 22 Acoustic Drapery

## 10 56 00 Storage Assemblies

Includes: manufactured storage assemblies for general storage. Manual and motorized mobile and compact storage systems.

See: 10 57 23 for closet and utility shelving.

11 51 23 for library stack systems.

12 35 50 for educational/library casework.

12 56 51 for library furniture.

12 59 00 for shelving integral with systems furniture.

- 41 53 00 for industrial storage equipment and systems.
- 10 56 13 Metal Storage Shelving
- 10 56 13.13 End-Panel-Support Metal Storage Shelving
- 10 56 13.16 Post-and-Shelf Metal Storage Shelving
- 10 56 13.19 Post-and-Beam Metal Storage Shelving
- 10 56 13.23 Cantilever Metal Storage Shelving
- 10 56 16 Fabricated Wood Storage Shelving
- 10 56 17 Wall-Mounted Standards and Shelving
- 10 56 19 Plastic Storage Shelving
- 10 56 19.13 Recycled Plastic Storage Shelving
- 10 56 23 Wire Storage Shelving
- 10 56 26 Mobile Storage Shelving
- 10 56 26.13 Manual Mobile Storage Shelving
- 10 56 26.23 Motorized Mobile Storage Shelving
- 10 56 29 Storage Racks
  - 10 56 29.13 Flow Storage Racks
  - 10 56 29.16 Pallet Storage Racks
  - 10 56 29.19 Movable-Shelf Storage Racks
  - 10 56 29.23 Stacker Storage Racks

10 56 33 Mercantile Storage Assemblies

## **10 57 00** Wardrobe and Closet Specialties

Includes: manufactured hat and coat racks, and other specialties for storage of clothing. Manufactured shelving for closets and utility rooms.

See: 06 20 00 for finish carpentry shelving. 10 51 00 for lockers.

10 56 00 for general storage assemblies.

11 21 33 for checkroom equipment.

10 57 13 Hat and Coat Racks

### 10 57 16 Boot Racks

- 10 57 23 Closet and Utility Shelving
- 10 57 23.13 Wire Closet and Utility Shelving
- 10 57 23.16 Plastic-Laminate-Clad Closet and Utility Shelving
- 10 57 23.19 Wood Closet and Utility Shelving
- 10 57 33 Closet and Utility Shelving Hardware
- 10 57 36 Closet Doors
- 10 57 36.13 Sliding Closet Doors
- 10 57 36.16 Bifold Closet Doors

## **10 70 00** Exterior Specialties

## **10 71 00** Exterior Protection

Includes: manufactured items to provide sun control, privacy, security, insulation, and storm protection on exterior of openings; fixed, movable, manually and electrically operated, and automatically controlled devices.

See: 06 49 19 for wood screens and exterior wood shutters.

- 10 73 13 for awnings.
- 10 73 16 for canopies.
- 10 82 13 for exterior grilles and screens.
- 12 20 00 for interior window treatments.
- 12 23 00 for interior shutters.

### 10 71 13 Exterior Sun Control Devices

See: 08 44 00 for fixed sun screens integral with curtain walls. 12 26 00 for interior daylighting devices.

- 10 71 13.13 Exterior Shutters
- 10 71 13.19 Rolling Exterior Shutters
- 10 71 13.23 Coiling Exterior Shutters
- 10 71 13.26 Decorative Exterior Shutters

# **DIVISION 11 – EQUIPMENT** 11 00 00 Equipment

May be used as Division level Section title.

See: 25 31 00 for integrated automation instrumentation and terminal devices for facility equipment. 25 51 00 for integrated automation control of facility equipment. 25 91 00 for integrated automation control sequences for facility equipment. 34 75 00 for roadway equipment. 34 76 00 for railway equipment. 34 77 00 for transportation equipment. 41 00 00 for material processing and handling equipment. 42 00 00 for process heating, cooling, and drying equipment. 43 00 00 for process gas and liquid handling, purification, and storage equipment. 44 00 00 for pollution and waste control equipment. 45 00 00 for industry-specific manufacturing equipment. 46 00 00 for water and wastewater equipment. 48 00 00 for electrical power generation equipment.

11 01 00

### **Operation and Maintenance of Equipment**

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of equipment.

Level 4 Numbering Recommendation: one Level 4 title for equipment is provided as an example for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

- .51-.59 for maintenance.
- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.

## **11 14 00 Pedestrian Control Equipment**

Includes: equipment associated with the control of movement of pedestrians. Self-contained equipment to collect fares for pedestrians that is not part of a centralized transportation ticketing and fare collection system. Pedestrian access control.

See: 28 10 00 for access control. 28 20 00 for video surveillance. 34 41 00 for roadway signaling and control equipment. 34 54 00 for transportation passenger fare collection. 34 54 16 for transportation passenger ticketing equipment. 34 54 26 for transportation passenger fare collection equipment.

34 54 33 for transportation passenger fare gates.

### 11 14 13Pedestrian Gates

- 11 14 13.16 Rotary Gates
- 11 14 13.19 Turnstiles
- 11 14 16

Pedestrian Control Devices Includes: permanent and portable retractable belt barriers, stanchions, and other queuing, pedestrian flow, and crowd control devices.

# DIVISION13 – SPECIAL CONSTRUCTION13 00 00SpecialMay be used as Division level<br/>Section title.Construction

# **Operation and Maintenance of Special Construction**

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of special construction.

Level 4 Numbering Recommendation: Level 4 titles for special construction are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

- .51-.59 for maintenance.
- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.
- 13 01 10 Operation and Maintenance of Special Facility Components
- 13 01 11 Operation and Maintenance of Swimming Pools
- 13 01 12 Operation and Maintenance of Fountains
- 13 01 13 Operation and Maintenance of Aquariums
- 13 01 14 Operation and Maintenance of Amusement Park Structures and Equipment
- 13 01 18 Operation and Maintenance of Ice Rinks
- 13 01 20 Operation and Maintenance of Special Purpose Rooms
- 13 01 21 Operation and Maintenance of Controlled Environment Rooms
- 13 01 23 Operation and Maintenance of Planetariums
- 13 01 30 Operation and Maintenance of Special Structures
- 13 01 40 Operation and Maintenance of Integrated Construction
- 13 01 49 Operation and Maintenance of Radiation Protection
- 13 01 50 Operation and Maintenance of Special Instrumentation
- 13 01 51 Operation and Maintenance of Stress Instrumentation
- 13 01 52 Operation and Maintenance of Seismic Instrumentation
- 13 01 53 Operation and Maintenance of Meteorological Instrumentation

## 13 05 00 Common Work Results for Special Construction

Includes: subjects common to multiple titles in Division 13.

See: 01 80 00 for performance requirements of subjects common to multiple titles.

13 05 05 Selective Demolition for Special Construction See: 02 41 19 for selective demolition for whole structure demolition. NUMBER TITLE EXPLANATION

# 13 06 00 Schedules for Special Construction

Includes: schedules of items common to multiple titles in Division 13.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

- 13 06 10 Schedules for Special Facility Components
- 13 06 20 Schedules for Special Purpose Rooms
- 13 06 30 Schedules for Special Structures
- 13 06 40 Schedules for Integrated Construction
- 13 06 50 Schedules for Special Instrumentation

## 13 08 00 Commissioning of Special Construction

Includes: commissioning of items common to multiple titles in Division 13.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

- 13 08 10 Commissioning of Special Facility Components
- 13 08 11 Commissioning of Swimming Pools
- 13 08 12 Commissioning of Fountains
- 13 08 13 Commissioning of Aquariums
- 13 08 14 Commissioning of Amusement Park Structures and Equipment
- 13 08 18 Commissioning of Ice Rinks
- 13 08 20 Commissioning of Special Purpose Rooms
- 13 08 21 Commissioning of Controlled Environment Rooms
- 13 08 23 Commissioning of Planetariums
- 13 08 30 Commissioning of Special Structures
- 13 08 40 Commissioning of Integrated Construction
- 13 08 50 Commissioning of Special Instrumentation

# 13 10 00 Special Facility Components

## 13 11 00 Swimming Pools

Includes: fabricated, or pre-engineered components, field assembled for athletic or recreational purposes. Diving boards, lifeguard chairs, floats, swimming pool ladders, underwater speakers.

See: 13 14 13 for water slides.

13 14 16 for water generating equipment.

- 13 17 00 for lap swimming pools.
- 13 17 00 for tubs and pools.
- 22 11 00 for facility water distribution.
- 22 13 00 for facility sanitary sewerage.
- 22 51 00 for swimming pool plumbing systems.
- 26 55 29 for underwater lighting.

| NUMBER | Title | EXPLANATION |  |
|--------|-------|-------------|--|
|        |       |             |  |

- 13 11 13 Below-Grade Swimming Pools
- 13 11 23On-Grade Swimming Pools
- 13 11 33Elevated Swimming Pools
- 13 11 43Recirculating Gutter Systems
- 13 11 46 Swimming Pool Accessories
- 13 11 49 Swimming Pool Cleaning Equipment
- 13 11 53 Movable Pool Bulkheads
- 13 11 56 Movable Pool Floors

### 13 12 00 Fountains

Includes: decorative or functional manufactured fountains.

See: 22 11 00 for facility water distribution.22 13 00 for facility sanitary sewerage.22 52 00 for fountain plumbing systems.26 55 29 for underwater lighting.

- 13 12 13 Exterior Fountains
- 13 12 23 Interior Fountains

## 13 13 00 Aquariums

Includes: tubs, bowls, and other containers for containing and displaying of aquatic animals and plants.

See: 22 11 00 for facility water distribution.22 13 00 for facility sanitary sewerage.26 55 29 for underwater lighting.

### **13 14 00** Amusement Park Structures and Equipment

Includes: fabricated or pre-engineered components, fieldassembled for sport or recreational purposes.

See: 13 34 00 for fabricated engineered structures.22 11 00 for facility water distribution.22 13 00 for facility sanitary sewerage.26 55 29 for underwater lighting.

- 13 14 13 Water Slides
- 13 14 16 Wave Generating Equipment
- 13 14 23 Amusement Park Rides

### 13 15 00 Specialty Element Construction

Includes: specialty fabrications and scenery for themed environments.

13 49 00

- Integrated RFI/EMI Shielding Assemblies 13 49 23
- 13 49 26 Modular RFI/EMI Shielding Rooms

Alternate Terms/Abbreviations: radiation shielding: shielding.

#### **Special Instrumentation** 13 50 00

Includes: instrumentation for measuring and recording phenomena such as stresses in structures, solar and wind energy, and effects of earthquakes.

See: 02 31 13 for seismic investigations.

13 48 00 for sound, vibration, and seismic control.

- 23 56 00 for solar energy heating equipment.
- 26 31 00 for photovoltaic collectors.

26 32 23 for wind energy equipment.

34 43 23 for airfield weather observation equipment.

40 91 00 for primary process measurement devices.

40 91 19 for stress/strain process measurement devices.

42 12 23 for solar process heaters.

42 13 26 for solar industrial radiation heat exchangers.

48 14 00 for solar energy electrical power generation equipment.

48 15 00 for wind energy electrical power generation equipment.

48 19 19 for electrical power generation solar tracking equipment.

Number

EXPLANATION

## 14 70 00 Turntables

TITLE

Includes: structural turntables for various applications.

- See: 11 11 00 for vehicle service equipment.
- 11 25 00 for hospitality equipment.
- 11 59 00 for exhibit equipment.
- 11 61 00 for theater and stage equipment.
- 14 43 16 for stage lifts.
- 14 45 00 for vehicle lifts.
- 41 21 36 for piece material turntables.

### 14 71 00 Industrial Turntables

14 71 11 Vehicle Turntables

### 14 72 00 Hospitality Turntables

14 72 25 Restaurant Turntables

### 14 73 00 Exhibit Turntables

14 73 59 Display Turntables

### 14 74 00 Entertainment Turntables

14 74 61 Stage Turntables

# 14 80 00 Scaffolding

### 14 81 00 Suspended Scaffolding

Includes: scaffolding, when part of the completed project.

See: 01 54 23 for temporary scaffolding and platforms.

- 14 81 13Beam Scaffolding
- 14 81 16 Carriage Scaffolding
- 14 81 19Hook Scaffolding

### 14 82 00 Rope Climbers

See: 34 13 00 for funiculars. 34 14 00 for cable transportation.

- 14 82 13 Manual Rope Climbers
- 14 82 16 Powered Rope Climbers

### 14 83 00 Elevating Platforms

Includes: fixed elevating platforms to provide a movable elevated working platform for people and materials.

See: 14 43 00 for platform lifts. 41 66 16 for industrial mobile lifts and cherrypickers.

| Number                  | Title               | Explanation                  |

### 14 84 00 Powered Scaffolding

See: 41 22 23 for hoists.

- 14 84 13 Window Washing Scaffolding
- 14 84 23 Window Washing Hoists

# 14 90 00 Other Conveying Equipment

### 14 91 00 Facility Chutes

Includes: chutes which support the operation of the building or structure.

Does Not Include: chutes which support process engineering operations.

Alternate Terms/Abbreviations: trash chutes: refuse chutes: rubbish chutes: waste chutes.

See: 05 51 23 for metal fire escapes.
10 55 91 for mail chutes.
11 82 00 for solid waste handling equipment.
40 30 00 for solid and mixed materials piping and chutes.

- 40 32 00 bulk materials piping and chutes.
- 14 91 13 Coal Chutes
- 14 91 23 Escape Chutes
- 14 91 33 Laundry and Linen Chutes
- 14 91 82 Trash Chutes

### 14 92 00 Pneumatic Tube Systems

See: 11 21 00 for mercantile and service equipment.

- 11 28 00 for office equipment.
- 11 70 00 for healthcare equipment.
- 41 12 19 for pneumatic conveyors.

NUMBER

21 22 13 Clean-Agent Fire-Extinguishing Piping

TITLE

21 22 16 Clean-Agent Fire-Extinguishing Equipment

# 21 23 00 Wet-Chemical Fire-Extinguishing Systems

**EXPLANATION** 

Includes: systems that deliver wet chemicals for fire extinguishing and suppression.

See: 21 13 00 for water fire-suppression sprinkler systems.

- 21 23 13 Wet-Chemical Fire-Extinguishing Piping
- 21 23 16 Wet-Chemical Fire-Extinguishing Equipment

### 21 24 00 Dry-Chemical Fire-Extinguishing Systems

Includes: systems that deliver dry chemicals for fire extinguishing and suppression.

See: 21 13 00 for water fire-suppression sprinkler systems.

- 21 24 13 Dry-Chemical Fire-Extinguishing Piping
- 21 24 16 Dry-Chemical Fire-Extinguishing Equipment

## 21 30 00 Fire Pumps

Includes: pumps associated with water-based fire-suppression systems.

See: 21 10 00 for water-based fire-suppression systems.

- 21 11 00 for facility fire-suppression water-service piping.
- 21 12 00 for fire-suppression standpipes.
- 22 11 23 for domestic water pumps.
- 22 51 16 for swimming pool pumps.
- 22 52 16 for fountain pumps.
- 23 21 23 for hydronic pumps.

### 21 31 00 Centrifugal Fire Pumps

- 21 31 13 Electric-Drive, Centrifugal Fire Pumps
- 21 31 16 Diesel-Drive, Centrifugal Fire Pumps

### 21 32 00 Vertical-Turbine Fire Pumps

- 21 32 13 Electric-Drive, Vertical-Turbine Fire Pumps
- 21 32 16 Diesel-Drive, Vertical-Turbine Fire Pumps

### 21 33 00 Positive-Displacement Fire Pumps

- 21 33 13 Electric-Drive, Positive-Displacement Fire Pumps
- 21 33 16 Diesel-Drive, Positive-Displacement Fire Pumps

### 21 34 00 Fire Pump Accessories

21 34 13 Pressure Maintenance Pumps

NUMBER TITLE EXPLANATION 21 40 00 **Fire-Suppression Water Storage** Storage Tanks for Fire-Suppression Water 21 41 00 Includes: tanks closely associated with a structure for the storage of water for fire extinguishing and suppression for a structure. See: 09 97 13 for storage tank coatings. 22 12 00 for facility potable-water storage tanks. 23 13 00 for facility fuel-storage tanks. 31 00 00 for earthwork. 33 16 00 for water utility storage tanks. 33 56 00 for fuel storage tanks. 35 00 00 for waterway and marine construction. 43 41 13 for gas and liquid pressure vessels. 21 41 13 Pressurized Storage Tanks for Fire-Suppression Water 21 41 16 Elevated Storage Tanks for Fire-Suppression Water 21 41 19 Roof-Mounted Storage Tanks for Fire-Suppression Water 21 41 23 Ground Suction Storage Tanks for Fire-Suppression Water 21 41 26 Underground Storage Tanks for Fire-Suppression Water

# DIVISION 22 – PLUMBING 22 00 00 Plumbing

May be used as Division level Section title.

See: 02 41 19 for selective demolition of existing plumbing systems. 03 30 00 for cast-in-place concrete equipment bases. 07 84 00 for firestopping. 07 92 00 for joint sealants. 08 31 00 for access doors and panels. 09 91 00 for field painting. 31 23 33 for trenching and backfilling.

### 22 01 00 Operation and Maintenance of Plumbing

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of plumbing.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance. .61-.69 for repair.

.71-.79 for rehabilitation.

- .81-.89 for replacement.
- .91-.99 for restoration.
- 22 01 10 Operation and Maintenance of Plumbing Piping and Pumps
- 22 01 10.16 Video Piping Inspections
- 22 01 10.51 Plumbing Piping Cleaning
- 22 01 10.61 Plumbing Piping Repairs
- 22 01 10.62 Plumbing Piping Relining
- 22 01 30 Operation and Maintenance of Plumbing Equipment
- 22 01 40 Operation and Maintenance of Plumbing Fixtures
- 22 01 50 Operation and Maintenance of Pool and Fountain Plumbing Systems
- 22 01 60 Operation and Maintenance of Laboratory and Healthcare Systems

- 22 67 19.16 Reverse-Osmosis Water Equipment
- 22 67 19.19 Deionized-Water Equipment

# DIVISION 23 – HEATING, VENTILATING, AND AIR CONDITIONING (HVAC)

23 00 00 Heating, Ventilating, and Air Conditioning (HVAC) May be used as Division level Section title.

See: 02 41 19 for selective structure demolition of existing HVAC systems. 03 30 00 for cast-in-place concrete equipment bases. 07 84 00 for firestopping. 07 92 00 for joint sealants. 08 31 00 for access doors and panels. 09 91 00 for field painting. 31 23 33 for trenching and backfilling.

### 23 01 00 Operation and Maintenance of HVAC Systems

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of HVAC systems.

Level 4 Numbering Recommendation: Level 4 titles for HVAC systems are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

.51-.59 for maintenance.

.61-.69 for repair.

.71-.79 for rehabilitation.

- .81-.89 for replacement.
- .91-.99 for restoration.
- 23 01 10 Operation and Maintenance of Facility Fuel Systems
- 23 01 20 Operation and Maintenance of HVAC Piping and Pumps
- 23 01 30 Operation and Maintenance of HVAC Air Distribution
- 23 01 30.51 HVAC Air-Distribution System Cleaning
- 23 01 50 Operation and Maintenance of Central Heating Equipment
- 23 01 60 Operation and Maintenance of Central Cooling Equipment
- 23 01 60.71 Refrigerant Recovery/Recycling
- 23 01 70 Operation and Maintenance of Central HVAC Equipment
- 23 01 80 Operation and Maintenance of Decentralized HVAC Equipment
- 23 01 90 Diagnostic Systems for HVAC

### 23 07 00 HVAC Insulation

Includes: thermal insulation of HVAC ducts, piping, and equipment.

See: 07 21 00 for thermal insulation. 21 07 00 for fire-suppression insulation.

22 07 00 for plumbing insulation.

40 42 00 for process piping and equipment insulation.

23 07 13 Duct Insulation

- 23 07 16 HVAC Equipment Insulation
- 23 07 19 HVAC Piping Insulation

#### 23 08 00 Commissioning of HVAC

Includes: commissioning of items common to multiple titles in Division 23.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

| Number   | Title  | Explanation  |
|--|--|--|
| 23 09 00   | Instrumentat   | tion and Control for HVAC<br>Includes: items for operating and controlling HVAC equipment.<br>Various types of controls and the sequence of operation<br>describing the equipment operation.   |

Number

EXPLANATION

# 23 20 00 HVAC Piping and Pumps

TITLE

Includes: HVAC piping, pumps, and water treatment for a structure.

See: 23 05 93 for testing, adjusting, and balancing for HVAC. 23 09 00 for instrumentation and control for HVAC. 33 60 00 for site hydronic and steam energy utilities.

#### 23 21 00 Hydronic Piping and Pumps

Includes: chilled condenser and hot water piping, valves, piping specialties, pumps, and other components within a structure.

See: 21 30 00 for fire pumps. 22 11 23 for domestic water pumps.

33 61 00 for site hydronic energy distribution.

- 23 21 13 Hydronic Piping
- 23 21 13.13 Underground Hydronic Piping
- 23 21 13.23 Aboveground Hydronic Piping
- 23 21 13.33 Ground-Loop Heat-Pump Piping
- 23 21 16 Hydronic Piping Specialties
- 23 21 23 Hydronic Pumps
- 23 21 23.13 In-Line Centrifugal Hydronic Pumps
- 23 21 23.16 Base-Mounted, Centrifugal Hydronic Pumps
- 23 21 23.19 Vertical-Mounted, Double-Suction Centrifugal Hydronic Pumps
- 23 21 23.23 Vertical-Turbine Hydronic Pumps
- 23 21 29 Automatic Condensate Pump Units

#### 23 22 00 Steam and Condensate Piping and Pumps

Includes: steam and condensate piping, valves, piping specialties and other components within a structure.

See: 33 63 00 for site steam energy distribution. 40 11 00 for steam process piping.

- 23 22 13 Steam and Condensate Heating Piping
- 23 22 13.13 Underground Steam and Condensate Heating Piping
- 23 22 13.23 Aboveground Steam and Condensate Heating Piping
- 23 22 16 Steam and Condensate Heating Piping Specialties
- 23 22 23 Steam Condensate Pumps
  - 23 22 23.13 Electric-Driven Steam Condensate Pumps
- 23 22 23.23 Pressure-Powered Steam Condensate Pumps

### 23 23 00 Refrigerant Piping

Includes: refrigerant piping, valves, piping specialties, refrigerant, and other components within a structure.

See: 28 44 00 for refrigerant detection and alarm.

| 22 24 00 | Internal Con      | abuation Engine Dining           |
|----------|-------------------|----------------------------------|
| 23 23 23 | Refrigerants      |                                  |
| 23 23 19 | Refrigerant Safe  | ty Relief Valve Discharge Piping |
| 23 23 16 | Refrigerant Pipir | ng Specialties                   |
| 23 23 13 | Refrigerant Pipir | ng Valves                        |
| Number   | TITLE             | Explanation                      |
|          |                   |                                  |

#### 23 24 00 Internal-Combustion Engine Piping

Includes: piping for internal-combustion engines other than fuel piping.

See: 23 11 00 for facility fuel piping.23 51 00 for breechings, chimneys, and stacks.26 32 13 for engine generators.40 15 00 for combustion system gas piping.

- 23 24 13 Internal-Combustion Engine Remote-Radiator Coolant Piping
- 23 24 16 Internal-Combustion Engine Exhaust Piping

### 23 25 00 HVAC Water Treatment

Includes: water treatment equipment for hot water, chilled water, steam, and condenser water systems. One-shot feeders, automatic chemical feed systems, manual chemical feed systems, and chemicals.

See: 22 31 00 for domestic water softeners. 22 32 00 for domestic water filtration equipment.

- 23 25 13 Water Treatment for Closed-Loop Hydronic Systems
- 23 25 16 Water Treatment for Open Hydronic Systems
- 23 25 19 Water Treatment for Steam System Feedwater
- 23 25 23 Water Treatment for Humidification Steam System Feedwater
- 23 25 26 Electronic Water Conditioning for HVAC Systems
- 23 25 33 HVAC Makeup-Water Filtration Equipment

Includes: water softeners, RO equipment, multimedia filters, self-cleaning strainers, bag-and cartridge-type filters, and centrifugal separators.

# 23 30 00 HVAC Air Distribution

Includes: ducts, duct accessories, fans, volume control equipment, and air inlets and outlets.

See: 23 05 93 for testing, adjusting, and balancing for HVAC. 23 09 00 for instrumentation and control for HVAC.

Number

EXPLANATION

23 31 00 HVAC Ducts and Casings Includes: duct materials and fabrication, including duct hangers and supports.

> See: 23 07 13 for duct insulation. 23 33 46 for flexible ducts. 23 33 53 for duct liners.

- 23 31 13 Metal Ducts
- 23 31 13.13 Rectangular Metal Ducts

TITLE

- 23 31 13.16 Round and Flat-Oval Spiral Ducts
- 23 31 13.19 Metal Duct Fittings
- 23 31 16 Nonmetal Ducts
- 23 31 16.13 Fibrous-Glass Ducts
- 23 31 16.16 Thermoset Fiberglass-Reinforced Plastic Ducts
- 23 31 16.19 PVC Ducts
- 23 31 16.26 Concrete Ducts
- 23 31 19 HVAC Casings

#### 23 32 00 Air Plenums and Chases

Includes: plenums and chases formed by general construction work results used for HVAC air distribution.

See: 09 50 00 for suspended ceilings. 09 69 00 for access flooring. 13 48 00 for sound, vibration, and seismic control. 23 31 00 for HVAC ducts and casings.

- 23 32 13 Fabricated, Metal Air Plenums
- 23 32 33 Air-Distribution Ceiling Plenums
- 23 32 36 Air-Distribution Floor Plenums
- 23 32 39 Air-Distribution Wall Plenums
- 23 32 43 Air-Distribution Chases Formed by General Construction
- 23 32 48 Acoustical Air Plenums

#### 23 33 00 Air Duct Accessories

Includes: dampers, duct access panel and test holes, flexible duct connectors, turning vanes and extractors, and sound attenuators. Balancing, back draft, fire, smoke, and combination fire and smoke dampers.

See: 23 07 13 for duct insulation. 23 09 00 for instrumentation and control for HVAC. 23 31 00 for HVAC ducts and casings.

23 33 13 Dampers

- 23 33 13.13 Volume-Control Dampers
- 23 33 13.16 Fire Dampers
- 23 33 13.19 Smoke-Control Dampers
- 23 33 13.23 Backdraft Dampers

Master List of Numbers, Titles, and Explanations

| Number | TITLE | EXPLANATION |  |
|--------|-------|-------------|--|
|        |       |             |  |

- 23 33 19Duct Silencers
- 23 33 23 Turning Vanes
- 23 33 33 Duct-Mounting Access Doors
- 23 33 38 Duct Security Bars
- 23 33 43 Flexible Connectors
- 23 33 46 Flexible Ducts
- 23 33 53 Duct Liners

#### 23 34 00 HVAC Fans

Includes: various types of fans for air distribution. Ceiling fans and exhaust fans.

Alternate Terms/Abbreviations: air curtains: air doors.

See: 23 31 00 for HVAC ducts and casings. 23 38 00 for ventilation hoods.

- 23 34 13 Axial HVAC Fans
- 23 34 16 Centrifugal HVAC Fans
- 23 34 23 HVAC Power Ventilators
- 23 34 33 Air Curtains
- 23 34 39 High-Volume, Low-Speed Propeller Fans

Includes: fans, motors, gearboxes, and drives.

Alternate Terms/Abbreviations: commercial ceiling fans.

#### 23 35 00 Special Exhaust Systems

Includes: exhaust systems with a special specific purpose. Sawdust collection includes inlets, ducts, fans, and collection bins or cyclones. Exhaust systems for vehicle repair facilities, vehicle and engine test facilities, engine-generator exhaust systems, and engine-driven fire-pump exhaust systems.

See: 23 40 00 for HVAC air cleaning devices. 44 11 16 for industrial dust collectors.

- 23 35 13 Dust Collection Systems
  - 23 35 13.13 Sawdust Collection Systems
- 23 35 16 Engine Exhaust Systems
- 23 35 16.13 Positive-Pressure Engine Exhaust Systems
  - 23 35 16.16 Mechanical Engine Exhaust Systems
- 23 35 33 Listed Kitchen Ventilation Exhaust System

Includes: fire-rated kitchen ventilation systems intended chiefly for commercial applications.

See Also: 23 31 00 for HVAC ducts and casings for non-rated kitchen ventilation systems. 23 38 13 for listed commercial-kitchen hoods.

NUMBER

# 23 40 00 HVAC Air Cleaning Devices

Includes: devices of a variety of types to clean distribution air.

Alternate Terms/Abbreviations: HEPA: high-efficiency particulate air (filter). ULPA: ultra-low penetration air (filter). SULPA: super ultra-low penetration air (filter).

See: 23 31 00 for HVAC ducts and casings. 23 35 13 for sawdust collection systems. 44 11 00 for particulate control equipment.

#### 23 41 00 Particulate Air Filtration

- 23 41 13 Panel Air Filters
- 23 41 16 Renewable-Media Air Filters
- 23 41 19 Washable Air Filters
- 23 41 23 Extended Surface Filters
- 23 41 33 High-Efficiency Particulate Filtration
- 23 41 43 Ultra-Low Penetration Filtration
- 23 41 46 Super Ultra-Low Penetration Filtration

#### 23 42 00 Gas-Phase Air Filtration

- 23 42 13 Activated-Carbon Air Filtration
- 23 42 16 Chemically-Impregnated Adsorption Air Filtration
- 23 42 19 Catalytic-Ádsorption Air Filtration

### 23 43 00 Electronic Air Cleaners

- 23 43 13 Washable Electronic Air Cleaners
- 23 43 16 Agglomerator Electronic Air Cleaners
- 23 43 23 Self-Contained Electronic Air Cleaners

# 23 50 00 Central Heating Equipment

Includes: boilers, feedwater equipment, and draft accessories; furnaces; heaters; heat exchangers; and breechings, chimneys, and stacks.

See: 23 05 93 for testing, adjusting, and balancing for HVAC.

- 23 07 16 for HVAC equipment insulation.
- 23 09 00 for instrumentation and control for HVAC.
- 23 11 00 for facility fuel piping.
- 23 21 00 for hydronic piping and pumps.
- 23 22 00 for steam and condensate piping and pumps.
- 33 61 00 for site hydronic energy distribution.
- 33 63 00 for site steam energy distribution.
- 42 10 00 for process heating equipment.

## 23 70 00 Central HVAC Equipment

Includes: equipment that serves a total HVAC system.

See: 23 05 93 for testing, adjusting, and balancing for HVAC. 23 07 16 for HVAC equipment insulation.

23 09 00 for instrumentation and control for HVAC.

- 23 11 00 for facility fuel piping.
- 23 21 00 for hydronic piping and pumps.
- 33 61 00 for site hydronic energy distribution.

#### 23 71 00 Thermal Storage

Includes: equipment to store thermal energy for use in heating and/or cooling and with charging or discharging this energy at a controllable rate.

See: 23 57 33 for direct geoexchange heat exchanger. 48 16 00 for geothermal energy electrical power generation equipment.

- 23 71 13 Thermal Heat Storage
- 23 71 13.13 Room Storage Heaters for Thermal Storage
- 23 71 13.16 Heat-Pump Boosters for Thermal Storage
- 23 71 13.19 Central Furnace Heat-Storage Units

| NUMBER | TITLE |  |
|--------|-------|--|

#### 23 83 00 Radiant Heating and Cooling Units

**EXPLANATION** 

Includes: electric cables and hydronic piping used for radiant heating for space heating or snow and ice control.

See: 21 05 33 for heat tracing for fire-suppression piping.

- 22 05 33 for heat tracing for plumbing piping.
- 23 05 33 for heat tracing for HVAC piping.
- 23 55 23 for gas-fired radiant heaters.
- 32 13 00 for rigid paving.

40 41 00 for process piping and equipment heat tracing.

- 23 83 13 Radiant-Heating Electric Cables
- 23 83 13.16 Radiant-Heating Electric Mats
- 23 83 16 Radiant Heating and Cooling Hydronic Piping
- 23 83 23 Radiant-Heating Electric Panels
- 23 83 26 Radiant Heating and Cooling Hydronic Panels
- 23 83 33 Electric Radiant Heaters

#### 23 84 00 Humidity Control Equipment

Includes: equipment that either adds moisture or removes moisture from a medium in order to control the humidity.

See: 13 11 00 for swimming pools. 13 18 00 for ice rinks. 42 23 19 for process humidifiers. 42 31 00 for gas dryers and dehumidifiers.

- 23 84 13 Humidifiers
  - 23 84 13.13 Heated-Pan Humidifiers
- 23 84 13.16 Wetted-Element Humidifiers
- 23 84 13.19 Atomizing Humidifiers
- 23 84 13.23 Direct-Steam-Injection Humidifiers
- 23 84 13.26 Jacketed, Steam Humidifiers
- 23 84 13.29 Self-Contained Steam Humidifiers
- 23 84 13.33 Portable Humidifiers
- 23 84 16 Mechanical Dehumidification Units
- 23 84 16.13 Outdoor, Mechanical Dehumidification Units
- 23 84 16.16 Indoor, Mechanical Dehumidification Units
- 23 84 16.33 Portable Dehumidifiers
- 23 84 19 Desiccant Dehumidification Units

Division 25

Division 25

TITLE

NUMBER

EXPLANATION

### **25 14 00** Integrated Automation Local Control Units

Includes: microprocessor-based controllers and/or panels that permit the monitoring, control and data gathering from various pieces of building equipment and devices.

See: 27 22 00 for data communications hardware.

- 25 14 13 Integrated Automation Remote Control Panels
- 25 14 16 Integrated Automation Application-Specific Control Panels
- 25 14 19 Integrated Automation Terminal Control Units
- 25 14 23 Integrated Automation Field Equipment Panels

#### 25 15 00 Integrated Automation Software

Includes: software requirements include alarm management, data display, report routines, graphics, applications, password protection, internet/intranet connectivity, and software licenses and upgrades.

See: 27 25 00 for data communications software.27 34 13 for toll fraud equipment and software.27 34 16 for telemanagement software.40 96 00 for process control software.

- 25 15 13 Integrated Automation Software for Network Gateways
- 25 15 16 Integrated Automation Software for Control and Monitoring Networks
- 25 15 19 Integrated Automation Software for Local Control Units

# 25 30 00 Integrated Automation Instrumentation and Terminal Devices

Includes: because the instrumentation and terminal devices for most integrated automation systems depends on the seamless interaction among subsystems, it is recommended that all instrumentation and terminal devices be included in the following titles to prevent conflict between the requirements of these interdependent systems.

Alternate Terms/Abbreviations: KW: kilowatt. UPS: uninterruptible power supply.

See: 23 09 13 for instrumentation and control devices for HVAC.

25 50 00 for integrated automated facility controls. 25 90 00 for integrated automation control sequences.

40 90 00 for instrumentation and control for process systems.

See Also: 23 09 13 for instrumentation and control devices for HVAC.

Safety and Security Systems See: Division 28 for electronic safety and security.

#### **DIVISION 26 – ELECTRICAL** 26 00 00 **Electrical**

May be used as Division level Section title.

See: 02 41 19 for selective demolition of existing electrical systems. 03 30 00 for cast-in-place concrete equipment bases. 07 84 00 for firestopping. 07 92 00 for joint sealants. 08 31 00 for access doors and panels. 09 91 00 for field painting. 31 23 33 for trenching and backfilling.

#### 26 01 00 **Operation and Maintenance of Electrical Systems**

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of electrical systems.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation.

- .81-.89 for replacement.
- .91-.99 for restoration.

Definitions: medium-voltage: 2400 V to 69 kV. Low-voltage: 600 V and less.

- 26 01 10 Operation and Maintenance of Medium-Voltage Electrical Distribution
- 26 01 20 Operation and Maintenance of Low-Voltage Electrical Distribution
- 26 01 26 Maintenance Testing of Electrical Systems
- Operation and Maintenance of Facility Electrical Power Generating and Storing 26 01 30 Equipment
- **Operation and Maintenance of Electrical Protection Systems** 26 01 40
  - 26 01 40.13 **Operation and Maintenance of Lightning Protection Systems**
- 26 01 50 Operation and Maintenance of Lighting
  - 26 01 50.51 Luminaire Relamping
  - 26 01 50.81 Luminaire Replacement

#### **Common Work Results for Electrical** 26 05 00

**EXPLANATION** 

Includes: subjects common to multiple titles in Division 26. Raceway and boxes include conduit, tubing, surface raceways, and electrical boxes. Medium-voltage: 2400 V to 69 kV. Lowvoltage: 600 V and less. Control-voltage: 50 V and less. Alternate Terms/Abbreviations: EMT: electrical metallic tubing. Notes: definitions: medium-voltage: 2400 V to 69 kV. Lowvoltage: 600 V and less. Control-voltage: 50 V and less. - 26 18 39 Medium-Voltage Motor Controllers

# 26 20 00 Low-Voltage Electrical Distribution

Includes: overhead power systems, transformers, switchgear, switchboards, panelboards, enclosed bus assemblies, power distribution units, controllers, wiring devices, and circuit protection devices to distribute low-voltage electrical power from the point of voltage transformation to the point of use. Typical voltages: 120, 208, 230, 240, 277, 460, and 480.

Definitions: low-voltage: 600 V and less.

See: 26 05 19 for low-voltage electrical power conductors and cables.

26 10 00 for medium-voltage electrical distribution.

26 30 00 for facility electrical power generating and storing equipment.

### 26 21 00 Low-Voltage Electrical Service Entrance

See: 26 05 19 for low-voltage electrical power conductors and cables.

26 05 46 for utility poles for electrical systems.

- 33 71 13 for site electrical transmission towers.
- 33 71 16 for electrical utility poles.
- 26 21 13 Low-Voltage Overhead Electrical Service Entrance
- 26 21 16 Low-Voltage Underground Electrical Service Entrance

## 26 22 00 Low-Voltage Transformers

Includes: transformers for low-voltage applications.

See: 26 12 00 for medium-voltage transformers.

- 26 22 13 Low-Voltage Distribution Transformers
- 26 22 16 Low-Voltage Buck-Boost Transformers
- 26 22 17 Low-Voltage Transformers for Nonlinear Loads

Includes: enclosed dry-type transformers for nonlinear power loads, similar to computers and other electronic power supplies, with primaries and secondaries rated 600 volts and less.

# 26 36 00 Transfer Switches

Includes: switches transfer from one source of electricity to another.

- 26 36 13 Manual Transfer Switches
- 26 36 23 Automatic Transfer Switches

# 26 40 00 Electrical Protection

# 26 41 00 Facility Lightning Protection

Includes: wiring and equipment for lightning protection.

Notes: other building elements may be used in lightning protection systems in lieu of air terminals.

See: 26 18 19 for medium-voltage lightning arresters.33 79 00 for site grounding.33 79 93 for site lightning protection.

See Also: 02 30 00 for subsurface investigation for testing of electrical conductance of soils.

- 26 41 13 Lightning Protection for Structures
- 26 41 13.13 Lightning Protection for Buildings
- 26 41 16 Lightning Prevention and Dissipation
- 26 41 19 Early Streamer Emission Lightning Protection
- 26 41 23 Lightning Protection Surge Arresters and Suppressors

## 26 43 00 Surge Protective Devices

Includes: devices to protect against voltage surges on electrical distribution systems.

26 43 13 Surge Protective Devices for Low-Voltage Electrical Power Circuits

Master List of Numbers, Titles, and Explanations

THIS PAGE INTENTIONALLY LEFT BLANK

# DIVISION 27 – COMMUNICATIONS 27 00 00 Communications May be used as Division level Section title

See: 02 41 19 for selective demolition of existing communications systems. 07 84 00 for firestopping. 07 92 00 for joint sealants. 08 31 00 for access doors and panels. 09 91 00 for field painting. 25 37 00 for integrated automation instrumentation and terminal devices for communications. 25 57 00 for integrated automation control of communications. 25 97 00 for integrated automation control sequences for communications. 31 23 33 for trenching and backfilling.

# 27 01 00 Operation and Maintenance of Communications Systems

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of communications.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation. .81-.89 for replacement. .91-.99 for restoration.

- 27 01 10 Operation and Maintenance of Structured Cabling and Enclosures
- 27 01 20 Operation and Maintenance of Data Communications
- 27 01 30 Operation and Maintenance of Voice Communications
- 27 01 40 Operation and Maintenance of Audio-Video Communications
- 27 01 50 Operation and Maintenance of Distributed Communications and Monitoring

NUMBER TITLE EXPLANATION

27 42 00 Electronic Digital Systems Includes: hardware, software, and equipment for digital signage systems.

> See: 10 13 13 for self-contained electronic directories. 10 14 63 for self-contained electronic message signage.

- 27 42 13 Point of Sale Systems
- 27 42 16 Transportation Information Display Systems
- 27 42 19 Public Information Systems

# 27 50 00 Distributed Communications and Monitoring Systems

## 27 51 00 Distributed Audio-Video Communications Systems

Includes: paging, public address, sound masking, and intercommunications systems that service all or part of a facility.

See: 11 20 00 for commercial equipment.

- 11 28 00 for office equipment.
- 11 30 00 for residential equipment.
- 11 50 00 for educational equipment.
- 11 52 00 for audio-visual equipment.
- 11 70 00 for healthcare equipment.

- 27 40 00 for audio-video communications.
- 27 51 13 Paging Systems
- 27 51 13.13 Overhead Paging Systems
- 27 51 16 Public Address Systems
- 27 51 19 Sound Masking Systems
- 27 51 23 Intercommunications and Program Systems

Includes: paging, public address, sound masking, access control, and intercommunications systems that service all or part of a facility.

- 27 51 23.20 Commercial Intercommunications and Program Systems
- 27 51 23.30 Residential Intercommunications and Program Systems
- 27 51 23.50 Educational Intercommunications and Program Systems
- 27 51 23.63 Detention Intercommunications and Program Systems
- 27 51 23.70 Healthcare Intercommunications and Program Systems
- 27 51 26 Assistive Listening Systems
- 27 51 29 Emergency Communications Systems

Includes: communication rescue assistance equipment to aid first responders, area of refuge communication systems, and other life safety communications systems typically powered on emergency power networks.

See Also: 28 49 00 for electronic personal protection systems.

| 28 08 11   | Testing for Base  | line Performance Criteria<br>Includes: parameters that provide the minimum acceptable<br>performance for testing and qualification prior to<br>commissioning, validating all aspects have correct signal<br>strength, consistent signal transmission, perform basic function<br>reliably, are programmed correctly and accurately, etc. |

Number

EXPLANATION

# 28 10 00 Access Control

TITLE

Includes: control and monitoring equipment and systems for controlling access to a facility.

See: 08 34 53 for security doors and frames.

08 42 33 for revolving door entrances.

08 71 00 for door hardware.

08 74 00 for non-integrated access control hardware.

11 12 00 for parking control equipment.

11 14 00 for pedestrian control equipment.

11 15 00 for security control equipment.

11 98 00 for detention equipment.

26 05 33 for raceway and boxes for electrical.

27 05 28 for pathways for communications.

27 05 33 for conduits and backboxes for communications systems.

27 15 01 for access control communications conductors and cables.

28 05 07 for power sources for access control.

28 05 13 for servers, workstations, and storage for electronic safety and security.

28 05 31 for communications equipment for electronic safety and security.

28 20 00 for video surveillance.

28 31 00 for intrusion detection.

28 46 00 for fire detection and alarm.

28 51 00 for information management and presentation.

28 52 00 for detention security systems.

34 50 00 for transportation fare collection equipment.

41 24 36 for process metal detectors.

# 28 11 00 Access Control Global Applications

## 28 12 00 Special Requirements for Access Control Systems

28 12 01 System Requirements for Access Control Systems Notes: this Section is not intended to duplicate or supplant Division 01 General Requirements content.

# 28 13 00 Access Control Software and Database Management

See Also: 28 05 13 for servers, workstations, and storage.

28 23 00 video management system.

28 31 00 intrusion detection.

28 51 00 information management and presentation.

EXPLANATION

### 28 20 00 Video Surveillance

TITLE

Includes: video surveillance cameras and supporting hardware and video management systems.

See: 26 05 33 for raceway and boxes for electrical.

27 05 28 for pathways for communication systems.

27 05 33 for conduits and backboxes for communications systems.

27 15 01 for video surveillance communications conductors and cables.

28 05 07 for power sources for video surveillance.

28 05 13 for servers, workstations, and storage for electronic safety and security.

28 05 31 for communications equipment for electronic safety and security.

28 10 00 for access control.

28 30 00 for security detection, alarm, and monitoring.

28 51 00 for information management and presentation.

28 52 00 for detention security systems.

See Also: 26 55 53 for security lighting.

### 28 21 00 Surveillance Cameras

Includes: any type of video surveillance camera.

| 28 21 11<br>28 21 13    | Analog Camera<br>IP Cameras           | Includes: high-definition and mega-pixel cameras.   |

### 28 48 00 Emergency Response Systems

See Also: 27 32 26 ring-down emergency telephones. 27 32 43 radio communications equipment.

28 48 23 Computer Aided Dispatch

### 28 49 00 Electronic Personal Protection Systems

Includes: systems and equipment that monitor and annunciate the need for assistance.

See: 10 43 00 for emergency aid specialties.

- 28 49 11 Electronic Personal Safety Detection Systems
- 28 49 13 Electronic Personal Safety Alarm Annunciation and Control Systems
- 28 49 15 Electronic Personal Safety Interfaces to Remote Monitoring
- 28 49 17 Electronic Personal Safety Emergency Aid Devices

### 28 50 00 Specialized Systems

Includes: hybrid and special purpose systems.

See Also: 28 10 00 for access control.

28 20 00 for video surveillance.

- 28 30 00 for security detection, alarm, and monitoring.
- 28 33 00 for security monitoring and control.
- 28 40 00 for life safety.

28 46 00 for fire detection and alarm.

28 47 00 for mass notification.

## **DIVISION 31 – EARTHWORK**

31 00 00 Earthwork

May be used as Division level Section title.

#### 31 01 00 Maintenance of Earthwork

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of earthwork.

Level 4 Numbering Recommendation: Level 4 titles for earthwork are provided as example for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended:

- .51-.59 for maintenance.
- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.
- 31 01 10 Maintenance of Clearing
- 31 01 20 Maintenance of Earth Moving
- 31 01 40 Maintenance of Shoring and Underpinning
- 31 01 50 Maintenance of Excavation Support and Protection
- 31 01 60 Maintenance of Special Foundations and Load Bearing Elements
- 31 01 62 Maintenance of Driven Piles
- 31 01 62.61 Driven Pile Repairs
- 31 01 63 Maintenance of Bored and Augered Piles
- 31 01 63.61 Bored and Augered Pile Repairs
- 31 01 70 Maintenance of Tunneling and Mining
- 31 01 70.61 Tunnel Leak Repairs

#### 31 05 00 Common Work Results for Earthwork

Includes: subjects common to multiple titles in Division 31.

See: 01 80 00 for performance requirements of subjects common to multiple titles.

02 05 19 for geosynthetics for existing conditions.

32 05 13 for soils for exterior improvements.

32 05 16 for aggregates for exterior improvements.

- 32 05 19 for geosynthetics for exterior improvements.
- 32 05 23 for cement and concrete for exterior improvements.

#### 31 05 05 Selective Demolition for Earthwork See: 02 41 19 for selective demolition for whole structure demolition.

- 31 05 13 Soils for Earthwork
- 31 05 16 Aggregates for Earthwork
- 31 05 19 Geosynthetics for Earthwork

| Number      | Title           | EXPLANATION      |
|-------------|-----------------|------------------|
| 31 05 19.13 | Geotextiles for | Earthwork        |
| 31 05 19.16 | Geomembrane     | es for Earthwork |
| 31 05 19.19 | Geogrids for E  | arthwork         |
|             |                 | <u>.</u>         |

- 31 05 19.23 Geosynthetic Clay Liners
- 31 05 19.26 Geocomposites
- 31 05 19.29 Geonets
- 31 05 23 Cement and Concrete for Earthwork

### 31 06 00 Schedules for Earthwork

Includes: schedules of items common to multiple titles in Division 31.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

- 31 06 10 Schedules for Clearing
- 31 06 20 Schedules for Earth Moving
- 31 06 20.13 Trench Dimension Schedule
- 31 06 20.16 Backfill Material Schedule
- 31 06 40 Schedules for Shoring and Underpinning
- 31 06 50 Schedules for Excavation Support and Protection
- 31 06 60 Schedules for Special Foundations and Load Bearing Elements
- 31 06 60.13 Driven Pile Schedule
- 31 06 60.16 Caisson Schedule
- 31 06 70 Schedules for Tunneling and Mining

### 31 08 00 Commissioning of Earthwork

Includes: commissioning of items common to multiple titles in Division 31.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

- 31 08 13 Pile Load Testing
- 31 08 13.13 Dynamic Pile Load Testing
- 31 08 13.16 Static Pile Load Testing

### **31 09 00** Geotechnical Instrumentation and Monitoring of Earthwork

Includes: geotechnical instrumentation and monitoring of items common to multiple titles in Division 31.

See: 00 31 32 for geotechnical data available to bidders, proposers, or contractors before construction begins.
02 32 00 for geotechnical investigations performed by the contractor as part of the project.
02 32 23 for groundwater monitoring before construction.
31 60 00 for special foundations and load-bearing elements.
33 11 53 for monitoring wells.

31 09 13 Geotechnical Instrumentation and Monitoring

|--|----------------|--|
| Number                                 | Title          | Explanation  |

### 31 10 00 Site Clearing

Includes: removal of vegetation at the site, including stripping of sod and soil, and tree pruning for site clearing.

See: 01 56 39 for temporary tree and plant protection.
32 01 90 for pruning for maintenance of shrubs and trees.
32 91 19 for landscape grading.
32 91 19 for topsoil placement and grading.
32 96 00 for transplanting.

- 31 11 00 Clearing and Grubbing
- 31 12 00 Selective Clearing

### 31 13 00 Selective Tree and Shrub Removal and Trimming

- 31 13 13 Selective Tree and Shrub Removal
- 31 13 16 Selective Tree and Shrub Trimming

### 31 14 00 Earth Stripping and Stockpiling

- 31 14 13 Soil Stripping and Stockpiling
  - 31 14 13.13 Soil Stripping
  - 31 14 13.16 Soil Stockpiling
  - 31 14 13.23 Topsoil Stripping and Stockpiling
- 31 14 16 Sod Stripping and Stockpiling
  - 31 14 16.13 Sod Stripping
  - 31 14 16.16 Sod Stockpiling

### 31 20 00 Earth Moving

Includes: grading, excavating, embankments, and sedimentation and erosion control. Earth moving for foundations, structures, pavement, railways, ditches, channels, culverts, drains, and utilities.

See: 31 30 00 for earthwork methods. 35 24 00 for dredging. 41 61 00 for mobile earth moving equipment.

31 21 00

### **Off-Gassing Mitigation**

Includes: mitigation of gases from underground sources.

See: 00 31 24 for environmental assessment information. 02 24 00 for environmental assessment.

02 50 00 for site remediation.

02 56 19 for gas containment.

02 80 00 for facility remediation.

| Number   | Title   | Explanation |
|--|---|-------------|
| 31 21 13<br>31 21 13.13<br>31 21 16<br>21 21 16 13 | Radon Mitigatio<br>Radon Venting<br>Methane Mitigat | tion        |

31 21 16.13 Methane Venting

### 31 22 00 Grading

Includes: earth moving to reshape contours.

See: 31 14 00 for earth stripping and stockpiling. 32 71 00 for constructed wetlands. 32 91 19 for landscape grading.

- 31 22 13 Rough Grading
- 31 22 16 Fine Grading
- 31 22 16.13 Roadway Subgrade Reshaping
- 31 22 19 Finish Grading
- 31 22 19.13 Spreading and Grading Topsoil

### 31 23 00 Excavation and Fill

Includes: excavation and fill for foundations, structures, pavement, railways, ditches, channels, culverts, drains, and utilities.

May Include: foundation and underslab drainage.

Alternate Terms/Abbreviations: flowable fill: controlled density fill: unshrinkable fill: flowcrete: liquid dirt: fly ash slurry: flowable mortar: plastic soil cement: soil replacement: lean mix backfill: controlled low strength material.

See: 31 21 00 for off-gassing mitigation.
31 24 00 for embankments.
31 71 00 for tunnel excavation.
33 05 07 for trenchless installation of utility piping.
33 05 97 for identification and signage for utilities.

See Also: 33 41 00 for subdrainage.

- 31 23 13 Subgrade Preparation
- 31 23 16 Excavation
- 31 23 16.13 Trenching
- 31 23 16.16 Structural Excavation for Minor Structures
- 31 23 16.26 Rock Removal
- 31 23 19 Dewatering
- 31 23 23 Fill
- 31 23 23.13 Backfill
- 31 23 23.23 Compaction
- 31 23 23.33 Flowable Fill
- 31 23 23.43 Geofoam
- 31 23 33 Trenching and Backfilling

| Number   | Τιτιε   | Explanation   |  |

### 31 30 00 Earthwork Methods

Includes: earthwork methods used for multiple purposes.

See: 31 20 00 for earth moving.

### 31 31 00 Soil Treatment

Includes: soil treatment to resist invasion of adjoining structure by pests and growth of vegetation.

See: 06 05 73 for wood treatment.10 81 00 for pest control devices.31 32 16 for chemical treatment soil stabilization.32 91 00 for planting preparation.

31 31 13 Rodent Control

31 31 13.16 Rodent Control Bait Systems

### 31 33 00 Rock Stabilization

Includes: various technologies to make an unstable rock slope more stable.

Alternate Terms/Abbreviations: shotcrete: gunite.

See: 03 37 13 for shotcrete.

- 31 32 33 for shotcrete for soil slope stabilization.
- 31 51 00 for excavation anchor tiebacks.
- 31 68 13 for rock foundation anchors.
- 31 72 13 for tunnel rock reinforcement and initial support.
- 31 74 19 for shotcrete tunnel lining.
- 31 33 13 Rock Bolting and Grouting
- 31 33 23 Rock Slope Netting
- 31 33 26 Rock Slope Wire Mesh
- 31 33 33 Shotcrete Rock Slope Stabilization
- 31 33 43 Vegetated Rock Slope Stabilization

### 31 34 00 Soil Reinforcement

Includes: various technologies to reinforce the strength and stability of soils.

Alternate Terms/Abbreviations: soil reinforcement: reinforced earth.

- See: 31 05 19 for geosynthetics for earthwork.
- 31 25 00 for erosion and sedimentation control.
- 31 32 19 for geosynthetic soil stabilization and layer separation.
- 31 35 19 for geosynthetic slope protection.
- 32 32 34 for reinforced soil retaining walls.
- 31 34 19 Geosynthetic Soil Reinforcement
  - 31 34 19.13 Geogrid Soil Reinforcement
- 31 34 19.16 Geotextile Soil Reinforcement
- 31 34 23 Fiber Soil Reinforcement
- 31 34 23.13 Geosynthetic Fiber Soil Reinforcement

31 43 16Compaction Grouting

31 43 19 Mechanical Jacking

### 31 45 00 Vibroflotation and Densification

Includes: activities requiring vibrator penetration at high depth to densify, reinforce, and stabilize loose soil or soft soils.

Alternate Terms/Abbreviations: vibroflotation: vibro compaction.

- 31 45 13 Vibroflotation
- 31 45 16 Densification

#### 31 46 00 Needle Beams

Includes: horizontal shoring members placed under or through a wall to support the structural load while performing work under the base of the wall.

See: 31 43 00 for concrete raising. 31 48 00 for underpinning.

31 46 13 Cantilever Needle Beams

### 31 48 00 Underpinning

Includes: replacing a structural element's foundation while the structural element remains in place.

Alternate Terms/Abbreviations: micropiles: screw piles.

See: 31 43 00 for concrete raising. 31 46 00 for needle beams. 31 63 33 for drilled micropiles.

- 31 48 13 Underpinning Piers
- 31 48 19 Bracket Piers
- 31 48 23 Jacked Piers
- 31 48 33 Micropile Underpinning

### 31 50 00 Excavation Support and Protection

Includes: permanent and temporary support of excavations and excavation enclosures, such as cofferdams, for construction below water and in water.

See: 31 23 19 for dewatering. 31 40 00 for shoring and underpinning.

| Number                           | Title  | Explanation  |
|----------------------------------|--|--|

### 31 60 00 Special Foundations and Load-Bearing Elements

#### 31 62 00 Driven Piles

Includes: driven deep pile foundations of various materials for support of structures.

May Include: reinforcement in cast-in-place concrete piles and concrete-filled steel piles.

Alternate Terms/Abbreviations: pressure-injected footings: compacted-expanded base-concrete piles.

See: 03 30 00 for CIP concrete.
03 40 00 for precast concrete.
05 12 00 for structural steel framing.
06 13 00 for heavy timber.
31 63 00 for bored piles.
31 66 13 for special piles.

Improvements

## DIVISION 32 – EXTERIOR IMPROVEMENTS 32 00 00 Exterior

May be used as Division level Section title.

### 32 01 00 Operation and Maintenance of Exterior Improvements

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of exterior improvements.

Alternate Terms/Abbreviations: pavement raising: pavement jacking. Reused: recycled.

Level 4 Numbering Recommendation: Level 4 titles for exterior improvements are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance.

- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.

See: 32 12 16 for seal coats.

### 32 08 00 Commissioning of Exterior Improvements

Includes: commissioning of items common to multiple titles in Division 32.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

### 32 10 00 Bases, Ballasts, and Paving

Includes: granular, concrete, treated, synthetic, and other materials that comprise the structure; paving, and surfacing for walks, parking lots, roads, streets, highways, rail transportation, airfields, and athletic playing surfaces. Curbs, gutters, and paving specialties.

See: 03 10 00 for concrete forming. 03 20 00 for concrete reinforcement. 03 30 00 for cast-in-place concrete. 34 10 00 for guideways/railways. 34 71 00 for roadway construction.

34 72 00 for railway construction.

| 32 93 13<br>32 93 23<br>32 93 33 | Ground Covers<br>Plants and Bulbs<br>Shrubs | 8   |

- 32 93 33 Shrubs
- 32 93 43 Trees
- 32 93 93 Exterior Artificial Plants

### 32 94 00 Planting Accessories

Includes: accessories to separate, house, and protect plants.

May Include: interior planters, manufactured planters.

See: 13 34 13 for greenhouses. 32 14 43 for porous unit paving.

See Also: 12 92 33 for interior planters.

- 32 94 13 Landscape Edging
- 32 94 16 Landscape Timbers
- 32 94 19 Landscape Surfacing
- 32 94 33 Planters
- 32 94 43 Tree Grates
- 32 94 46 Tree Grids

#### 32 95 00 Exterior Planting Support Structures

Includes: trellis, treillage, green wall, arbor, and climbing support netting.

NUMBER TITLE **EXPLANATION** Transplanting 32 96 00 Includes: relocation of plant material. Application of antidesiccant and antitranspirant, excavation, replanting, pruning, watering, and maintenance of transplanted shrubs and trees. Alternate Terms/Abbreviations: transplanting: replanting. See: 31 13 00 for selective tree and shrub removal and trimming. 32 93 00 for plants. 32 96 13 Ground Cover Transplanting 32 96 23 Plant and Bulb Transplanting 32 96 33 Shrub Transplanting Tree Transplanting 32 96 43

#### **DIVISION 33 – UTILITIES** May be used as Division level 33 00 00 Utilities Section title See: 02 41 13 for selective demolition of existing utilities. 03 30 00 for cast-in-place concrete. 09 90 00 for field painting. 31 23 33 for trenching and backfilling. 40 60 00 and 40 70 00 for process instrumentation and controls. 43 20 00 for process liquid pumps in specially constructed (non-packaged) pumping stations. 43 40 00 for fabricated process storage tanks at a facility. 33 01 00 **Operation and Maintenance of Utilities** Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of utilities. Level 4 Numbering Recommendation: Level 4 titles for utilities are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4

numbering is recommended:

.51-.59 for maintenance.

.61-.69 for repair.

.71-.79 for rehabilitation.

- .81-.89 for replacement.
- .91-.99 for restoration.

See: 09 97 00 for surface preparation and painting of existing water storage tanks.

- 33 01 10 Operation and Maintenance of Water Utilities
   33 01 10.51 Water Utility Intake Cleaning and Maintenance
   Includes: cleaning of water intake structures and intake
  - conduits, including removal of sediment and aquatic organisms.
  - 33 01 10.52 Reservoir Maintenance
  - 33 01 10.53 Flushing of Water Utility Piping
  - 33 01 10.54 Cleaning of Water Utility Piping

Includes: cleaning of transmission and distribution system piping by methods other than flushing. Includes dewatering and removal of sediment and other matter.

#### **33 08 00 Commissioning of Utilities**

Includes: commissioning of items common to multiple titles in Division 33.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

- 33 08 10 Commissioning of Water Utilities
- 33 08 30 Commissioning of Sanitary Sewerage Utilities
- 33 08 40 Commissioning of Stormwater Utilities
- 33 08 50 Commissioning of Hydrocarbon Utilities
- 33 08 60 Commissioning of Hydronic and Steam Energy Utilities
- 33 08 70 Commissioning of Electrical Utilities
- 33 08 80 Commissioning of Communications Utilities

### 33 09 00 Instrumentation and Control for Utilities

Includes: instrumentation and control common to multiple titles in Division 33.

Notes: radio frequency (RF) communications between RFcapable meter registers and data collection/repeater units can employ various communication technologies, including narrow band (single, fixed radio frequency), spread spectrum, directsequence spread spectrum, frequency-hopping spread spectrum, cellular phone data networks, Bluetooth, ZigBee, Wavenis, and other wireless RF communication technologies.

See: 13 50 00 for special instrumentation. 21 09 00 for instrumentation and control for fire-suppression systems. 22 09 00 for instrumentation and control for plumbing.

23 09 00 for instrumentation and control for HVAC.

26 09 00 for instrumentation and control for electrical systems.

33 19 00 for water utility metering equipment.

33 59 00 for hydrocarbon utility metering equipment.

40 60 00 and 40 70 00 for instrumentation and control for process systems.

48 09 00 for instrumentation and control for electrical power generation.

## 33 10 00 Water Utilities

TITLE

Includes: public and private water sources, distribution, and storage for potable uses, firefighting, and irrigation for a site, for multiple facilities, or municipalities.

See: 21 11 00 for fire-suppression water service for a building or structure.

22 11 00 for water distribution for a building or structure. 32 80 00 for irrigation.

33 01 10 for maintenance of water utilities, including cleaning and disinfecting.

33 09 10 for instrumentation and control for water utilities.43 20 00 for pumps used in non-packaged, field-assembled

water pumping systems.

43 30 00 for gas and liquid purification equipment.

46 00 00 for water treatment equipment, including chemical feed systems used in water distribution systems.

## 33 11 00 Groundwater Sources

Includes: dug, bored, driven, or drilled wells, for water supply and aquifer recharging, and monitoring wells. Well casings, well screens, riser pipes, well pumps, and accessories. Wells for a single site or facility and for multiple facilities and municipalities.

See: 02 32 23 for groundwater monitoring before construction. 02 70 00 for wells used for groundwater extraction for remediation purposes.

28 20 00 for video surveillance.

31 09 13 for groundwater monitoring during construction.

31 23 19 for groundwater systems for dewatering of excavations.

32 80 00 for irrigation.

33 01 10 for abandonment, rehabilitation, redevelopment, and disinfection of water supply wells.

33 09 10 for instrumentation and control for water supply wells.40 70 00 for instrumentation for wells.

- 33 11 11 Test Wells
- 33 11 13Potable Water Supply Wells
- 33 11 16 Irrigation Wells
- 33 11 19 Aquifer Recharging Wells
- 33 11 33 Vertically Suspended Dry-Location Centrifugal Well Pumps
- 33 11 36 Submersible Centrifugal Well Pumps
- 33 11 39 Jet-Type Well Pumps
- 33 11 53 Monitoring Wells

|----------|---------------|--|
| 33 14 43 | Packaged Pump | ing Systems for Water Utility Service<br>Includes: factory-assembled systems purchased as a package.<br>Field-assembled engineered systems not purchased as a<br>package are indicated in detail under 43 20 00 (pumps) and 40<br>00 00 (exposed process piping). Packaged pumping systems<br>include a variety of skid-mounted pumps, suction and<br>discharge piping and valves, and controls, including control<br>panels, variable-speed drives, two-speed drives, constant-<br>speed units, and combinations thereof. Typical water utility<br>service application is pressure-boosting. Pumps may be<br>oriented vertically or horizontally on the skid. Pump types may<br>include: between-bearings centrifugal pumps (split-case axial<br>pumps), overhung (end suction) centrifugal pumps, and<br>vertically suspended centrifugal pumps (vertical turbine<br>pumps). |

- 33 19 29 Pre-paid Water Meters

## 33 30 00 Sanitary Sewerage

Includes: wastewater sewerage for a facility site and for multiple facilities, for both sanitary sewage and combined sewage.

See: 22 13 00 for sanitary sewerage for a structure.
33 09 30 for instrumentation and control for sanitary sewerage.
44 40 00 for water pollution control equipment.
46 00 00 for wastewater treatment equipment, including packaged treatment plants.

| Number                           | Title                              | EXPLANATION   |
|----------------------------------|------------------------------------|---|
| 33 31 00                         | Sanitary Se                        | werage Piping<br>Includes: sanitary waste piping systems, with piping, valves,<br>piping specialties, interceptors, separators, and other<br>components serving a facility site or multiple facilities.   |
|                                  |                                    | Alternate Terms/Abbreviations: SDGS: small-diameter gravity sewers. STEP: septic tank effluent pump.  |
|                                  |                                    | Notes: gray-water system may refer to either small-diameter<br>gravity sewers or septic tank effluent pump systems. Because<br>they convey sanitary sewage and are constructed equal to<br>sanitary sewerage, combined sewers are included under<br>sanitary sewerage gravity piping and force main piping. |
|                                  |                                    | <ul> <li>See: 13 47 13 for cathodic protection.</li> <li>22 13 13 for facility sanitary sewers.</li> <li>33 05 71 for manholes, chambers, and cleanouts.</li> <li>33 31 23 for sanitary sewerage force main piping.</li> <li>40 05 78 for air valves used in wastewater service.</li> </ul>                 |

TITLE

NUMBER

| EXPLANATION |
|-------------|

Includes: work results for conveyance of hydrocarbons by a utility or private company, including transmission and distribution for a single site, facility, or multiple facilities. Includes handling of pipe, including pipe stacking and storing; welding of conveyance pipe; pigging; and farm tap installations.

Alternate Terms/Abbreviations: pigging: in-line inspection (ILI): cleaning pig: gauge pig: smart pig: intelligent pig.

See: 01 51 29 for temporary natural gas.

01 53 00 for temporary pigging.

01 57 13 for temporary erosion and sediment controls.

09 96 00 for specialized, field-applied pipe coatings.

13 47 13 for cathodic protection.

23 11 00 for fuel piping within, under, or closely associated with a building or structure.

23 12 00 for fuel pumps closely associated with a building or structure.

31 23 00 for excavation and fill, including trenching.

33 05 09 for tapping sleeves and saddles for utility piping.

33 56 53 for compressed gaseous hydrocarbon storage tanks.

40 05 76 for hot-tapping valves and appurtenances.

40 10 00 for exposed gas process piping at a hydrocarbon facility.

40 21 00 for exposed liquid process piping at a hydrocarbon facility.

44 40 00 for water pollution control, including spill containment.

NUMBER

TITLE EXPLANATION

### 33 59 00 Hydrocarbon Utility Metering

Includes: metering for liquid and gas hydrocarbons. Metering may also include facilities for sampling and quality measurement. Metering equipment indicated herein is relatively unique to hydrocarbons production, transmission, and distribution.

See: 28 43 00 for fuel oil detection and alarm.33 09 00 for registers and meter reading equipment.40 70 00 for general-purpose flow meters and analyzers used in process applications.

- 33 59 11 Diaphragm/Bellows Hydrocarbons Meters
- 33 59 13 Hydrocarbons Rotary Meters
- 33 59 16 Hydrocarbons Turbine Meters
- 33 59 19Hydrocarbons Orifice Meters
- 33 59 23 Hydrocarbons Ultrasonic Flow Meters
- 33 59 26 Hydrocarbons Coriolis Meters
- 33 59 43 Liquid Hydrocarbon Sampling and Quality Analysis Instrumentation
- 33 59 46 Gas Hydrocarbon Sampling and Quality Analysis Instrumentation

# 33 60 00 Hydronic and Steam Energy Utilities

Includes: hydronic and steam energy distribution for a single facility or for multiple facilities.

See: 13 47 13 for cathodic protection.

23 20 00 for hydronic, steam, and condensate piping and pumps for a building or structure.

33 09 60 for instrumentation and control for hydronic and steam energy utilities.

40 60 00 and 40 70 00 for instrumentation and control for process applications.

33 61 00

### Hydronic Energy Distribution

Includes: chilled condenser and hot water piping, valves, piping specialties, pumps, and other components serving a single facility or for multiple facilities.

See: 13 47 13 for cathodic protection.
23 21 00 for hydronic piping and pumps for a structure.
33 09 60 for instrumentation and control for steam and hydronic energy utilities.
33 46 11 for cooling water ponds.

- 33 61 13 Buried Hydronic Energy Distribution
- 33 61 23 Ground-Level Hydronic Energy Distribution
- 33 61 27 Prefabricated Energy Distribution
- 33 61 29 Pre-Engineered, Field-Assembled Energy Distribution
- 33 61 33 Hydronic Energy Distribution Metering

### **33 70 00** Electrical Utilities

Includes: substations, transformers, switchgear, circuit protection devices, utility structures, and wiring used to transmit and distribute extra-high-, high- and medium-voltage electrical power from the point of power generation to the supply points of facilities. Distribution at high- and medium-voltage levels within a facility to or between supply points.

See: 33 09 70 for instrumentation and control for electrical utilities.

33 72 33 for control house equipment.

33 80 00 for communication utilities.

48 10 00 for electrical power generation equipment.

### 33 80 00 Communications Utilities

Includes: communications transmission and distribution for one site or multiple sites.

Alternate Terms/Abbreviations: OSP: outside plant. ISP: inside plant.

See: 26 00 00 for electrical associated with a building or structure.

27 10 00 for facility structured cabling.

27 21 00 for data communications network equipment.33 09 80 for instrumentation and control for communication utilities.

33 70 00 for electrical utilities.

40 66 00 for process control-related network and communications equipment.

33 81 00

### Communications Structures

Includes: structures for elevated and below-ground distribution of communications cables and signals.

See: 03 00 00 for concrete.

27 05 46 for facility utility poles for communications systems.

33 71 00 for electrical structures.

33 79 16 for tower grounding.

34 23 13 for traction power poles.

- 33 81 13 Monopole Communications Towers
- 33 81 16 Lattice Communications Towers
- 33 81 19 Guyed Communications Towers
- 33 81 21 Concealed Communications Towers
- 33 81 23 Broadcast Communications Towers
- 33 81 27 Aerial Cable Installation Hardware
- 33 81 29 Communications Vaults, Pedestals, and Enclosures
- 33 81 63 Cell Site Shelter Equipment

#### **Wireless Communications Transmission and Distribution** 33 83 00

Includes: external wireless communications systems.

Alternate Terms/Abbreviations: UHF: ultra-high frequency, 300 MHz to 3.0 GHz. VHF: very-high frequency, 30 MHz to 300 MHz.

See: 33 09 00 for wireless equipment used for meter reading and metered data transmissions.

Laser Transmitters and Receivers 33 83 13

34 00 00 Transportation

May be used as Division level Section title.

#### **34 01 00 Operation and Maintenance of Transportation**

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of transportation.

Level 4 Numbering Recommendation: Level 4 titles for transportation are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation. .81-.89 for replacement. .91-.99 for restoration.

- 34 01 13 Operation and Maintenance of Roadways
- 34 01 23 Operation and Maintenance of Railways
- 34 01 23.13 Track Removal and Salvage
- 34 01 23.81 Track Crosstie Replacement
- 34 01 33 Operation and Maintenance of Airfields
- 34 01 43 Operation and Maintenance of Bridges

#### **34 05 00** Common Work Results for Transportation

Includes: subjects common to multiple titles in Division 34.

See: 01 80 00 for performance requirements of subjects common to multiple titles.

- 34 05 05 Selective Demolition for Transportation See: 02 41 19 for selective demolition for whole structure demolition.
- 34 05 13 Common Work Results for Roadways
- 34 05 23 Common Work Results for Railways
- 34 05 33 Common Work Results for Airports
- 34 05 43 Common Work Results for Bridges

#### 34 06 00 Schedules for Transportation

Includes: schedules of items common to multiple titles in Division 34.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

DIVISION 34

|          | _         | _             |

34 06 43 Schedules for Bridges

### 34 08 00 Commissioning of Transportation

Includes: commissioning of items common to multiple titles in Division 34.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

- 34 08 13 Commissioning of Roadways
- 34 08 23 Commissioning of Railways
- 34 08 33 Commissioning of Airfields
- 34 08 43 Commissioning of Bridges

### 34 10 00 Guideways/Railways

See: 34 42 00 for railway signaling and control equipment. 34 72 00 for railway construction. 34 76 00 for railway equipment.

### 34 11 00 Rail Tracks

Includes: fabricated metal items for railroad and light rail rack, rails, joint bars, bolts, rail anchors, tie plates, spikes, track cross ties, appurtenances, and accessories.

See: 31 24 16 for railway embankments.

- 32 11 00 for railway base courses.
- 34 12 00 for monorails.
- 34 13 13 for inclined railway.
- 34 24 00 for third rail traction power.
- 41 24 39 for railcar movers.
- 41 64 00 for rail vehicles.

### 34 12 00 Monorails

Includes: single rail for vehicles which are wider than the guideway. Vehicles are either suspended from or straddle the guideway. Fabricated metal items for monorail, joint bars, bolts, rail anchors, appurtenances, and accessories.

See: 31 24 00 for embankments. 32 11 00 for base courses.

- 34 11 00 for rail tracks.
- 34 13 13 for inclined railway.
- 34 12 13 Elevated Monorails
- 34 12 16On-Grade Monorails
- 34 12 19 Below-Grade Monorails
- 34 12 23 Maglev Monorail
- 34 12 63 Monorail Track

### 34 13 00 Funiculars

Includes: steep cable railways in which ascending cars counterbalance descending cars. Track, cable, and operating equipment, appurtenances, and accessories.

See: 34 11 00 for rail tracks.34 12 00 for monorails.34 14 00 for other cable transportation systems.

34 13 13 Inclined Railway

| Number   | Title       | EXPLANATION  |

- 34 14 39 Surface Lifts
- 34 14 46 **Ropeway Tows**
- 34 14 53 Cable Car Systems

#### 34 20 00 **Traction Power**

Includes: transportation system with electric power distributed continuously along rail system to provide power for rail vehicles.

#### 34 21 00 **Traction Power Distribution**

See: 26 11 00 for facility substations.

26 12 00 for medium-voltage transformers.

26 13 00 for medium-voltage switchgear.

33 70 00 for electrical utilities.

33 72 00 for utility substations.

High Power Static Frequency Converters 34 21 13

Traction Power Substations 34 21 16

34 21 16.13 AC Traction Power Substations

34 21 16.16 **DC Traction Power Substations** 

34 21 19 **Traction Power Switchgear** 

- AC Traction Power Switchgear 34 21 19.13
- DC Traction Power Switchgear 34 21 19.16
- 34 21 19.23 Frequency Changer
- Traction Power Transformer-Rectifier Units 34 21 23

| Number                           | Title  | Explanation  |
|----------------------------------|--|--|
| 34 23 00                         | <b>Overhead Traction Power</b><br>Includes: electric power distributed to rail vehicles along rai<br>system by means of an overhead cable. |  |

#### 34 24 00 Third Rail Traction Power

Includes: electric power distributed to rail vehicles along rail system by means of an electrified third rail.

See: 34 11 00 for rail tracks. 34 21 00 for traction power distribution.

- 34 24 13 Bottom-Contact Third Rail
- 34 24 16 Side-Contact Third Rail
- 34 24 19 Top-Contact Third Rail

### 34 40 00 Transportation Signaling and Control Equipment

Includes: signaling and control equipment used to monitor, direct, and control traffic, safety, and environmental conditions in transportation systems.

See: 33 80 00 for communications utilities.34 50 00 for transportation fare collection equipment.35 10 00 for waterway and marine signaling and control equipment.

### 34 41 00 Roadway Signaling and Control Equipment

See: 10 14 53 for traffic signage. 34 71 00 for roadway construction. 34 75 00 for roadway equipment.

- 34 41 13 Traffic Signals
- 34 41 16 Traffic Control Equipment
- 34 41 23 Roadway Monitoring Equipment
- 34 41 33 In Roadway Warning Lights

See: 32 17 29 for non-roadway use such as campuses or other site work.

- 34 42 36 Supervisory Control and Data Acquisition

### 34 43 00 Airfield Signaling and Control Equipment

Alternate Terms/Abbreviations: airfield: airport. ODALS: omnidirectional approach lighting system. PAPI: precision approach path indicator.

See: 13 53 00 for meteorological instrumentation.

- 26 55 33 for hazard warning lighting.
- 26 55 36 for obstruction lighting.
- 26 55 39 for helipad lighting.
- 26 56 00 for general airfield exterior lighting.
- 34 73 00 for airfield construction.
- 34 73 23 for manufactured airfield control towers.
- 34 77 00 for transportation equipment.
- 34 43 13 Airfield Signals and Lighting
  - 34 43 13.09 Airport Rotating Beacons
  - 34 43 13.10 Hazard Beacons
  - 34 43 13.11 Airport Beacon Towers
  - 34 43 13.12 Airport Obstruction Lights
  - 34 43 13.13 Airfield Runway Identification Lights
  - 34 43 13.16 Airfield Runway and Taxiway Inset Lighting
  - 34 43 13.19 Adhesive for Inset Lighting and Wiring
  - 34 43 13.23 Airfield Short-Approach Lighting Equipment
  - 34 43 13.26 Airfield Omni-Directional-Approach Lighting Equipment
- 34 43 13.29 Airfield Low-Intensity-Approach Lighting Equipment
- 34 43 13.33 Airfield High-Intensity-Approach Lighting Equipment
- 34 43 13.36 Airfield Precision-Approach Path Indicator Equipment
- 34 43 16Airfield Landing Equipment
  - 34 43 16.13 Microwave Airfield Landing Equipment
  - 34 43 16.16 Instrument Airfield Landing Equipment
  - 34 43 16.19 Airfield Visual-Approach Slope Indicator Equipment

### 34 72 00 Railway Construction

Includes: construction specifically intended for railways.

- See: 10 73 43 for transportation stop shelters.
  31 24 16 for railway embankments.
  32 11 00 for railway base courses.
  34 10 00 for guideways/railways.
  34 42 00 for railway signaling and control equipment.
  34 76 00 for railway equipment.
  41 64 00 for rail vehicles.
- 34 72 13 Railway Line
- 34 72 16 Railway Siding

### 34 73 00 Airfield Construction

Includes: construction specifically intended for airfields.

Alternate Terms/Abbreviations: airfield: airport.

See: 03 37 23 for roller-compacted concrete.

- 26 56 00 for airfield exterior lighting.
- 32 10 00 for airfield bases, ballasts, and paving.
- 32 13 13 for roller-compacted concrete paving.
- 32 35 16 for sound barriers.
- 33 52 00 for hydrocarbon transmission and distribution.
- 33 56 43 for aviation fuel storage tanks.
- 33 79 00 for site grounding.
- 34 43 00 for airfield signaling and control equipment.
- 34 43 19 for airfield traffic control tower equipment.
- 34 77 00 for transportation equipment.
- 34 73 13 Aircraft Tiedowns
- 34 73 16 Airfield Grounding
- 34 73 16.13 Aircraft Static Grounding
- 34 73 19 Jet Blast Barriers
- 34 73 23 Manufactured Airfield Control Towers
- 34 73 26 Manufactured Helipads

### 34 78 00 Weighing Equipment

- 34 78 13Truck Scales
- 34 78 16 Weighbridges
- 34 78 23 Railroad Car Scales
- 34 78 33 Crane Scales

# 34 80 00 Bridges

See: 03 30 00 for bridges constructed of cast-in-place concrete.
03 40 00 for bridges constructed of precast concrete.
05 10 00 for bridges constructed of structural metal framing.
05 12 33 for structural steel for bridges.
05 16 33 for bridge cabling.
06 11 00 for bridges constructed of wood framing.
06 13 00 for bridges constructed of heavy timber.
32 34 00 for fabricated bridges.

### 34 81 00 Bridge Machinery

Includes: machinery for operating bridges.

See: 07 95 63 for bridge expansion joint cover assemblies.34 48 00 for bridge signaling and control equipment.34 82 00 for bridge specialties.

- 34 81 13 Single-Swing Bridge Machinery
- 34 81 16 Double-Swing Bridge Machinery
- 34 81 19 Cantilever Bridge Machinery
- 34 81 23 Lift Bridge Machinery
- 34 81 26 Sliding Bridge Machinery
- 34 81 29 Pontoon Bridge Machinery
- 34 81 32 Bascule Bridge Machinery

### 34 82 00 Bridge Specialties

Includes: manufactured or fabricated accessory items for bridges.

See: 07 95 63 for bridge expansion joint cover assemblies. 34 48 00 for bridge signaling and control equipment. 34 81 00 for bridge machinery.

35 43 00 for waterway scour protection.

- 34 82 13 Bridge Vibration Dampers
- 34 82 13.13 Visco Elastic Bridge Vibration Dampers
- 34 82 13.16 Tuned-Mass Bridge Vibration Dampers
- 34 82 19 Bridge Pier Protection
- 34 82 19.13 Bridge Pier Ice Shields

# DIVISION 35 – WATERWAY AND MARINE CONSTRUCTION

# 35 00 00 Waterway and Marine Construction

May be used as Division level Section title.

# 35 01 00 Operation and Maintenance of Waterway and Marine Construction

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of waterway and marine construction.

Level 4 Numbering Recommendation: Level 4 titles for waterway and marine construction are provided as examples for user's creation of more detailed titles for other subjects as required. Following Level 4 numbering is recommended: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation.

- .81-.89 for replacement.
- .91-.99 for restoration.
- 35 01 30 Operation and Maintenance of Coastal Construction
- 35 01 40 Operation and Maintenance of Waterway Construction
  - 35 01 40.51 Waterway Dredging
- 35 01 40.92 Preservation of Water Courses
- 35 01 50 Operation and Maintenance of Marine Construction
  - 35 01 50.51 Marine Dredging
- 35 01 50.71 Channel Excavation, Cleaning and Deepening
- 35 01 70 Operation and Maintenance of Dams

### 35 05 00 Common Work Results for Waterway and Marine Construction

Includes: subjects common to multiple titles in Division 35.

See: 01 80 00 for performance requirements of subjects common to multiple titles.

- 35 05 05 Selective Demolition for Waterway and Marine Construction See: 02 41 19 for selective demolition for whole structure demolition.
- 35 05 30 Common Work Results for Coastal Construction
- 35 05 40 Common Work Results for Waterway Construction
- 35 05 50 Common Work Results for Marine Construction

DIVISION 35

| Number | Title | EXPLANATION |
|--------|-------|-------------|
|        |       |             |

35 05 70 Common Work Results for Dams

### 35 06 00 Schedules for Waterway and Marine Construction

Includes: schedules of items common to multiple titles in Division 35.

- 35 06 30 Schedules for Coastal Construction
- 35 06 40 Schedules for Waterway Construction
- 35 06 50 Schedules for Marine Construction
- 35 06 70 Schedules for Dams

### **35 08 00 Commissioning of Waterway and Marine Construction**

Includes: commissioning of items common to multiple titles in Division 35.

See: 01 91 00 for commissioning of subjects common to multiple Divisions.

- 35 08 30 Commissioning of Coastal Construction
- 35 08 40 Commissioning of Waterway Construction
- 35 08 50 Commissioning of Marine Construction
- 35 08 70 Commissioning of Dams

### 35 10 00 Waterway and Marine Signaling and Control Equipment

Includes: signaling and control equipment used to monitor, direct, and control boat and ship traffic along waterways and ocean shorelines.

See: 33 80 00 for communications utilities. 34 40 00 for transportation signaling and control equipment.

### 35 11 00 Signaling and Control Equipment for Waterways

See: 35 40 00 for waterway construction and equipment.

- 35 11 13 Signaling Equipment for Waterways
- 35 11 53 Control Equipment for Waterways

### 35 12 00 Marine Signaling and Control Equipment

See: 35 50 00 for marine construction and equipment. 35 59 00 for marine specialties.

- 35 12 13 Marine Signaling Equipment
- 35 12 13.13 Lighthouse Equipment
- 35 12 33 Marine Navigation Equipment
- 35 12 53 Marine Control Equipment

- 35 13 13 Signaling Equipment for Dams
- 35 13 53 Control Equipment for Dams

### 35 20 00 Waterway and Marine Construction and Equipment

Includes: construction within waterways such as rivers, streams, canals, and similar surface water bodies.

See: 35 10 00 for waterway and marine signaling and control.
35 30 00 for coastal construction, including shoreline protection.
35 40 00 for waterway onshore construction, including levees and scour protection.
35 50 00 for in-water and underwater construction.
35 70 00 for dams.

35 21 00

### 0 General Fabrications for Waterways

Includes: fabricated items for controlling water flow within waterways and at dams, hydroelectric, and irrigation projects.

See: 33 40 00 for stormwater utilities, including stormwater equipment and stormwater management facilities.
35 49 23 for waterway locks.
35 70 00 for dam construction and equipment.
46 21 00 for screening equipment used in water and wastewater treatment, including trash raking equipment.
48 13 00 for hydroelectric facility electrical power generation equipment.

- 35 21 13 Hydraulic Bifurcation Panels
- 35 21 16 Hydraulic Bulkheads
- 35 21 19Hydraulic Manifolds
- 35 21 23 Penstocks
- 35 21 33 Trash Racks
- 35 21 36 Debris Cages

- Stone Wall Scour Protection 35 43 53.40

#### 35 49 00 Waterway Structures

Includes: structures to control the flow of water in waterways. Flood walls to prevent flooding of surrounding areas. Locks to allow for the movement of vessels vertically in waterways.

See: 35 21 00 for general fabrications for waterways. 35 22 00 for hydraulic gates. 35 41 00 for levees. 35 70 00 for dam construction and equipment.

#### 35 49 13 Floodwalls

- 35 49 13.13 **Concrete Floodwalls**
- 35 49 13.16 Masonry Floodwalls
- 35 49 23 Waterway Locks
  - Concrete Waterway Locks 35 49 23.13
  - 35 49 23.23 **Piling Waterway Locks**
- 35 49 26 Floodgate Machinery

#### **Marine Construction and Equipment** 35 50 00

See: 35 12 00 for marine signaling and control equipment.

Division 49 – Reserved for Future Expansion

THIS PAGE INTENTIONALLY LEFT BLANK

# DIVISION 40 – PROCESS INTERCONNECTIONS

40 00 00 Process Interconnections May be used as Division level Section title.

Includes: work results that interconnect various processes together, including process piping systems, process instrumentation and controls, and miscellaneous work results for process equipment common among various divisions of the Process Equipment Subgroup.

See: 25 00 00 for integrated automation related to building systems and non-process systems. 27 00 00 for communications between remotely located process sites.

40 01 00

#### **Operation and Maintenance of Process Interconnections**

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of process integration.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance.

- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.
- 40 01 10 Operation and Maintenance of Gas and Vapor Process Piping
- 40 01 20 Operation and Maintenance of Liquids Process Piping
- 40 01 30 Operation and Maintenance of Solid and Mixed Materials Piping and Chutes
- 40 01 40 Operation and Maintenance of Process Piping and Equipment Protection
- 40 01 60 Operation and Maintenance of Process Control and Process Facility Enterprise Management Systems
- 40 01 70 Operation and Maintenance of Instrumentation for Process Systems
- 40 01 90 Operation and Maintenance of Primary Control Devices

#### 40 06 00 Schedules for Process Interconnections

Includes: schedules of items common to multiple titles in Division 40.

Notes: a schedule may be included on drawings, or in the project manual.

See: 40 61 93 for process control system input/output list.

- 40 06 10 Schedules for Gas and Vapor Process Piping and Ductwork
- 40 06 20 Schedules for Liquids Process Piping
- 40 06 30 Schedules for Solid and Mixed Materials Piping and Chutes
- 40 06 40 Schedules for Process Piping and Equipment Protection
- 40 06 60 Schedules for Process Control and Process Facility Enterprise Management Systems
- 40 06 70 Schedules of Instrumentation for Process Systems
- 40 06 90 Schedules for Primary Control Devices

### 40 10 00 Gas and Vapor Process Piping and Ductwork

Includes: pipe, fittings, valves, ductwork, dampers, supports, and ancillary equipment for gas and vapor systems.

See: 23 31 00 for HVAC ductwork.

40 20 00 for industrial liquids process piping.

40 30 00 for industrial solid and mixed materials process piping.

40 40 00 for piping heat tracing, insulation, and corrosion protection.

| Number   | Title      | Explanation  |
|----------|------------|--|
| 40 11 00 | Steam Proc | <ul> <li>Bess Piping</li> <li>Includes: steam and condensate piping for industrial processes.</li> <li>See: 23 22 00 for facility steam and condensate piping and pumps.</li> <li>33 63 00 for site steam energy distribution.</li> <li>42 11 00 for process boilers.</li> </ul> |

- 40 11 13 Low-Pressure Steam Process Piping
- 40 11 16 Intermediate-Pressure Steam Process Piping
- 40 11 19 High-Pressure Steam Process Piping
- 40 11 23 Condensate Process Piping for Process Applications

#### 40 12 00 Compressed Air Process Piping

Includes: compressed air piping for industrial processes.

Notes: low-pressure compressed air is at a pressure of zero to twenty-five to forty pounds per square inch, gauge (PSIG). High-pressure compressed air is at a pressure of twenty-five to forty PSIG and higher.

See: 22 15 00 for general service compressed air systems.
22 61 13 for compressed air piping for laboratory and healthcare facilities.
43 10 00 for process air and gas blowers, compressors, filtering equipment, and appurtenances.

- 40 12 13 Compressed Air Process Piping for Breathing Service
- 40 12 23 Low-Pressure Compressed Air Process Piping
- 40 12 53 High-Pressure Compressed Air Process Piping

#### 40 13 00 Process Ductwork

Includes: ductwork for air and gases for industrial processes.

See: 23 31 00 for HVAC ductwork.

43 10 00 for process air and gas blowers, compressors, filtering equipment, and appurtenances.

#### 40 15 00 Combustion System Gas Piping

Includes: industrial combustion process gases piping.

See: 23 24 00 for internal-combustion engine piping.
23 35 16 for engine exhaust systems.
23 51 00 for HVAC-related breechings, chimneys, and stacks.
42 00 00 for process heating, cooling, and drying equipment.
44 60 00 for waste thermal processing equipment.
46 78 00 for thermal treatment of wastewater residuals.

- 40 17 23 Oxygen Welding and Cutting Piping
- 40 17 26 Inert Gas Welding and Cutting Piping

NUMBER TITLE EXPLANATION

#### 40 18 00 Vacuum Systems Process Piping

Includes: piping for low- and high-vacuum systems for industrial processes.

Definitions: low-vacuum: system operating pressures greater than or equal to 10 torr. High-vacuum: system operating pressures less than 10 torr. Torr: a unit of pressure used in measuring partial vacuums.

See: 22 62 00 for vacuum systems for laboratory and healthcare facilities.

- 40 18 13 Low-Vacuum Systems Process Piping
- 40 18 23 Chlorine Gas Vacuum System Piping
- 40 18 53 High-Vacuum Systems Process Piping

## 40 20 00 Liquids Process Piping

Includes: pipe, fittings, and components for industrial liquid service.

See: 21 00 00 for piping associated with fire-suppression systems.

22 00 00 for piping associated with plumbing systems.

23 00 00 for piping associated with HVAC systems.

32 80 00 for irrigation.

33 00 00 for utility piping.

40 10 00 for industrial gas and vapor process piping.

40 30 00 for industrial solid and mixed materials process piping.

40 40 00 for piping heat tracing, insulation, and corrosion protection.

#### 40 21 00 Liquid Fuel Process Piping

Includes: piping for liquids commonly used as fuels for industrial processes.

Alternate Terms/Abbreviations: biodiesel: FAME: fatty-acid methyl ester. Gasoline: petrol. No. 1 fuel-oil: coal oil: stove oil: range oil. No. 2 fuel-oil: home heating oil: diesel fuel. No. 4 fueloil: commercial heating oil. No. 5 fuel-oil: residual-type industrial heating oil: bunker B. No. 6 fuel-oil: high-viscosity residual oil: RFO: residual fuel-oil: bunker C. Kerosene: paraffin: jet fuel: rocket fuel. Tar: bitumen.

See: 23 11 00 for facility fuel piping.

23 11 13 for facility fuel-oil piping.

23 11 16 for facility gasoline piping.

33 52 00 for hydrocarbon transmission and distribution.

33 52 00 for site liquid fuel distribution.

EXPLANATION

## 40 40 00 Process Piping and Equipment Protection

Includes: heating/cooling, thermal insulation, and corrosion protection for industrial piping and process equipment.

See: 40 10 00 for industrial gas and vapor process piping. 40 20 00 for industrial liquids process piping. 40 30 00 for industrial solid and mixed materials process piping.

#### 40 41 00

#### Process Piping and Equipment Heat Tracing Includes: protective heat tracing of industrial process piping

and equipment.

See: 21 05 33 for heat tracing for fire-suppression piping. 22 05 33 for heat tracing for plumbing piping. 23 05 33 for heat tracing for HVAC piping.

40 41 13 Process Piping Heat Tracing

#### 40 42 00 Process Piping and Equipment Insulation

Includes: thermal insulation of industrial process piping and equipment.

See: 07 21 00 for thermal insulation for buildings and structures.

21 07 00 for fire-suppression insulation.

22 07 00 for plumbing insulation.

23 07 00 for HVAC insulation.

- 40 42 13 Process Piping Insulation
- 40 42 13.13 Cryogenic Temperature Process Piping Insulation
- 40 42 13.16 Low Temperature Process Piping Insulation
- 40 42 13.19 Intermediate Temperature Process Piping Insulation
- 40 42 13.23 High Temperature Process Piping Insulation
  - 40 42 13.26 Process Piping Insulation for Specialty Applications

# 40 60 00 Process Control and Enterprise Management Systems

Includes: computer, control system, and networking hardware and software for process control systems and enterprise management systems.

Alternate Terms/Abbreviations: DCS: distributed control system. I and C: instrumentation and controls. I/O: input/output. SCADA: supervisory control and data acquisition.

See: 21 09 00 for instrumentation and control for firesuppression systems.

22 09 00 for instrumentation and control for plumbing.

- 23 09 00 for instrumentation and control for HVAC.
- 25 50 00 for integrated automation facility controls.
- 26 09 00 for instrumentation and control for electrical systems.
- 33 09 00 for instrumentation and control for utilities.

NUMBER

EXPLANATION

#### 40 61 00 Process Control and Enterprise Management Systems General Provisions

Includes: requirements for supplier qualifications, coordination meetings, shipping, installation, submittals, service conditions, input/output lists, process control descriptions, training, and testing.

- 40 61 13 Process Control System General Provisions
- 40 61 16 Enterprise Management System General Provisions
- 40 61 21 Process Control System Testing
- 40 61 26 Process Control System Training
- 40 61 93 Process Control System Input/Output List
- 40 61 96 Process Control Descriptions

TITLE

#### 40 62 00 Computer System Hardware and Ancillaries

Includes: computer equipment, computer operating systems, display systems, and printers.

Alternate Terms/Abbreviations: HMI: human-machine interface.

See: 27 22 00 for computer equipment for data centers.

- 40 62 13 Server Computers
- 40 62 16 Operator Workstation Computers
- 40 62 19 Industrial Computers
- 40 62 21 Desktop Computers
- 40 62 23 Mobile Computers
- 40 62 26 Laptop Computers
- 40 62 29 Tablet Computers and Mobile Devices
- 40 62 33 Printers
- 40 62 43 Large Display Screens
- 40 62 63 Operator Interface Terminals (OIT)

#### 40 63 00 Control System Equipment

Includes: processors, communication modules, power supplies, I/O modules, chassis, and programming software for the monitoring and control of process systems. Data acquisition and data transmission for remote sites in supervisory control and data acquisition (SCADA) systems.

Alternate Terms/Abbreviations: DCU: distributed control unit. PLC: programmable logic controller. RTU: remote terminal unit.

See: 25 14 00 for integrated automation local control units.

- 40 63 13 Distributed Process Control Systems
- 40 63 43 Programmable Logic Controllers
- 40 63 83 Remote Terminal Units

#### 40 73 00 Pressure, Strain, and Force Measurement

Includes: devices for measuring absolute, gauge, and differential pressure, static forces, and weight. Multi-variable instruments that combine both pressure and temperature in the same transducer.

See: 13 51 00 for instrumentation for measuring stress in structures. 23 09 43 for pressure switches for HVAC.

28 46 12 for other initiating devices.

- 40 73 13 Pressure and Differential Pressure Gauges
- 40 73 16 Manometers
- 40 73 23 Absolute-Pressure Transmitters
- 40 73 26 Gauge-Pressure Transmitters
- 40 73 29 Differential Pressure Transmitters
- 40 73 33 Multi-Variable Pressure/Temperature Transmitters
- 40 73 36 Pressure and Differential Pressure Switches
- 40 73 43 Force Measurement Devices
- 40 73 46 Load Cells
- 40 73 53 Torque Measurement Devices
- 40 73 63 Diaphragm Seals

#### 40 74 00 Temperature Measurement

Includes: devices for measuring temperature for industrial applications.

See: 23 09 13 for temperature sensors for HVAC.

- 40 74 13 Resistance Temperature Devices
- 40 74 16 Thermocouples
- 40 74 23 Radiation Pyrometers
- 40 74 33 Thermistors
- 40 74 36 Diode Temperature Measurement Devices

#### 40 77 00 Position and Motion Measurement

Includes: devices for the measurement of acceleration, vibration, and position in industrial applications.

See: 13 52 00 for seismic instrumentation.

- 40 77 13 Acceleration Measurement Devices
- 40 77 16 Proximity Measurement Devices
- 40 77 19 Vibration Velocity Measurement Devices
- 40 77 23 Vibration Monitoring Systems
- 40 77 26 Position, Speed, and Motion Measurement Devices

#### 40 78 00 Panel Mounted Instruments

Includes: devices that are mounted on panel fronts and within panels for industrial applications.

See: 40 67 00 for control panels and racks. 40 73 13 for pressure gauges and differential pressure gauges.

- 40 78 13 Indicators and Meters
- 40 78 16 Indicating Lights
- 40 78 19 Switches and Push Buttons
- 40 78 23 Potentiometers and Manual Controllers
- 40 78 26 Chart Recorders
- 40 78 33 Annunciators
- 40 78 43 Single-Loop Controllers
- 40 78 53 Relays
- 40 78 56 Isolators, Intrinsically-Safe Barriers, and Surge Suppressors
- 40 78 59 Power Supplies
- 40 78 63 Alarm Dialers

## 40 80 00 Commissioning of Process Systems

Includes: commissioning of process system as a total system.

Notes: field quality control testing of a particular system or equipment item is typically specified in the specification section(s) associated with the equipment item or system. Use 40 80 00 for more extensive, systematic commissioning requirements affecting work results under multiple process equipment divisions.

See: 01 91 00 for procedural and administrative requirements for commissioning.

41 08 00 for separate commissioning of material processing and handling equipment.

42 08 00 for separate commissioning of heating, cooling, and drying equipment.

43 08 00 for separate commissioning of gas and liquid handling, purification, and storage equipment.

44 08 00 for separate commissioning of pollution control equipment.

45 08 00 for separate commissioning of industry-specific manufacturing equipment.

46 08 00 for separate commissioning of water and wastewater equipment.

48 08 00 for separate commissioning of electrical power generation systems.

NUMBER

| EXPLANATION |
|-------------|

## 40 90 00 **Primary Control Devices**

Includes: devices that adjust industrial process variables.

Notes: work results under 40 90 00 are typically for projects where the entire project has a distinct, process instrumentation/controls orientation.

See: 40 79 13 for current-to-pressure converters. 40 79 26 for voltage-to-pressure converters.

#### 40 91 00 Primary Control Valves

TITLE

Includes: control valves in instrumentation/control-related service in industrial applications.

See: 25 35 19 for integrated automation control valves. 40 05 00 for process valves and gates.

- 40 91 13 Electrically-Operated Primary Control Valves
- 40 91 16 Hydraulically-Operated Primary Control Valves
- 40 91 19 Pneumatically-Operated Primary Control Valves
- 40 91 23 Solenoid Primary Control Valves
- 40 91 26 Specialty Primary Control Valves

#### 40 92 00 Self-Contained Flow Controllers

#### 40 93 00 Linear Actuators and Positioners

Includes: linear actuators and positioners in instrumentation/control-related applications.

See: 23 09 13 for actuators and operators for HVAC. 25 35 13 for integrated automation actuators and operators. 40 05 57 for actuators for process valves and hydraulic gates.

#### 40 94 00 Self-Contained Pressure Regulators

#### 40 95 00 Rotary Actuators

Includes: panels and associated system hardware to control industrial processes.

Alternate Terms/Abbreviations: I/O: input/output.

See: 25 10 00 for integrated automation network equipment. 25 13 00 for integrated automation control and monitoring network.

25 14 00 for integrated automation local control units.

THIS PAGE INTENTIONALLY LEFT BLANK

# DIVISION 41 – MATERIAL PROCESSING AND HANDLING EQUIPMENT

## 41 00 00 Material Processing and Handling Equipment

May be used as Division level Section title.

See: 40 90 00 for instrumentation for process systems.

## 41 01 00 Operation and Maintenance of Material Processing and Handling Equipment

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of material processing and handling equipment.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation. .81-.89 for replacement.

- .91-.99 for restoration.
- 41 01 52 Operation and Maintenance of Bulk Materials Storage
- 41 01 52.13 Storage Bin and Hopper Cleaning
- 41 01 52.16 Silo Cleaning

#### 41 05 00 Common Work Results for Material Processing and Handling Equipment

41 05 05 Selective Demolition for Material Processing and Handling Equipment See: 02 41 19 selective demolition for whole structure demolition.

#### 41 06 00 Schedules for Material Processing and Handling Equipment

Includes: schedules of items common to multiple titles in Division 41.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

- 41 06 10 Schedules for Bulk Material Processing Equipment
- 41 06 20 Schedules for Piece Material Handling Equipment
- 41 06 30 Schedules for Manufacturing Equipment
- 41 06 40 Schedules for Container Processing and Packaging
- 41 06 50 Schedules for Material Storage

41 06 60 Schedules for Mobile Plant Equipment

#### 41 08 00 Commissioning of Material Processing and Handling Equipment

Includes: separate commissioning of material processing and handling equipment.

See: 40 80 00 for commissioning of process systems as a total system.

- 41 08 10 Commissioning of Bulk Material Processing Equipment
- 41 08 20 Commissioning of Piece Material Handling Equipment
- 41 08 30 Commissioning of Manufacturing Equipment
- 41 08 40 Commissioning of Container Processing and Packaging
- 41 08 50 Commissioning of Material Storage
- 41 08 60 Commissioning of Mobile Plant Equipment

## 41 10 00 Bulk Material Processing Equipment

Includes: equipment for handling and processing of bulk solid materials for industrial processes.

See: 41 08 10 for commissioning of bulk material processing equipment.

#### 41 11 00 Bulk Material Sizing Equipment

Includes: bulk material size reduction, agglomeration, and segregation equipment for industrial processes.

See: 41 24 33 for magnetic separators. 43 22 23 for liquid centrifuges.

- 41 11 13 Bulk Material Agglomerators
- 41 11 16 Bulk Material Air Mill Classifiers
- 41 11 19 Bulk Material Centrifuges
- 41 11 23 Bulk Material Crushers
- 41 11 26 Bulk Material Cyclones
- 41 11 29 Bulk Material Fluid Bed Separators
- 41 11 33 Bulk Material Grinders
- 41 11 36 Bulk Material Homogenizers
- 41 11 39 Bulk Material Lump Breakers
- 41 11 43 Bulk Material Mills
- 41 11 46 Bulk Material Pulverizers
- 41 11 49 Bulk Material Screens
- 41 11 53 Bulk Material Shredders
- 41 11 56 Bulk Material Sieves

# 41 20 00 Piece Material Handling Equipment

Includes: equipment for the handling and processing of discrete pieces of material.

See: 41 08 20 for commissioning of piece material processing equipment.

#### 41 21 00 Conveyors

Includes: automatic guided vehicles, conveyors, diverters, and chutes. Postal conveyors, diverters, and chutes.

Alternate Terms/Abbreviations: AGV: automatic guided vehicle.

See: 10 55 00 for postal specialties.

11 29 00 for postal, packaging, and shipping equipment.

- 11 43 16 for food delivery conveyors.
- 14 70 00 for turntables.
- 34 77 39 for baggage conveying equipment.
- 41 12 13 for bulk material conveyors.

# 41 50 00 Material Storage

Includes: bulk solid, liquid, and piece material storage equipment.

See: 41 08 50 for commissioning of material storage.

#### 41 51 00 Automatic Material Storage

Includes: automated storage systems for industrial processes.

Alternate Terms/Abbreviations: AS/RS: automatic storage/automatic retrieval.

41 51 13 Automatic Storage/Automatic Retrieval Systems

| Division 41   |   |

## 41 60 00 Mobile Plant Equipment

Includes: equipment designed to move material, equipment, or personnel to work locations, and for maintenance of the mobile devices.

See: 41 08 60 for commissioning of mobile plant equipment.

#### 41 61 00 Mobile Earth Moving Equipment

Includes: mobile equipment for earth moving operations.

See: 31 20 00 for earth moving.

- 41 61 13 Backhoes
- 41 61 16 Bulldozers
- 41 61 19 Compactors
- 41 61 23 Excavators
- 41 61 26 Graders
- 41 61 29 Payloaders
- 41 61 33 Trenchers

#### 41 62 00 Trucks

Includes: bulk and piece material transport vehicles.

See: 03 30 00 for cast-in-place concrete.

- 41 62 13 Cement Mixer Trucks
- 41 62 16 Dump Trucks
- 41 62 19 Flatbed Trucks

THIS PAGE INTENTIONALLY LEFT BLANK

# DIVISION 42 – PROCESS HEATING, COOLING, AND DRYING EQUIPMENT

# 42 00 00 Process Heating, Cooling, and Drying Equipment

May be used as Division level Section title.

See: 40 90 00 for instrumentation for process systems.

## 42 01 00 Operation and Maintenance of Process Heating, Cooling, and Drying Equipment

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of heating, cooling, and drying equipment.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance. .61-.69 for repair.

.71-.79 for rehabilitation.

.81-.89 for replacement.

.91-.99 for restoration.

- 42 01 10 Operation and Maintenance of Process Heating Equipment
- 42 01 20 Operation and Maintenance of Process Cooling Equipment
- 42 01 30 Operation and Maintenance of Process Drying Equipment

# 42 05 00 Common Work Results for Process Heating, Cooling, and Drying Equipment

42 05 05 Selective Demolition for Process Heating, Cooling, and Drying Equipment See: 02 41 19 for selective demolition for whole structure demolition.

### 42 06 00 Schedules for Process Heating, Cooling, and Drying Equipment

Includes: schedules of items common to multiple titles in Division 42.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

42 06 10 Schedules for Process Heating Equipment

| Number | Title | Explanation |
|--------|-------|-------------|
|        |       |             |

- 42 06 20 Schedules for Process Cooling Equipment
- 42 06 30 Schedules for Process Drying Equipment

# 42 08 00 Commissioning of Process Heating, Cooling, and Drying Equipment

Includes: separate commissioning of heating, cooling, and drying equipment.

See: 40 80 00 for commissioning of process systems as a total system.

- 42 08 10 Commissioning of Heating Equipment
- 42 08 20 Commissioning of Cooling Equipment
- 42 08 30 Commissioning of Drying Equipment

# 42 10 00 Process Heating Equipment

Includes: boilers, heaters, heat exchangers, industrial furnaces, and ovens.

See: 23 50 00 for central heating equipment.
42 08 10 for commissioning of heating equipment.
42 20 00 for process cooling equipment.
42 30 00 for process drying equipment.

#### 42 11 00 Process Boilers

Includes: boilers for water and other industrial process fluids.

Definitions: low pressure: less than 100 pounds per square inch gauge (PSIG). Intermediate pressure: 100-500 PSIG. High pressure: greater than 500 PSIG.

See: 23 52 00 for heating boilers.

- 42 11 13 Low-Pressure Process Boilers
- 42 11 16 Intermediate-Pressure Process Boilers
- 42 11 19 High-Pressure Process Boilers
- 42 11 23 Specialty Process Boilers

#### 42 13 00 Industrial Heat Exchangers and Recuperators

Includes: convective, conductive, and radiation heat exchangers/recuperators for industrial processes.

See: 22 33 30 for residential, collector-to-tank, heat-exchangercoil, solar-electric domestic water heaters.

- 23 56 00 for solar energy heating equipment.
- 23 57 00 for heat exchangers for HVAC.

26 31 00 for photovoltaic collectors.

42 12 23 for solar process heaters.

48 14 00 for solar energy electrical power generation equipment.

- 42 13 13 Industrial Gas-to-Gas Heat Exchangers
- 42 13 16 Industrial Liquid-to-Gas/Gas-to-Liquid Heat Exchangers
- 42 13 19 Industrial Liquid-to-Liquid Heat Exchangers
- 42 13 23 Industrial Gas Radiation Heat Exchangers
- 42 13 26 Industrial Solar Radiation Heat Exchangers

#### 42 14 00 Industrial Furnaces

Includes: thermal industrial processing furnaces for temperatures generally greater than 260 degrees C.

See: 23 54 00 for facility heating furnaces.

- 42 14 13 Annealing Furnaces
- 42 14 16 Atmosphere Generators
- 42 14 19 Industrial Baking Furnaces
- 42 14 23 Industrial Brazing Furnaces

| Number      | Title         | EXPLANATION             |   |

#### 42 15 00 Industrial Ovens

Includes: thermal industrial processing ovens for temperatures generally greater than 260 degrees C.

See: 11 44 16 for food cooking ovens.

- 42 15 13 Industrial Drying Ovens
- 42 15 16 Industrial Curing Ovens
- 42 15 19 Industrial Specialty Ovens

# 42 20 00 Process Cooling Equipment

Includes: cooling towers, chillers, condensers, evaporators/humidifiers for industrial processes.

See: 23 60 00 for facility central cooling equipment.
42 08 20 for commissioning of cooling equipment.
42 10 00 for process heating equipment.
42 30 00 for process drying equipment.

#### 42 21 00 Process Cooling Towers

Includes: open- and closed-circuit cooling towers with natural and/or forced draft for industrial processes.

See: 23 65 00 for facility cooling towers.

- 42 21 13 Open-Circuit Process Cooling Towers
- 42 21 16 Closed-Circuit Process Cooling Towers

#### 42 22 00 Process Chillers and Coolers

Includes: mechanical and thermoelectric chillers for industrial processes.

See: 23 64 00 for facility packaged water chillers.23 64 16 for facility centrifugal water chillers.23 64 19 for facility reciprocating water chillers.

23 64 26 for facility rotary-screw water chillers.

#### 42 23 00 Process Condensers and Evaporators

Includes: vapor condensers, fluid evaporators, and humidifiers for industrial processes.

See: 23 63 00 for facility refrigerant condensers. 23 76 00 for facility evaporative air-cooling equipment. 23 84 13 for facility humidifiers.

- 42 23 13 Process Condensers
- 42 23 16 Process Cooling Evaporators
- 42 23 19 Process Humidifiers

# 42 30 00 Process Drying Equipment

Includes: gas and solid/bulk material dryer for industrial processes.

See: 42 08 30 for commissioning of drying equipment.42 10 00 for process heating equipment.42 20 00 for process cooling equipment.

#### 42 31 00 Gas Dryers and Dehumidifiers

Includes: equipment for removing liquids from gases for industrial processes.

See: 23 84 16 for facility dehumidifiers.

- 42 31 13 Drying Evaporators
- 42 31 16 Desiccant Equipment
- 42 31 19 Regenerative Dryers
- 42 31 23 Refrigerant Dryers

#### 42 32 00 Material Dryers

Includes: equipment for removing liquids from solid/bulk materials for industrial processes.

- 42 32 13 Centrifugal Material Dryers
- 42 32 16 Conveyor Material Dryers
- 42 32 19 Flash Material Dryers
- 42 32 23 Fluid-Bed Material Dryers
- 42 32 26 Material Roasters
- 42 32 29 Rotary-Kiln Material Dryers
- 42 32 33 Spray Material Dryers

NUMBER

#### EXPLANATION

## 43 23 00 Dry Location Liquid Pumps

TITLE

Includes: pumps and ancillary equipment for conveying and handling liquids for industrial, commercial, and municipal processes, where the pump is installed at a location not subject to flooding, submergence, or immergence. Includes various types of centrifugal, positive displacement, and reciprocating pumps. Level 2 numbers from 43 23 00 through 43 26 99.99 include pumps for conveying and/or compressing liquids for various types of processes. Centrifugal (rotodynamic) pumps may include open, semi-open, or enclosed impellers, recessed impellers, screw centrifugal impellers, or disc impellers.

Alternate Terms/Abbreviations: centrifugal pump: rotodynamic pump: volute pump. Overhung pump: end-suction pump (referring to overhung-impeller design). Flexibly coupled: pump employing flexible coupling on shaft. Rigidly coupled: pump employing rigid coupling on shaft. Foot-mounted: not framemounted. Between-bearings pump: split-case pump (referring to pumps with the impeller installed between bearings). Axially split pump: split-case pump (casing split parallel to pump shaft). Radially split pump: split-case pump (casing split perpendicular to pump shaft). Gear pump: lobe pump.

See: 21 30 00 for fire pumps.

22 11 23 for domestic water pumps.

22 13 00 for plumbing sanitary wastewater pumps and ejectors.

22 14 29 for plumbing sump pumps and facility stormwater pumps.

22 51 16 for swimming pool pumps.

22 52 16 for fountain pumps.

23 12 00 for facility fuel pumps.

23 13 13 for fuel-oil storage tank pumps.

23 20 00 for HVAC pumps.

23 53 13 for boiler feed water pumps.

23 57 33 for ground source (geothermal energy) heat pumps.

32 82 00 for irrigation pumps.

33 14 43 for packaged pumping systems for water utility service.

33 32 00 for wastewater utility pumping stations.

33 32 19 for septic tank effluent pumps.

33 44 11 for field-erected stormwater pumping stations.

33 44 13 for packaged stormwater pumping stations.

33 52 00 for liquid fuel distribution pumps.

40 00 00 for process instrumentation and controls.

40 05 00 for pump control valves.

43 20 00 for liquid handling equipment.

43 24 00 for suspended process liquid pumps.

43 25 00 for submersible/immersible process liquid pumps.

43 26 00 for specialized process liquid pumps.

46 33 00 for liquid chemical metering pumps.

NUMBER

#### EXPLANATION

#### 43 24 00 Suspended Liquid Pumps

TITLE

Includes: pumps and ancillary equipment for conveying and handling liquids for industrial, commercial, and municipal processes, where the pumping element is submerged or immerged, and the pump driver is located in an area not subject to submergence or immergence. Includes various types of centrifugal and Archimedes screw-type pumps. Level 2 numbers from 43 23 00 through 43 26 99.99 include pumps for conveying and/or compressing liquids for various types of processes. Centrifugal (rotodynamic) pumps may include open, semi-open, or enclosed impellers, recessed impellers, screw centrifugal impellers, or disc impellers.

Alternate Terms/Abbreviations: centrifugal pump: rotodynamic pump. Suspended vertical pump: vertical turbine pump: vertical lineshaft pump.

Notes: double-casing pumps have the suspended vertical pump installed in a vertically oriented "suction barrel" or "suction can."

See: 21 30 00 for fire pumps.

22 11 23 for domestic water pumps.

23 20 00 for HVAC pumps.

23 57 33 for ground source (geothermal energy) heat pumps.

32 82 00 for irrigation pumps.

33 14 43 for packaged pumping systems for water utility service.

33 32 00 for wastewater utility pumping stations.

33 44 11 for field-erected stormwater pumping stations.

33 44 13 for packaged stormwater pumping stations.

40 00 00 for process instrumentation and controls.

40 05 00 for pump control valves.

43 20 00 for liquid handling equipment.

43 23 00 for dry location process liquid pumps.

43 25 00 for submersible/immersible process liquid pumps.

43 26 00 for specialized effect process liquid pumps.

- 43 24 11 Vertically Suspended Single-Casing Submersible Centrifugal Pumps
- 43 24 13 Vertically Suspended Single-Casing Discharge-through-column Centrifugal Pumps
  - 43 24 13.13 Vertically Suspended Single-Casing Discharge-through-column Diffuser Centrifugal Pumps
  - 43 24 13.23 Vertically Suspended Single-Casing Discharge-through-column Volute Centrifugal Pumps
- 43 24 13.33 Vertically Suspended Single-Casing Discharge-through-column Axial Flow Centrifugal Pumps
- 43 24 16 Vertically Suspended Single-casing Separate Discharge (Sump) Centrifugal Pumps
- 43 24 16.13 Vertically Suspended Single-Casing Separate Discharge (Sump) Line Shaft Centrifugal Pumps

| Number      | Title Explanation  |

Submersible/Immersible Liquid Pumps

#### 43 25 00

Includes: pumps and ancillary equipment for conveying and handling liquids for industrial, commercial, and municipal processes, where the pumping element and pump driver are submerged on a continuous basis or immerged on a noncontinuous basis. Includes various types of centrifugal and positive displacement pumps. Level 2 numbers from 43 23 00 through 43 26 99.99 include pumps for conveying and/or compressing liquids for various types of processes. Centrifugal (rotodynamic) pumps may include open, semi-open, or enclosed impellers, recessed impellers, screw centrifugal impellers, or disc impellers.

Alternate Terms/Abbreviations: centrifugal pump: rotodynamic pump.

See: 22 13 00 for plumbing sanitary wastewater pumps and ejectors.

22 14 29 for plumbing sump pumps and facility stormwater pumps.

- 22 51 16 for swimming pool pumps.
- 22 52 16 for fountain pumps.
- 23 12 00 for facility fuel pumps.
- 23 13 13 for fuel-oil storage tank pumps.
- 32 82 00 for irrigation pumps.
- 33 32 00 for wastewater utility pumping stations.
- 33 32 19 for septic tank effluent pumps.
- 33 44 11 for field-erected stormwater pumping stations.
- 33 44 13 for packaged stormwater pumping stations.
- 33 52 00 for liquid fuel distribution pumps.
- 40 00 00 for process instrumentation and controls.
- 40 05 00 for pump control valves.
- 43 20 00 for liquid handling equipment.
- 43 23 00 for dry location process liquid pumps.
- 43 24 00 for suspended process liquid pumps.
- 43 26 00 for specialized process liquid pumps.

NUMBER

## 43 26 00 Specialized Liquid Pumps

TITLE

Includes: pumps and ancillary equipment for conveying and handling liquids for industrial, commercial, and municipal processes, for specialized pumping conditions, often in industrial applications. Includes various types of centrifugal, regenerative, and other types of specialized pumps.

See: 32 82 00 for irrigation pumps.

33 14 43 for packaged pumping systems for water utility service.

- 33 32 00 for wastewater utility pumping stations.
- 33 32 19 for septic tank effluent pumps.
- 33 44 11 for field-erected stormwater pumping stations.
- 33 44 13 for packaged stormwater pumping stations.
- 40 00 00 for process instrumentation and controls.
- 40 05 00 for pump control valves.
- 43 20 00 for liquid handling equipment.
- 43 23 00 for dry location process liquid pumps.
- 43 24 00 for suspended process liquid pumps.
- 43 25 00 for submersible/immersible process liquid pumps.
- 46 33 00 for liquid chemical metering pumps.
- 43 26 13 Submersible Grinder Pumps
- 43 26 30 Regenerative Centrifugal Pumps
- 43 26 30.13 Overhung Impeller Regenerative Turbine Pumps
- 43 26 30.21 Overhung Impeller Single-Stage Regenerative Turbine Pumps
- 43 26 30.23 Overhung Impeller Two-Stage Regenerative Turbine Pumps
- 43 26 30.26 Between-Bearings Impeller Regenerative Turbine Pumps
- 43 26 30.27 Between-Bearings Impeller Single-Stage Regenerative Turbine Pumps
- 43 26 30.29 Between-Bearings Impeller Two-Stage Regenerative Turbine Pumps
- 43 26 40 Regenerative Turbine Pumps
- 43 26 60 Regenerative Vacuum Pumps
- 43 26 70 Rotating-Case Pumps

## 43 27 00 Process Liquid Filters

Includes: liquid filtration equipment for industrial applications.

See: 40 90 00 for process instrumentation and control. 43 31 00 for gas and liquid purification filtration equipment. 46 61 00 for filtration equipment associated with water and wastewater treatment.

- 43 27 13 Cyclonic Liquid Filters
- 43 27 16 Centrifugal Horizontal Pressure Leaf Liquid Filters
- 43 27 19 Press Liquid Filters
- 43 27 23 Liquid Bag Filters
- 43 27 33 Mechanically Cleaned Liquid Filters
- 43 27 43 Tubular Backwashing Liquid Filters
- 43 27 53 Vacuum Belt Liquid Filters

## 43 30 00 Gas and Liquid Purification Equipment

Includes: equipment for purifying liquids and gases for industrial applications.

See: 40 90 00 for process instrumentation and control. 43 08 30 for commissioning of gas and liquid purification equipment.

43 10 00 for gas handling equipment.

43 20 00 for liquid handling equipment.

43 40 00 for gas and liquid storage.

44 40 00 for water pollution control equipment.

46 00 00 for water and wastewater treatment equipment.

43 31 00

#### Gas and Liquid Purification Filtration Equipment

Includes: chemical reaction, membrane, and media filtration equipment for industrial processes.

See: 43 15 00 for process air and gas filters.
43 27 00 for process liquid filters.
43 40 00 for gas and liquid storage.
46 61 00 for filtration equipment associated with water and wastewater treatment, including microfiltration and ultrafiltration.

- 43 31 13 Gas and Liquid Purification Filters
  - 43 31 13.13 Activated Carbon-Gas and Liquid Purification Filters
  - 43 31 13.16 Gas and Liquid Purification Filter Presses
  - 43 31 13.19 High-Purity Cartridge Gas and Liquid Purification Filters
  - 43 31 13.23 Membrane Diaphragm Gas and Liquid Purification Filters
  - 43 31 13.26 Multimedia Gas and Liquid Purification Filters
  - 43 31 13.29 Pretreatment Cartridge Gas and Liquid Purification Filters
  - 43 31 13.33 Ultrafilter Units

NUMBER

# 43 40 00 Gas and Liquid Storage

Includes: pressurized and non-pressurized storage/processing vessels for gases and liquids for industrial, commercial, and municipal processes.

Notes: certain tanks, such as (but not limited to) clarifiers and biological reactor tanks associated with water and wastewater treatment processes for both non-pressurized and pressurized service, are typically under the Division of the associated tank material or work result (such as Division 03, Concrete). Tanks for such purposes would be under 43 40 00 when the tank is fabricated at a site other than the tank's final installation location.

See: 40 90 00 for process instrumentation and control.
43 08 40 for commissioning of gas and liquid storage.
43 10 00 for gas handling equipment.
43 20 00 for liquid handling equipment.
43 30 00 for liquid and gas purification for industrial processes.
46 00 00 for water and wastewater equipment.

#### 43 41 00 Non-pressurized Tanks and Vessels

Includes: non-pressurized tanks and vessels for liquid or gas storage and/or processing for industrial, commercial, and municipal processes.

Alternate Terms/Abbreviations: FRP: fiberglass-reinforced plastic. GRP: glass-fiber-reinforced plastic. PVC: polyvinyl chloride.

See: 21 41 00 for storage tanks for fire-suppression water.

22 12 00 for facility potable water storage tanks.

23 13 00 for facility fuel storage tanks.

33 16 00 for water utility storage tanks.

33 34 00 for onsite wastewater disposal.

33 56 00 for fuel storage tanks.

41 52 19 for bulk material storage tanks.

43 42 00 for pressurized tanks and vessels.

46 07 00 for tanks integral with packaged water and

wastewater treatment equipment.

46 33 00 for liquid chemical feed equipment used in water and wastewater treatment.

# DIVISION 44 – POLLUTION AND WASTE CONTROL EQUIPMENT

44 00 00 Pollution and Waste Control Equipment May be used as Division level Section title.

Includes: municipal, industrial, institutional, commercial, campus, and other pollution and waste control equipment other than water and wastewater treatment equipment. Division includes equipment for air pollution control, noise pollution control, odor control, water pollution control, solid waste control, and waste thermal processing. Water and wastewater treatment are located in Division 46. Water pollution control equipment in this Division is limited to equipment used for preventing and containing pollutants and treating pollutants without transporting the water elsewhere for treatment.

See: 02 50 00 for contaminated soils remediation. 40 90 00 for instrumentation and control for process systems. 46 00 00 for equipment used in water and wastewater treatment.

# 44 01 00 Operation and Maintenance of Pollution and Waste Control Equipment

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation of pollution control equipment.

Level 4 Numbering Recommendation: following Level 4 numbering is recommended: .51-.59 for maintenance. .61-.69 for repair.

- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.
- 44 01 10 Operation and Maintenance of Air Pollution Control
- 44 01 20 Operation and Maintenance of Noise Pollution Control
- 44 01 30 Operation and Maintenance of Odor Control Equipment
- 44 01 40 Operation and Maintenance of Water Pollution Control Equipment

44 08 60 Commissioning of Waste Thermal Processing Equipment

EXPLANATION

# 44 10 00 Air Pollution Control

Includes: equipment for reducing air pollution in exhaust gas streams by removal of gross and fine particulates, removal of gases, and vapor recovery.

See: 02 24 13 for air assessment.

23 30 00 for building ventilation and air distribution.

23 40 00 for HVAC air cleaning and filtration systems.

40 05 00 and 40 10 00 for piping and ducting associated with air pollution control.

40 90 00 for process instrumentation and controls associated with air pollution control.

43 10 00 for process air and process gas blowers, fans, process air and gas filtration, and other process air and gas equipment used with air pollution control systems.

43 30 00 for purification equipment used for industrial process gases.

44 08 10 for commissioning of air pollution control.

44 20 00 for noise pollution control.

44 30 00 for odor control.

44 40 00 for water pollution control equipment.

44 50 00 for solid waste control and reuse.

44 60 00 for waste thermal processing equipment.

NUMBER

#### Explanation

### 44 11 00 Particulate Control Equipment

TITLE

Includes: mechanical, chemical, inertial, gravitational, filtration, or electrostatic means of controlling emission of particulates. 44 11 10 through 44 11 19 includes permanently installed equipment and systems for reducing fugitive dust emissions from a site, and permanently installed equipment for monitoring ambient, atmospheric air quality. Fugitive dust control includes dust control and soil stabilization using foams, chemicals, water, or other means, and atmospheric air quality monitoring equipment. 44 11 20 includes equipment that uses gravitational force to separate particles. 44 11 30 through 44 11 39 includes equipment that employs water or other liquid to collect particles. 44 11 50 through 44 11 59 includes equipment that employs planar media to separate particles from gas flowing through the media, by inertial impaction, interception, diffusion, or sieving. 44 11 70 through 44 11 79 includes equipment that employs means other than planar filtration media to collect particles through inertial impaction, interception, or impingement. 44 11 90 through 44 11 99 includes equipment that employs electrostatic force to collect particles.

Alternate Terms/Abbreviations: electrostatic precipitator: ESP.

See: 01 56 16 for temporary dust barriers used during construction.

01 57 00 for temporary fugitive dust control during construction. 02 24 13 for air assessment.

23 35 13 for facility dust collection systems, including sawdust collection.

43 15 00 for process air and process gas filtration equipment. 43 32 59 for gas purification scrubbers used in industrial applications.

44 13 00 for gaseous air pollution control equipment.

- 44 11 13 Fugitive Dust Control
- 44 11 16 Fugitive Dust Barrier Systems
- 44 11 19 Atmospheric Air Quality Monitoring Equipment
- 44 11 20 Gravitational Separators

# 44 20 00 Noise Pollution Control

Includes: noise reduction equipment and systems not integral to other equipment or processes.

See: 44 08 20 for commissioning of noise pollution control.

44 10 00 for air pollution control.

44 30 00 for odor control.

44 40 00 for water pollution control equipment.

44 50 00 for solid waste control and reuse.

44 60 00 for waste thermal processing equipment.

46 00 00 for water and wastewater equipment.

44 21 00

### Noise Pollution Control Equipment

Includes: barriers, silencers, and electronic frequency canceling devices for noise reduction.

See: 02 22 16 for acoustic assessment.

07 92 19 for acoustic sealants.

09 80 00 for acoustic treatment.

13 21 48 for sound-conditioned rooms.

13 48 00 for sound, vibration, and seismic control.

32 35 16 for sound barriers associated with site improvements.

34 70 00 for sound barriers associated with highways,

railroads, and other modes of transportation.

- 44 21 13 Fixed Noise Abatement Barriers
- 44 21 16 Flexible Noise Abatement Barriers
- 44 21 19 Portable Noise Abatement Barriers
- 44 21 23 Noise Pollution Silencers

| Number | Title | EXPLANATION |
|--------|-------|-------------|

44 21 26 Frequency Cancellers

| 44 30 00 Odor Contr | o |
|---------------------|---|
|---------------------|---|

Includes: equipment and systems for reducing, treating, controlling, dispersing, or masking odor emissions.

See: 13 34 23 for fabricated structures and covers used for odor containment.

23 31 00 for HVAC ducts and casings used in conveying odorous air.

40 05 00 and 40 10 00 for piping and ductwork used in conveying odorous air or gases.

43 11 00 for fans and blowers associated with odor control systems.

44 08 30 for commissioning of odor control.

44 10 00 for air pollution control equipment.

44 20 00 for noise pollution control equipment.

44 40 00 for water pollution control equipment.

44 50 00 for solid waste control and reuse.

44 60 00 for waste thermal processing equipment.

46 00 00 for water and wastewater equipment.

44 31 00

### Odor Treatment Equipment

Includes: equipment and systems for treating odors via combustion, adsorption, chemical means, biological means, and other methods of odor treatment.

Alternate Terms/Abbreviations: containment: cover: odor encapsulation system. Chemical mist system: odor neutralization equipment: odor atomizing system: odor fogging system.

See: 43 32 69 for equipment used for chemical oxidation and chemical precipitation of odors in industrial applications. 44 13 00 for biological air pollution control equipment, including biofilters and biotrickling filters.

44 50 00 for solid waste processing and composting equipment and systems.

46 31 00 for equipment used for chemical oxidation and chemical precipitation of odors in water and wastewater treatment.

46 50 00 for odor control accomplished using wastewater treatment biological systems, including trickling filters and diffusers associated with biological aeration tanks. 46 78 00 for afterburners associated with sludge incineration.

44 31 11 Wet Chemical Packed Tower Odor Control Equipment

- 44 31 13 Chemical Mist System Odor Control Equipment

Number

TITLE

EXPLANATION

# 44 50 00 Solid Waste Control and Reuse

Includes: equipment for collecting, handling, and processing solid waste materials at a facility with the primary purpose of solid waste control, processing, reuse, composting, or storage.

See: 11 82 00 for manufactured solid waste handling, treatment, processing, or reuse equipment at a single facility with a primary purpose other than solid waste handling or processing.

44 08 50 for commissioning of solid waste control, treatment, or reuse.

44 10 00 for air pollution control.

44 20 00 for noise pollution control.

44 30 00 for odor control.

44 40 00 for water pollution control equipment.

44 60 00 for waste thermal processing equipment.

46 70 00 for water and wastewater residuals processing equipment.

## 44 51 00 Solid Waste Collection, Transfer, and Hauling Equipment

Includes: containers and equipment for collecting, transferring, and hauling solid waste.

See: 02 60 00 for contaminated site material removal. 11 82 13 for solid waste bins for use at other than a solid waste handling and processing facility.

34 70 00 for truck scales, railroad scales, and transport vehicle load-weighing equipment used for weighing solid waste transfer vehicles.

41 10 00 for bulk material processing equipment.

41 12 00 for belt conveyors and other bulk material conveying equipment for conveying solid waste and recyclables.

41 60 00 for solid waste collection vehicles and mobile

equipment used in transporting and handling solid waste.

44 53 11 for live-floor storage bins.

44 53 13 for refuse cranes.

- 44 51 13 Solid Waste Portable Containers
- 44 51 16 Solid Waste Stationary Containers
- 44 51 23 Solid Waste Transfer Trailers

TITLE

EXPLANATION

# 44 60 00 Waste Thermal Processing Equipment

Includes: equipment for incinerating or thermally processing solid or liquid waste at a facility with the primary purpose of waste thermal processing.

Alternate Terms/Abbreviations: MSW: municipal solid waste.

See: 11 82 19 for packaged incinerators used at a facility with a primary purpose other than waste processing.

40 47 00 for refractories.

40 90 00 for process controls associated with waste thermal processing systems and appurtenances.

40 91 00 for weight scales after waste is off-loaded to the processing facility, and other primary sensors and instruments. 41 12 00 for conveying equipment such as belt conveyors and

screw conveyors.

42 13 00 for industrial heat exchangers and recuperators.

42 14 00 for furnaces for industrial applications.

44 08 60 for commissioning of waste thermal processing equipment.

44 10 00 for air pollution control equipment.

44 20 00 for noise pollution control equipment.

44 30 00 for odor control equipment.

44 40 00 for water pollution control equipment.

44 50 00 for solid waste handling and processing equipment.

46 73 00 for wastewater sludge digestion and pasteurization.

46 76 00 for thermal sludge dryers.

46 78 00 for equipment and systems used in thermal treatment of wastewater sludge.

44 61 00

# Waste-to-Energy Plants

Includes: equipment, systems, and appurtenances for facilities with the primary purpose of combusting waste to produce electricity, reusable heat, combustible fuels, or other energy.

Alternate Terms/Abbreviations: EFW: energy-from-waste. RDF: Refused-derived fuel. WTE: Waste-to-energy.

See: 43 00 00 for process liquid and gas handling, purification, and storage equipment, including processes for producing fermentation byproducts such as ethanol, hydrogen, and other materials using non-thermal processes.

44 10 00 for air pollution control equipment.

44 64 00 for gasification equipment.

44 65 00 for pyrolysis equipment.

46 78 00 for thermal treatment of wastewater sludge.

48 00 00 for electrical power-generating equipment.

NUMBER TITLE EXPLANATION

### 44 68 00

Synthesis Gas Cleanup and Handling Equipment Includes: specialized equipment, systems, and appurtenances used in syngas applications and not generally included under Division 43 except for compressors.

Alternate Terms/Abbreviations: synthesis gas: syngas.

See: 43 12 00 for gas compressors.

43 13 00 for gas processing equipment, including mixers, blenders, regulators, burners, and gas safety equipment.

43 30 00 for Fischer-Tropsch process equipment.

43 40 00 for gas purification equipment.

43 42 00 for pressurized storage tanks and storage vessels.

# DIVISION 45 – INDUSTRY-SPECIFIC MANUFACTURING EQUIPMENT

45 00 00 Industry-Specific Manufacturing Equipment May be used as Division level Section title.

Includes: NAICS Group 339 equipment. Maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of other manufacturing equipment. User can specify industry-specific equipment in this Division that does not fit in any other process Division.

Alternate Terms/Abbreviations: NAICS: North American Industry Classification System.

Notes: user-defined industry-specific manufacturing equipment titles in Division 45 may be specified at any number 45 XX 10 through 45 XX 99.

See: 40 90 00 for instrumentation and control for process systems. 41 30 00 for manufacturing equipment.

# 45 05 00 Common Work Results for Industry-Specific Manufacturing Equipment

45 05 05 Selective Demolition for Industry-Specific Manufacturing Equipment See: 02 41 19 for selective demolition for whole structure demolition.

# 45 08 00 Commissioning of Industry-Specific Manufacturing Equipment

Includes: separate commissioning of industry-specific manufacturing equipment.

See: 40 80 00 for commissioning of process systems as a total system.

# 45 11 00 Oil and Gas Extraction Equipment

Includes: NAICS Group 211 equipment. Maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of gas and oil extraction equipment.

# DIVISION 46 – WATER AND WASTEWATER EQUIPMENT

46 00 00 Water and Wastewater Equipment May be used as Division level Section title.

Includes: equipment and work results for water treatment, wastewater treatment, and water reuse systems and processes, and related systems and equipment.

See: 33 30 00 for in-water containment booms and structures for wastewater overflow control, including combined sewer overflow controls.

40 90 00 for process instrumentation and control.

43 20 00 for liquid pumps used for conveying water, wastewater, and liquids other than chemicals. 44 40 00 for water pollution control equipment used for reducing the potential for water pollution and for treating polluted water without conveyance to a treatment facility.

# 46 01 00 Operation and Maintenance of Water and Wastewater Equipment

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation of water and wastewater equipment.

Level 4 Numbering Recommendation: following Level 4 numbering is recommended:

- .51-.59 for maintenance.
- .61-.69 for repair.
- .71-.79 for rehabilitation.
- .81-.89 for replacement.
- .91-.99 for restoration.
- 46 01 07 Operation and Maintenance of Packaged Treatment Equipment
- 46 01 20 Operation and Maintenance of Preliminary Treatment Equipment
- 46 01 30 Operation and Maintenance of Chemical Feed Equipment
- 46 01 40 Operation and Maintenance of Clarification and Mixing Equipment
- 46 01 50 Operation and Maintenance of Secondary Treatment Equipment
- 46 01 60 Operation and Maintenance of Advanced Treatment Equipment
- 46 01 70 Operation and Maintenance of Residuals Handling and Treatment

### 46 46 00 Sediment Removal Equipment

TITLE

Includes: sediment removal equipment not typically associated with clarifiers or sedimentation tanks, including equipment for washing residuals out of equalization tanks or retention tanks such as combined sewer overflow retention tanks, stormwater retention tanks, and others.

Alternate Terms/Abbreviations: water cannon: monitor.

Notes: tanks associated with sediment removal equipment are typically under the Division of the associated tank material or work result (such as Division 03, Concrete), or in 43 41 00, Atmospheric Tanks and Vessels, or other appropriate Division.

See: 33 30 00 for overflow control and treatment equipment, such as swirl concentrators, netting systems, end-of-pipe inwater storage systems. 40 90 00 for process controls, and level sensing and sediment blanket level measurement instrumentation.

#### EXPLANATION

#### 46 73 00 Residuals Stabilization

TITLE

Includes: sludge digestion, sludge pasteurization, and other types of residuals stabilization. 46 73 19 may include sediment traps (condensate pots), digester vacuum and pressure relief equipment not included in 43 33 33, sampling hatches, access hatches, and other items integral to a digester system. 46 73 33, confined gas mixing systems, may include gas lift systems and gas piston systems. 46 73 34, unconfined gas mixing systems, may include lance type gas mixing systems and bottom diffuser systems. 46 73 41 may include digester heat exchangers and combination boiler/heat exchanger systems, and appurtenances.

Alternate Terms/Abbreviations: ATAD: autothermal thermophilic aerobic digestion.

Notes: tanks associated with certain types of sludge digestion and sludge stabilization are typically under the Division of the associated tank material or work result (such as Division 03, Concrete), or in 43 41 00, atmospheric tanks and vessels, or any other appropriate Division.

See: 23 50 00 for boilers and appurtenances for digester heating.

40 90 00 for process controls, and flow measurement instrumentation.

- 42 11 00 for process boilers for industrial processes.
- 42 13 00 for industrial heat exchangers and recuperators.
- 43 11 00 for blowers used in aerobic digestion.
- 43 12 00 for digester gas compressors.
- 43 13 00 for digester gas processing equipment.
- 43 42 26 for digester gas storage spheres.
- 44 30 00 for odor control equipment.

44 55 00 for composting equipment for water and wastewater residuals, yard waste, and other biodegradable materials.
46 36 00 for dry chemical feed equipment for lime stabilization and other dry chemicals used in alkaline stabilization.
46 41 00 for mechanical mixing equipment for digesters.

46 41 21 for jet mixing equipment.

46 76 00 for sludge drying and thermal stabilization equipment.

- 46 78 73 for thermal oxidation equipment.
- 46 73 11 Radial Beam Fixed Digester Covers
- 46 73 12 Dual Deck Truss-type Fixed Digester Covers
- 46 73 14 Radial Beam Floating Digester Covers
- 46 73 16 Dual Deck Truss-type Floating Digester Covers
- 46 73 17 Radial Beam Floating Gas-holding Digester Covers
- 46 73 18 Dual Deck Truss-type Floating Gas-holding Digester Covers
- 46 73 19 Digester Appurtenances
- 46 73 21 Aerobic Digester Aeration Equipment

| Number   | Τπιε  | Explanation  |

| 46 76 00   | Residuals   | <b>Dewatering Equipment</b><br>Includes: equipment for volumetric reduction of residuals to<br>solid or semi-solid state via removal of water. Various types of<br>sludge drying equipment, including flash dryers and pelletizers,<br>including low-temperature belt dryers and thermal dryers using<br>various types of heating. |

Notes: sludge drying beds are typically under the Division of the associated material or work result (such as Division 03, Concrete); drying bed media is typically under 32 11 16 (for granular fill and aggregates) or other appropriate designation; drying bed underdrain piping is typically under 33 46 16 or 40 00 00; drying bed vacuum pumps are typically under 43 20 00; drying bed roof truss systems are typically under 05 44 00 or 06 17 00.

See: 40 90 00 for process controls, and flow measurement instrumentation.

41 11 19 for bulk materials centrifuges.

41 12 00 for sludge cake conveying equipment, including belt conveyors and screw conveyors.

41 60 00 for vehicles and equipment for handling sludge cake, such as payloaders, backhoes, and trucks.

- 42 32 00 for material dryers for industrial processes.
- 43 22 23 for liquid centrifuges used in industrial applications.
- 44 30 00 for odor control systems and equipment.

46 71 36 for centrifuge thickening equipment.

- 46 76 13 Vacuum Filters
- 46 76 21Belt Filter Presses
- 46 76 23 Plate-and-Frame Filter Presses

# **DIVISION 48 – ELECTRICAL POWER** GENERATION

48 00 00 **Electrical Power** Generation

May be used as Division level Section title.

#### 48 01 00 Operation and Maintenance for Electrical Power Generation

Includes: maintenance, repair, rehabilitation, replacement, restoration, preservation, etc. of electrical power generation.

Level 4 Numbering Recommendation: following numbering is recommended for the creation of Level 4 titles: .51-.59 for maintenance. .61-.69 for repair. .71-.79 for rehabilitation. .81-.89 for replacement.

- .91-.99 for restoration.
- 48 01 10 **Operation and Maintenance of Electrical Power Generation Equipment** 48 01 70 Operation and Maintenance of Electrical Power Generation Testing

#### 48 05 00 Common Work Results for Electrical Power Generation

Includes: subjects common to multiple titles in Division 48.

See: 01 80 00 for performance requirements of subjects common to multiple titles.

48 05 05 Selective Demolition for Electrical Power Generation See: 02 41 19 for selective demolition for whole structure demolition

#### 48 06 00 Schedules for Electrical Power Generation

Includes: schedules of items common to multiple titles in Division 48.

Notes: a schedule may be included on drawings, in the project manual, or a project book.

- 48 06 10 Schedules for Electrical Power Generation Equipment
- 48 06 70 Schedules for Electrical Power Generation Testing

# **Keyword Index**

The following alphabetical subject list will enable the user of *MasterFormat* to find a proper location for the construction work results listed in *MasterFormat*. The references within this index are to *MasterFormat* Level 2 or Level 3 numbers. They provide a convenient means to bring the user's attention to the proper grouping of titles.

The alphabetical index does not include eight-digit numbers for Level 4 titles. Subjects which relate to a Level 4 title are referenced to the appropriate Level 3 number.

Commonly used abbreviations are included in the list. The meanings of the abbreviations can be found at the locations of the abbreviations in the six-digit number column or in the Explanation column of the master listing of titles and numbers under **Alternate Terms/Abbreviations**.

Non-preferred terms in the index are addressed by **See** references to the preferred terminology. The reference to the **MasterFormat** location is listed with the preferred term.

Important points to remember:

- The alphabetical listing refers to the title and number.
- Once the user has found the proper group for a subject, a decision must be made about what level title should be used. Titles at Levels 2, 3, or 4 may be used as appropriate.
